SECTION II- RISK FACTORS

1. ***We have not entered into long-term agreements with most of our raw material suppliers. If we are unable to procure adequate quantities of raw materials or at competitive prices, our business, results of operations and financial condition may be adversely affected. Any increase or fluctuation in prices of our raw materials, may have a material adverse effect on our business, results of operations and financial condition.***

We usually procure raw materials from our major suppliers either under formal agreements or on a short-term basis through purchase orders, and we do not enter into long-term contracts with them. Any reduction of supplies or discontinuation or delay of supplies from any of such suppliers may adversely affect our financial performance and results of operations. The details of our raw material purchase for the Fiscals indicated are as under:

Particulars	FY 2025-2026		FY 2024-25		FY 2023-24	
	Amount (₹ in Lakhs)	% of Purchase	Amount (₹ in Lakhs)	% of Purchase	Amount (₹ in Lakhs)	% of Purchase
Top One Supplier	1,771.20	8.96%	1,553.08	13.00%	867.44	10.52%
Top Three Suppliers	4,175.14	21.12%	1,754.00	14.68%	867.44	10.52%
Top Five Suppliers	6,150.15	31.11%	3,322.13	27.80%	1,932.97	23.44%
Top Ten Suppliers	9,747.63	49.30%	7,653.66	64.05%	3,000.08	36.38%

In the absence of long-term contracts, we cannot assure you that we will be able to continue to obtain adequate or continuous supplies of our raw materials, in a timely manner or at competitive prices, in the future.

Our operations are dependent upon the price and availability of raw materials that we require for the manufacturing of our cables and wires. The raw materials used in our manufacturing process are Aluminium & Copper Wire and Rods, Polyvinyl Chloride (PVC), Cross-linked polyethylene (XLPE), GI Strips/Wires & Packing wooden drums, which are prone to price fluctuations. The following table sets forth the details of our total cost of goods sold for the periods indicated:

Particulars	FY 2025-26	FY 2024-25	FY 2023-24
Cost of Goods sold (₹ in lakhs)	17,915.93	12,337.00	7994.53
Cost of Goods sold as a Percentage of Revenue from Operations (%)	85.12%	88.25%	90.50%

These raw materials are subject to supply disruptions and are very volatile due to price fluctuations resulting from, domestic and foreign trade policies, shifts in supply and demand, competition and other factors beyond our control. We do not currently undertake any hedging activities or enter into derivative contracts to mitigate the risk arising from volatility in raw material prices. While we generally pass on the cost increases to our customers, however, we may not be able to pass on every instance of increase in cost and may have to pursue internal cost control measures. If we are not able to compensate for or pass on our increased costs to customers, such price increases could have a material adverse impact on our result of operations, financial condition and cash flows.

Our arrangements with suppliers are generally governed by the terms specified in the relevant purchase orders and supporting documents. In the event of any dispute with a supplier, we seek to resolve the matter based on the applicable terms and conditions, supporting documents and discussions with the concerned supplier. We maintain records of our transactions with suppliers to establish the respective rights, obligations and responsibilities of the parties.

We have not experienced any material disputes with our major raw material suppliers arising from the absence of formal long-term supply agreements.

2. ***Our Company's manufacturing activities are employee intensive and are subject to labour laws and any strike, work stoppage or increased wage demand by our employees or any other kind of disputes with our employees or high attrition could adversely affect our business, financial condition, results of operations and cash flows.***

Our operations and manufacturing process are employee intensive and depend on our ability to retain employees. As on March 31, 2026, we have employed 167 permanent employees. Our attrition rate of employees for Fiscal 2026, Fiscal 2025, Fiscal 2024 was 13.67 %, 5.52 %, and 28.30 %, respectively. High attrition rates may lead to an increase in our training and recruitment costs, which may have an adverse impact on our profitability and financial condition. High attrition and competition for manpower may limit our ability to attract and retain the skilled manpower necessary for us to meet our future growth requirements. There can be no assurance that skilled manpower will continue to be available in sufficient numbers and at wages suitable to our requirements.

Additionally, we have seen an increasing trend in manpower costs in India, which has had a direct impact on our employee costs and consequently, on our margins. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Employee cost incurred by our company for last 3 financial years is as under:

Particulars	**FY 2025-26**		**FY 2024-25**		**FY 2023-24**	
	Amount (₹ in Lakhs)	**% of Revenue from Operations**	**Amount (₹ in Lakhs)**	**% of Revenue from Operations**	**Amount (₹ in Lakhs)**	**% of Revenue from Operations**
Employee Benefits Expense	228.33	1.08%	288.21	2.06%	356.91	4.04%

We may need to increase compensation and other benefits in order to attract and retain key personnel in the future and that may materially affect our costs and profitability. We cannot assure you that as we continue to grow our business in the future, our employee costs coupled with operating expenses will not significantly increase.

The Company maintains regular communication with its employees and manages its manpower requirements based on its operational needs. All manpower-related matters have been managed through timely recruitment and replacement of personnel, and the Company has been able to maintain continuity of its manufacturing operations.

Although our employees are not currently unionized and we have not experienced any major disruptions in our business operations due to disputes or other problems with our work force in the past, however, there can be no assurance that they will not unionize in the future or we will not experience such disruptions in the future. If our employees unionize, it may become difficult for us to maintain flexible employee policies, and we may face the threat of employee unrest, work stoppages and diversion of our

management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition and may also divert the management's attention and result in increased costs.

4. ***Our Company does not own the land on which premises of our registered office and manufacturing units are situated and both the land are on long term lease arrangement. Our depot is also operated from lease premised. Any termination of such lease/license thereof and attachment by land owner could adversely affect our operations.***

As on the date of this Draft Red Herring Prospectus, land on which premises of our registered office and manufacturing units are situated, has been taken on long term lease basis from our promoter. Further, our Depot is also operated through lease premises. Details of which are as under:

**Please refer Risk Factor no. 18— "Our Company has entered into related party transactions in the past and may continue to enter into related party transactions in the future, which may potentially involve conflicts of interest with the equity shareholders" of this Draft Red Herring Prospectus.*

We carry out our business operations such as manufacturing, quality control, accounts, sales, marketing, human resource, customer service from the aforesaid offices and both the Manufacturing Units including operational functions such as drawing, furnacing, stranding, testing laboratories, armouring and logistics ensuring smooth running of our business operations. For details, see "Our Business – Properties" on page no 227 of this Draft Red Herring Prospectus.

As a safeguard against the non-renewal risk, the lease agreement for the land of our manufacturing facilities grants our Company the right to renew the lease for further of 20 years, subject to compliance with the terms of the lease and issuance of the requisite notice. Our Company has not experienced any material disputes or interruptions in the use of such premises and believes that these arrangements provide operational stability for the foreseeable Future. Further, specific alternative land have not been identified as on the date of this Draft Red Herring Prospectus. However, suitable land parcel/ factory shed are available in the surroundings, which may be considered by the Company in the event of non-renewal of the existing lease agreements after completion of lease period.

Risk factor number 22 shall be shifted to Risk factor no. 7.

7. ***Our business is subject to seasonality in the industries in which our customers operate, which may contribute to fluctuations in our results of operations and financial condition.***

We supply cables and conductors primarily to energy transmission and distribution, renewable energy integration, railways and industrial applications, where demand is influenced by seasonal factors. In particular, during the pre-monsoon and monsoon season, project execution and installation activities are often delayed or slowed down due to site inaccessibility, safety concerns and adverse weather conditions. Consequently, demand for our products in these sectors tends to be lower during this period, leading to seasonality in our order inflows and revenue recognition. On contrary, the last quarter of fiscal has historically been more revenue generating due to increased realisation from government projects. Such fluctuations may impact our capacity utilisation, working capital cycle and cash flows, and could adversely affect our business operations and financial performance.

9. **Our Company has, in the past, experienced delays in the filing of certain forms with the Registrar of Companies (ROC) as required under the Companies Act, 2013.**

Our Company has, in the past, experienced delays in the filing of certain forms with the Registrar of Companies (ROC) as required under the Companies Act, 2013. These delays could potentially attract penalties, fines, and other regulatory actions against our company, which may adversely affect our financial condition and reputation.

The details of late filings with ROC are as follows for which company has already paid requisite additional fees/late filing fees at the time of filing:

Sr. No.	Year	Form	Event	Due date	Date of Filing	Late Fees/ Penalty paid (₹)

13		MGT-14	Right Issue dated 24.01.2026	23.02.2026	20.03.2026	1,200

The aforesaid forms could not be filed due to the non-appointment of a qualified professional to manage our Company's compliances. The Company has taken corrective measures to rectify the errors made in the forms by filing relevant forms with the RoC and our Company has also appointed a Company Secretary and Compliance Officer in the Company as a measure of corrective step to avoid delayed, incorrect filings or any non-compliances in the future.

While on the date of this Draft Red Herring Prospectus, there is no legal proceedings or regulatory action that has been initiated against our Company in relation to such delays in filing statutory forms with the RoC, we cannot assure you that such legal proceedings or regulatory actions will not be initiated against our Company in future. In the event such penalties are material, they may adversely affect our financial condition, cash flows and results of operations.

Further, although no compounding or adjudication application has been filed by our Company with the RoC in relation to such non-compliances as on the date of this Draft Red Herring Prospectus, there can be no assurance that the RoC may not initiate adjudication proceedings or impose penalties in respect of such non-compliances in the future, which may adversely affect our financial condition, cash flows and results of operations.

23. ***We are subject to strict quality requirements and any product defect issues or failure by us or our raw material suppliers to comply with quality standards may lead to the cancellation of existing and future orders, recalls or exposure to potential product liability claims.***

We face an inherent business risk of exposure to product defects and subsequent liability claims if the use of any of our products results in personal injury or property damage. The products manufactured by us comply with ISO and BIS certifications. For details related to ISO and BIS certification held by our company, refer chapter titled "GOVERNMENT AND OTHER KEY APPROVALS" beginning on page no. 354 of Draft Red Herring prospectus.

We conduct quality checks and inspections of our products through our quality control laboratory before dispatch. If we are unable to meet regulatory relevant quality standards in India, or the quality standards imposed by our customers and applicable to our manufacturing processes, which could have a material adverse effect on our business, financial condition, results of operations and cash flows. If any of our products do not meet regulatory standards or are defective or there are delays in our current or future orders and we are unable to receive extensions from our customers, we may be, inter alia, (i) responsible for liquidated damages and termination, (ii) required to replace such products; (iii) exposed to late delivery charges; or (iv) incur significant costs to defend any such claims.

In case any genuine quality issue is reported by a customer, we address the same on a case-to-case basis and, where required, replace the defective product. There is no fixed maximum indemnity amount agreed by the Company in this regard. In case of any minor defect arising due to transportation or handling, such defect is generally required to be reported within two weeks of delivery, and the Company generally replaces such product within 15 days of receiving the complaint, as applicable.

We are generally required to furnish performance guarantees in the form of bank guarantees. In the event we fail to perform under the terms of a contract, a bank guarantee may be called upon by our customer, which could adversely affect our financial condition and results of operations. Failure to effectively cover ourselves against any of these reasons could expose us to substantial costs and potentially lead to material losses.

As on date, we have not faced any cancellation of existing and future orders, recalls and exposure to potential product liability due to any product defect issues or failure by us or our raw material suppliers for not complying with quality standards, however, there can be no assurance that such instances may not occur in future. Faults in technical specifications might also lead to order rejection or modification, which may not be foreseen. In addition, if there is a customer dispute regarding our product or deliveries, the customer may delay or withhold payment to us. Our products depend on customer's expectations and choice or demand of the customers. In the past, we have incurred liquidation damage/ late delivery charges in respect of our contracts, as follows:

Particulars	FY 2025-26	FY 2024-25	FY 2023-24
Liquidity Damages	8.93	10.69	-
% of Revenue from operations	0.04%	0.08%	-

To reduce cost of liquidated damages in future, our Company closely monitors production and delivery schedules, maintains adequate inventory of key raw materials and regularly reviews order execution progress. In cases where delays arise due to customer-related issues, changes in specifications, regulatory approvals or other factors beyond our control, we seek appropriate extensions of time in accordance with the applicable contractual terms.

32. ***Activities involving our manufacturing operations and the handling of heated materials expose us to operational and workplace risks, which may adversely affect our business, financial condition and results of operations.***

Our manufacturing operations involve the handling of heated and flammable materials and the use of machinery, exposing us to risks such as workplace accidents, fires, explosions, equipment failures, power outages, natural disasters, environmental hazards and other operational disruptions. Such incidents may result in personal injury, loss of life, damage to property or equipment, environmental harm, suspension of operations, production and delivery delays, inability to meet customer demand, litigation, regulatory liabilities and reputational damage. ~~Although we maintain safety procedures The~~ Although the company provide~~s~~ **training to employees, follows standard operating procedures (SOPs), displays necessary safety warnings and signage, and has installed grills, safety barriers and walls wherever required**. The Company also takes necessary safety measures at its manufacturing facilities to ensure a safe working environment but there can be no assurance that such incidents will not occur or that our insurance will fully cover all losses. While no such material incidents, claims or litigation have occurred during Financial Years 2026, 2025 and 2024, any future occurrence could materially and adversely affect our business, financial condition, cash flows and results of operations.

40. ***Information relating to the installed manufacturing capacity of our existing manufacturing units included in this Draft Red Herring Prospectus is based on various assumptions and estimates, and future production and capacity utilization may vary.***

Information relating to our installed capacities and capacity utilization of our manufacturing facilities is based on various assumptions and estimates of our management, including proposed operations, assumptions relating to availability and quality of raw materials, potential utilization levels and operational efficiencies. Capacity utilisation depends on order inflows, customer requirements, product mix and prevailing market conditions. The Company prepares production plans based on confirmed orders and anticipated demand to optimise manufacturing capacity. To improve utilisation, the Company intends to focus on expanding its customer base, diversifying its product portfolio, including PICC, and enhancing production efficiency. The Company believes these measures will support improved capacity utilisation, subject to market demand and other operational factors. While we have obtained certificates from independent chartered engineer, namely, Raj Techno Essential, in relation to such capacities, future capacity utilization may vary significantly from the existing production capacities of our production facilities, installed capacities and historical capacity utilization. For Information relating to the installed manufacturing capacity of our existing manufacturing units, please refer chapter titled "Our Business" beginning on page no. 187 of this Draft Red Herring Prospectus. Undue reliance should therefore not be placed on the information relating to our installed capacities or historical capacity utilization of our manufacturing facilities included in this Draft Red Herring Prospectus.

Risk factor no. 75 shall be added as follows:

75. ***There is no guarantee that our Equity Shares will be listed on SME platform of the Stock Exchange in a timely manner or at all.***

In accordance with Indian law and practice, permission for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Issue and until Allotment of Equity Shares pursuant to this Issue. In accordance with current regulations and circulars issued by SEBI, our Equity Shares are required to be listed on the BSE SME within such time as mandated under UPI Circulars, subject to any change in the prescribed timeline in this regard. However, we cannot assure you that the trading in our Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining final listing and trading approvals may restrict your ability to dispose of your Equity Shares.

Note: The two Rights Issues were undertaken to meet the Company's funding requirements for business growth, expansion and ongoing operational requirements. The proceeds were utilised towards day-to-day operational requirements and strengthening the Company's financial position. The Rights Issue ratio was determined by the Board based on the Company's funding requirements, paid-up share capital, financial position and capital structure, while providing existing shareholders an opportunity to participate proportionately. Both Rights Issues were undertaken in accordance with Section 62(1)(a) of the Companies Act, 2013

32. We hereby confirm that there will be no further issue of capital, whether by way of issue of bonus shares, preferential allotment, rights issue, Pre-IPO Placement or in any other manner, during the period commencing from the date of the Draft Red Herring Prospectus until the Equity Shares issued pursuant to the Issue have been listed or the application monies are unblocked on account of failure of the Issue.

34. "An over-subscription to the extent of 10% of the Net Offer can be retained for the purpose of rounding off to the nearest integer during finalizing the allotment, subject to minimum allotment, which is the minimum application size in this Offer. Consequently, the actual allotment may go up by a maximum of 10% of the Net Offer, as a result of which, the post offer paid up capital after the Offer would also increase by the excess amount of allotment so made. In such an event, the Equity Shares held by the Promoters and subject to lock-in shall be suitably increased; so as to ensure that 20% of the post Offer paid-up capital is locked in."

SECTION V – PARTICULARS OF THE ISSUE

OBJECTS OF THE ISSUE

DETAILS OF THE FUND REQUIREMENT

1) Funding the capital expenditure requirements of our Company towards:

Particulars	Unit-I	Unit-II	Total
Installed Capacity (KM)	70,000	9,950	79,950
Actual Production (KM)	57,000	6,659	63,659

Note: *As per the Chartered Engineer Report dated June 01, 2026 issued by - Raj Techno Essentials (Regd. Valuers & Chartered Engineers), the installed capacity and actual production for FY 2025-26.*

(i) Expansion of Unit-II :

The Company has an existing installed capacity of 9,950 KM, which the company has proposed to increase to 1,77,530 KMs by installation of new machineries at Unit-II. (As per Technical Evaluation Report dated 06th August 2026 issued by Vishvakarma Consulting Services Pvt. Ltd., an independent chartered engineer) For further details, please refer to the "Our Business - Capacity Utilisation" beginning on page no. 187 of this Draft Red Herring Prospectus.

Increase in installed capacity will support the growth in manufacturing operations and cater to the anticipated increase in demand for its products. The Company has experienced growth in revenue from government tenders, which increased from ₹492.34 lakhs in Fiscal 2024 to ₹3,974.98 lakhs in Fiscal 2026. The Company's vendor registrations with Railway, Discom (UGVCL, JVVNL) and other government agencies provide access to procurement opportunities, while its ongoing efforts to obtain additional registrations and participate in government tenders are expected to support future business growth. Further, favourable Government policies towards investments in power transmission, distribution and infrastructure projects, railways, metros and smart cities are expected to drive demand for electrical wires and cables. The company expect demand from existing customers operating growing industries such as renewable energy, construction, cable and wire distributors. In view of the growth in production requirements and the anticipated increase in demand from existing and prospective customers, the Company proposes to increase its existing installed manufacturing capacity.

(ii) Paper Insulated Copper /Aluminium Conductors (PICC)

We propose to add additional product "Paper Insulated Copper / Aluminium Conductors". This product is in demand and will increase our sales. Our Company proposes to utilise an amount of ₹571.68 Lakhs from Net Proceeds to purchase machineries for manufacturing of Paper Insulated Copper /Aluminium Conductors.

(iii) Rooftop Solar Power Plant

In order to minimize the electricity cost and to use sustainable energy resource, Our Company proposes to install a roof top solar power plant. This investment in captive Solar Plant will help our company to reduce overall power cost. Our Company proposes to utilise an amount of ₹322.80 Lakhs from Net Proceeds to Install Rooftop Solar Power Plant.

The Company generally follows the following process for finalising vendors for machinery/equipment:

- Machinery/equipment requirements are identified and quotations are invited from suitable vendors, with preference generally given to direct manufacturers.
- Quotations are evaluated based on price, specifications, delivery terms, credentials and past experience.
- Suitable vendors are shortlisted and commercial terms are negotiated, wherever required.
- The selected vendor is finalised after internal approval from Board of Directors, following which the order is placed and advance payment is made.

Pursuant to the above process, our Board, at its meeting held on August 06, 2026, internally approved the proposed machinery/equipment purchases and the respective utilisation of the Net Proceeds.

Layout plan of Unit-II is provided as under:

(1)Land:

Unit-II has Land plot area of 21,796 square meter which has been taken on lease pursuant to an Agreement to Lease originally dated June 06, 2023, as amended vide amended agreement dated December 31, 2025 for a period of 10 years commencing from January 01, 2026. The land on which our Company proposes to expand is located at C.S No. 1055/1, Mehsana-Ahmedabad Highway, Linch, Mehsana. out of the total land area of 21,796 sq. mtrs. at Unit-II, an existing built-up area of 6,705.02 sq. mtrs. is presently utilised for the Company's existing operations. Further, an area of 3,294.43 sq. mtrs. is proposed to be utilised for construction of the additional factory shed for the proposed expansion. (As per Technical Evaluation Report dated 06th August 2026 issued by Vishvakarma Consulting Services Pvt. Ltd., an independent chartered engineer). The Company will be financing the lease payments from the identified internal accruals over the lease period.

(ii) Plant & Machinery

(a) Purchase of additional plant & machinery for increasing the production capacity

Existing and Proposed Installed Capacity

As per Technical Evaluation Report dated August 06, 2026, issued by the independent Chartered Engineer, Vishvakarma Consulting Services Private Limited, details of existing and proposed capacity are as under:

Unit	Product Category	Existing Installed Capacity (Per Annum)	Proposed Additional Capacity (Per Annum)	Proposed Installed Capacity After Expansion (Per Annum) (1)	Remarks
Unit-II-Existing	Wires and Cables	9,950 KM	1,67,580 KM (1)	1,77,530 KM	Proposed additional capacity considered based on capacity working for new machinery under Shed-3 expansion

(1) The proposed additional capacity of wires and cables has been considered as per the capacity working shared for the proposed machinery. The product sizes considered are 0.75 sq.mm., 1 sq.mm., 1.5 sq.mm., 2.5 sq.mm., 4 sq.mm. and 6 sq.mm. The annual capacity has been calculated considering single shift operation, 315 working days per year and two machine Lines. Other Current liabilities	It comprises of Advances from customers, Employee Benefits payable, statutory dues payable and other payables. **Other current liabilities** are projected to increase from ₹341.89 lakhs in Fiscal 2026 to ₹380.50 lakhs in Fiscal 2027, primarily based on the projected increase in the scale of operations and corresponding business liabilities.
Short term provisions	Short term provisions are comprises of provisions related to Tax, Gratuity and other expenses. Short term provisions are projected to increase from ₹40.05 lakhs in Fiscal 2026 to ₹150.00 lakhs in Fiscal 2027 based on management estimates considering an increase in income tax expense and other expenses with increase in scale of operations.

Justification of increase in working capital requirements of the Company for estimated period FY 2026-27:

The company foresees a rise in working capital needs on account of continuous increase in the revenue from business operations of the company from F.Y. 2023-24 to F.Y. 2025-26. This growth has been driven by expansion and increase in installed capacity. One of the object of the issue is "Funding capital expenditure of our company to Purchase of additional plant & machinery for increasing the production capacity" with this Capital expenditure the installed capacity of will increase by 1,67,580 KMs from our existing(as on 31st March 2026) combined installed capacity of 79,950 KMs (*As per Technical Evaluation Report dated 06th August 2026 issued by Vishvakarma Consulting Services Pvt. Ltd., an independent chartered engineer)*. Further, our company has proposed to purchase plant & machinery to manufacture PICC in the object of the issue. These proposed increase in capacity and manufacturing of PICC will enable the company to accept bigger orders, creates additional revenue streams and achieve the projected revenue. The estimated Revenue from Operations for FY 2026-27 is projected at ₹31,571.11 Lakhs from ₹21047.41 Lakhs in FY2025-26. The Company has projected revenue from operations of ₹31,571.11 lakhs for Fiscal 2027, representing a growth of 50.00% over Fiscal 2026.The increase in revenue is expected to result in a corresponding rise in Trade Receivables which are estimated at ₹4,870.18 Lakhs in FY 2026-27 compared to ₹3,735.74 Lakhs in FY 2025-26. Additionally, to support increased production and sales volumes, Inventory levels are projected to increase from ₹5115.34 Lakhs in FY 2025-26 to ₹6043.58 Lakhs in FY 2026-27. The estimated trade payables of the company are ₹1,313.73 Lakhs in FY 2026-27 compared to ₹1084.30 Lakhs in FY2025-26. The estimated trade payables holding period in FY 2026-27 reduced to 16 days compared to 17 days in FY 2025-26 with timely payments to its creditors. All these combined has resulted in the increase in working capital requirement of the company. The projected growth is based on the Company's existing business performance and the expected contribution from higher product demand, proposed increase installed capacity, increased participation in government and railway tenders, growing opportunities in the renewable energy sector and continued execution of orders. The Company believes that these factors, together with the effective

utilisation of its expanded manufacturing capacity, are expected to support the achievement of the projected revenue from operations for Fiscal 2027.

Working Capital Requirement on Incremental Basis

Trade Receivable:

Trade Receivables as a % to revenue from operations are as under:

Particulars	Fiscal 2024 (Restated)	Fiscal 2025 (Restated)	Fiscal 2026 (Restated)	Fiscal 2027 (Projected)
Trade Receivables (₹ in Lakhs)	1,160.65	2,132.29	3,735.74	4,870.18
% of Revenue from Operations	13.14%	15.25%	17.75%	15.43%

The increase in Trade Receivables as a percentage of Revenue from Operations from 13.14% in Fiscal 2024 to 17.75% in Fiscal 2026 was primarily attributable to the growth in the scale of operations, higher production volumes and increased business from renewable energy and infrastructure-related sectors, wherein sales are generally made against purchase orders with standard credit terms. The company also witnessed significant growth from railway sector/ Government tenders wherein credit terms are extended from standard credit terms.

For Fiscal 2027, the ratio is projected to moderate to 15.43%, despite the increase in absolute trade receivables, primarily due to the expected stabilisation of the receivable cycle with the growth in operations. The Company has estimated trade receivable holding period of 50 days for Fiscal 2027 as against 51 days in Fiscal 2026, based on its existing credit policy, historical collection trends, prevailing industry practices and projected growth in operations.

Trade Payables:

Trade Payables as a % to revenue from operations are as under:

Particulars	Fiscal 2024 (Restated)	Fiscal 2025 (Restated)	Fiscal 2026 (Restated)	Fiscal 2027 (Projected)
Trade Payables (₹ in Lakhs)	254.90	586.61	1,084.30	1,313.73
% of Revenue from Operations	2.89%	4.20%	5.15%	4.16%

Trade Payables increased from ₹254.90 lakhs in Fiscal 2024 to ₹586.61 lakhs in Fiscal 2025 and ₹1,084.30 lakhs in Fiscal 2026, resulting in an increase in Trade Payables as a percentage of Revenue from Operations from 2.89% to 5.15%. The movement in Trade Payables is primarily reflective of the Company's growth in procurement and manufacturing volumes. This increase was in line with the expansion of the Company's business and the higher requirement for raw materials and other inputs.

For Fiscal 2027, Trade Payables are projected at ₹1,313.73 lakhs, while the ratio to Revenue from Operations is expected to moderate to 4.16%. The moderation is primarily attributable to the Company's expectation of higher revenue growth relative to the increase in trade payables and maintenance of a stable payment cycle. The Trade Payable holding period is estimated at 16 days for Fiscal 2027 as against 17 days in Fiscal 2026, considering the Company's payment practices and supplier profile. Further, as a substantial portion of the suppliers are registered under the MSMED Act, the Company intends to continue making payments within the applicable statutory timelines.

Capacity Calculation Formula

Capaciy (KM/Month)=Speed (m/min)×60×Working Hours/Day×Working Days/Month1000\text{Capacity (KM/Month)} = \frac{\text{Speed (m/min)} \times 60 \times \text{Working Hours/Day} \times \text{Working days/Month}}{1000}Capacity (KM/Month)=1000Speed (m/min)×60×Working Hours/Day×Working Days/Month

ORDER BOOK

The Company does not maintain a formal order book comprising long-term or unexecuted contracts, as its business model is primarily based on regular purchase orders received from customers.

The Company receives purchase orders from its established customer base based on their ongoing requirements. Upon receipt of such orders, the Company plans its production and procurement of raw materials accordingly. The products are generally manufactured and dispatched within one to two months, depending on the nature and quantity of the order and on agreed delivery schedule. Accordingly, there are generally no significant long-term unexecuted orders pending. The Company also has an established distribution network, which supports recurring customer demand. For supplies to the Railway sector, the Company participates in relevant tenders and, upon successful award, receives purchase orders for the respective requirements.

SECTION VI: FINANCIAL STATEMENTS

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS FOR THE FINANCIAL YEAR ENDED MARCH 31, 2026, 2025 AND 2024

Revenue from Operation

In Fiscal 2026, Revenue from Operations had increased by ₹ 7068.28 lakhs or 50.56%, from ₹ 13,979.13 lakhs in Fiscal 2025 to ₹21047.41 lakhs in Fiscal 2026. The growth in revenue from operations is driven by increase in Installed capacity and actual production.

Particulars	Fiscal 2026			Fiscal 2025
	KMs	% Increase/ (Decrease) growth	Increase/ (Decrease) (Kms)	KMs
Installed Capacity	79,950	66.91%	32,050	47,900
Actual Production	63,659	79.39%	27,569	36,090

Note: Certified by the Raj Techno Essential, an Independent Chartered Engineer by way of their certificate dated June 01, 2026.

Our total installed capacity had increased by 32,050 KMs or 66.91% from 47,900 KMs in Fiscal 2025 to 79,950 KMs in Fiscal 2026. Whereas our actual production had increased by 27,569 KMs or 79.39% from 36,090 KMs in Fiscal 2025 to 63,659 KMs in Fiscal 2026. Further the increase in production was due to installation of automatic modern wire drawing machine and other allied machinery & equipment which became operational in at the end of 2024. Earlier the company was having conventional /manual wire drawing & coating machine with old technology.

The increase in production was due to our manufacturing Unit-II being operational entire Fiscal 2026, which enhanced our overall manufacturing capacity and enabled us to cater to higher customer demand. In Fiscal 2026, Unit- II contributed ₹ 6253.28 Lakhs or 29.71% of Revenue from operations compared to ₹ 943.47 Lakhs or 6.75% in Fiscal 2025. There was an increase in revenue from Unit-II of ₹ 5309.81 Lakhs or 562.80% in Fiscal 2026 compared to Fiscal 2025. Consequently, the combined impact of higher production volumes and the Unit-II being operational entire Fiscal 2026 resulted in an increase in revenue from operations during Fiscal 2026

Justification for variances in major Balance sheet items

Fiscal 2026 compared with Fiscal 2025

Equity Share capital:

The increase in Equity Share Capital from ₹300.00 lakhs as at March 31, 2025 to ₹777.00 lakhs as at March 31, 2026 is mainly on account of the issuance of 45,00,000 Equity Shares pursuant to the Bonus Issue on December 26, 2025, in the ratio of 150:100, and subsequent issue of Equity Shares pursuant to Rights Issues made on January 22, 2026 and March 02, 2026. The company allotted 1,35,000 Equity Shares on January 22, 2026, under Right Issue in the ratio of 29:625 i.e. 29 fully paid up equity shares for every 625 equity shares held, at an issue price of ₹ 140/-. Further, allotted 1,35,000 Equity Shares on March 02, 2026, under Right Issue in the ratio of 1:50 i.e. 1 fully paid up equity shares for every 50 equity shares held, at an issue price of ₹ 140/-.

Long-Term Borrowings

Long-term borrowings increased by ₹668.05 lakhs from ₹1956.50 lakhs to ₹2624.55 lakhs. The increase in borrowings was primarily towards funding of purchase of plant and machinery. During Fiscal 2026, fixed assets increased by ₹1,802.50 lakhs Further, During Fiscal 2026 the company utilised a Term Loan of ₹1276.17 Lakhs from HDFC Bank Ltd. for purchase of modern Plant & Machinery.

Short Term Borrowings:

In Fiscal 2026, the Company reported short-term borrowings of ₹ 5363.15 Lakhs as against ₹ 2222.86 Lakhs in Fiscal 2025, an increase of 141.27%. This was due to higher working capital requirements arising from the significant growth in the Company's business operations. The working capital requirement increased substantially, with the working capital gap increasing from ₹3,885.01 lakhs to ₹7,773.81 lakhs, an increase of 100.10%. The significant increase in the working capital gap was primarily due to higher inventory and trade receivables. Inventory increased from ₹2,461.13 lakhs to ₹5,115.34 lakhs, while trade receivables increased from ₹2,132.29 lakhs to ₹3,735.74 lakhs.

In addition to higher business volumes, the Company's key raw materials, particularly copper and aluminium, witnessed an increase in prices, resulting in a higher amount of funds being required for procurement and maintaining inventory. Consequently, short-term borrowings was increased during Fiscal 2026.

Trade Payables:

Trade Payables increased from ₹586.61 lakhs in Fiscal 2025 and ₹1,084.30 lakhs in Fiscal 2026, The movement in Trade Payables is primarily reflective of the Company's growth in procurement and manufacturing volumes. This increase was in line with the expansion of the Company's business and the higher requirement for raw materials and other inputs.

Other Current Liabilities:

Increase in Other Current Liabilities from ₹70.51 lakhs as at March 31, 2025 to ₹341.89 lakhs as at March 31, 2026, amounting to ₹271.38 lakhs, is primarily attributable to an increase in Advances from Customers from ₹1.07 lakhs to ₹170.08 lakhs on account of advances received against customer orders, Creditors for Capital Goods from ₹6.28 lakhs to ₹131.24 lakhs due to outstanding payables towards capital expenditure incurred during the year, and outstanding Employee Benefits Payable from ₹2.64 lakhs to ₹28.29 lakhs. These increases were partially offset by a decrease in Statutory Dues Payable from ₹39.45 lakhs to ₹3.74 lakhs and Interest on Income Tax Payable from ₹12.93 lakhs to Nil.

Trade Receivables

The increase in Trade Receivables from ₹2,132.29 lakhs in Fiscal 2025 to ₹3,735.74 lakhs in Fiscal 2026 was primarily attributable to the growth in the scale of operations, higher sales volumes and increased business from the renewable energy, infrastructure and railway sectors. Receivables from Government sector are subject to the contractual payment terms and certification processes applicable to tender-based contracts, which resulted in a relatively longer realisation cycle.

Inventories

The increase in Inventories from ₹2,461.13 lakhs as at March 31, 2025 to ₹5,115.34 lakhs as at March 31, 2026 was in line with the expansion of the Company's manufacturing operations and growth in production volumes.

The increase was on account of increase in total installed capacity and actual production increased. To support the expanded manufacturing activities, the Company maintained higher levels of raw materials, including copper rods, aluminium rods and GI strips, as well as of finished goods. In addition to the increase in inventory quantities, the prevailing prices of key raw materials, particularly Aluminium and Copper rods, also contributed to the substantial increase in inventory value.

Short term loans and advances

The increase in Short Term Loans and Advances from ₹47.74 lakhs as at March 31, 2025 to ₹384.88 lakhs as at March 31, 2026, amounting to ₹337.14 lakhs, was on account of an increase in GST Receivable and Advance to Suppliers.

Increase in GST Receivable from Nil as at March 31, 2025 to ₹240.99 lakhs as at March 31, 2026 was primarily attributable to the accumulation of GST input tax credit on purchases of Raw materials, Fixed Assets and expenses during the year, pending utilisation or adjustment against output GST liabilities. Advance to Suppliers increased from ₹3.24 lakhs as at March 31, 2025 to ₹73.88 lakhs as at March 31, 2026, because of advances paid to suppliers against procurement of raw materials.

Fiscal 2025 compared with Fiscal 2024

Long-Term Borrowings

Long-term borrowings increased by ₹52.45 lakhs from ₹1904.05 Lakhs in Fiscal 2024 to ₹1956.50 Lakhs in Fiscal 2025. The Company continued its investment in fixed assets, while the requirement for additional long-term borrowing remained relatively limited.

Short Term Borrowings:

The increase in short-term borrowings was primarily attributable to the growth in operations. Revenue from operations increased from ₹8,833.89 lakhs in Fiscal 2024 to ₹13,979.13 lakhs in Fiscal 2025, representing an increase of 58.24%. In line with the increase in business, trade receivables increased from ₹1,160.65 lakhs to ₹2,132.29 lakhs, an increase of 83.72%, while inventories increased from ₹2,056.83 lakhs to ₹2,461.13 lakhs, an increase of 19.66%. Consequently, the working capital gap increased from ₹2,672.83 lakhs to ₹3,885.01 lakhs, an increase of 45.35%. Accordingly, short-term borrowings increased by 61.47%, from ₹1,376.64 lakhs to ₹2,222.86 lakhs, primarily to support the increased working capital requirement arising from higher business volumes and receivables.

Trade Payables:

Trade Payables increased from ₹254.90 lakhs in Fiscal 2024 to ₹586.61 lakhs in Fiscal 2025. The increase in trade payable is due to the significant growth in the Company's business operations and the higher production volume. To support the increased revenue, the Company procured a higher volume of materials from its suppliers. As a result, the outstanding balance payable to suppliers increased as at the end of the year.

Trade Receivables

The increase in Trade Receivables from ₹1,160.65 lakhs in Fiscal 2024 to ₹2,132.29 lakhs in Fiscal 2025 was primarily attributable to the growth in the scale of operations, higher production volumes and increased business from renewable energy and infrastructure-related sectors, wherein sales are generally made against purchase orders with standard credit terms. The company also witnessed significant growth from railway sector/ Government tenders wherein credit terms are extended from standard credit terms.

Inventories

The increase in Inventories from ₹2,056.83 lakhs as at March 31, 2024 to ₹2,461.13 lakhs as at March 31, 2025 was in line with the expansion of the Company's manufacturing operations and growth in production volumes.In Fiscal 2025, the Company increased its total installed capacity from 34,500 KMs to 47,900 KMs and actual production from 25,250 KMs to 36,090 KMs. Accordingly, Inventories increased by ₹404.30 lakhs during the year.

Cash Flows from Operating Activities

Net cash outflow from operating activities in fiscal year 2026 was ₹1970.06 lakhs as compared to the Profit Before Tax (PBT) of ₹1793.99 lakhs for the same period. The difference was primarily attributable to an increase in working capital requirements arising from the expansion of business operations. During the year, cash was utilized towards higher inventories of ₹2,654.21 lakhs and trade receivables of ₹1,603.45 lakhs, which was partially offset by an increase in trade payables of ₹497.69 lakhs. ~~While the Company's operating earnings were primarily deployed towards capital expenditure to support its expansion initiatives, its short term working capital requirements were funded through cash credit facilities availed from banks.~~

Net cash from operating activities in fiscal year 2025 was ₹173.07 lakhs as compared to the PBT of ₹737.35 lakhs for the same period. This difference is primarily on account of changes in trade receivables, inventories. Cash was utilized towards higher trade receivables of ₹971.64 lakhs and inventories of ₹404.30 lakhs.

Net cash inflow from operating activities in fiscal year 2024 was ₹426.57 lakhs as compared to the PBT of ₹ 330.27 lakhs for the same period. This difference is primarily on account of changes in trade receivables, inventories, Loans and advances, provisions, Other Current & Non-Current Assets.

Reason for negative cash flow from operations

The negative cash flow from operations is primarily a consequence of the Company's growth-led increase in working capital requirements.
The key movements are summarised below:

Year on Year Revenue growth (%)	25.08%	58.24%	50.56%
PBT	330.27	737.35	1,793.99
Increase in Inventory	888.39	404.30	2,654.21
Increase in Trade Receivables	101.79	971.64	1,603.45
Increase in Trade Payables	138.33	331.71	497.69

During Fiscal 2026, the Company's revenue from operations further increased by **₹7,068.28 Lakhs, or 50.56%**, over Fiscal 2025. The continued growth in operations resulted in a significantly higher working capital requirement. In particular, **inventory increased by ₹2,654.21 Lakhs** to support higher production and sales volumes, while **trade receivables increased by ₹1,603.45 Lakhs**, primarily due to higher sales and the normal credit period extended to customers due to which the cash from such sales was realised after the reporting date. The adverse impact of the increase in working capital was partly offset by an increase of **₹497.69 Lakhs in trade payables**. Consequently, although the Company generated **Operating Profit Before Working Capital Adjustments of ₹2,530.86 Lakhs**, the significant deployment of cash towards inventory and trade receivables resulted in **Cash Flow Generated from Operations of ₹(1,518.04) Lakhs**. After payment of income taxes of ₹452.03 Lakhs, the **Net Cash Flow from Operating Activities was ₹(1,970.06) Lakhs**. The Company continued to remain profitable, with PBT increasing to **₹1,793.99 Lakhs in Fiscal 2026**.

During Fiscal 2025, the Company's revenue from operations increased by **₹5,145.24 Lakhs, or 58.24%**, over Fiscal 2024. The increase in scale of operations resulted in higher working capital requirements, with **inventory increasing by ₹404.30 Lakhs** and **trade receivables increasing by ₹971.64 Lakhs** during the year. The increase in trade receivables was primarily attributable to higher sales and the normal credit period extended to customers, while the increase in inventory was required to support the higher production and sales volumes. These increases were partly offset by an increase of **₹331.71 Lakhs in trade payables**. Consequently, despite the Company generating **Operating Profit Before Working Capital Adjustments of ₹1,246.35 Lakhs**, the increase in working capital resulted in **Cash Flow Generated from Operations of ₹3.14 Lakhs** and, after payment of income taxes of ₹176.22 Lakhs, **Net Cash Flow from Operating Activities of ₹(173.07) Lakhs**. The Company remained profitable during the year, with PBT of **₹737.35 Lakhs**. In past, the Company met its additional short-term working capital requirements through working-capital facilities availed from Bank which is reflected in cash inflow from financial activities. Any shortfall in cash flow is funded by the promoters by providing unsecured loan to the company. The unsecured loan from promoters as on 31.03.2026 and 31.03.2025 was ₹748.95 Lakhs and ₹1091.48 Lakhs respectively.

In addition to the increase in working capital, the Company incurred ₹1,628.98 lakh towards purchase of Property, Plant and Equipment and ₹250.19 lakh towards Capital Work-in-Progress (Construction of the factory shed at Unit-II). Accordingly, the negative operating cash flow primarily reflects the timing of deployment of funds towards working capital in line with the Company's significant growth in operations and business expansion.

All references to "Rupees", "Rs." or "₹" are to Indian Rupees, the official currency of the Republic of India. All references to "US$" or "US Dollars" or "USD" are to United States Dollars, the official currency of the United States of America.

Any percentage amounts, as set forth in "Risk Factors", "Our Business", "Management's Discussion and Analysis of Financial Conditions and Results of Operations" on page nos 30, 187 and 322 respectively of this Draft Red Herring Prospectus, unless otherwise indicated, have been calculated based on our restated financial statements prepared in accordance with Indian GAAP.

This Prospectus may contain conversions of certain US Dollar and other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI Regulations. These conversions should not be construed as a representation that those US Dollar or other currency amounts could have been, or can be converted into Indian Rupees, at any particular rate.

Definitions

For definitions, please see the Chapter titled "*Definitions and Abbreviations*" on page no. 1 of this Draft Prospectus. In the Section titled "*Main Provisions of Articles of Association*" beginning on page no. 458 of this Draft Prospectus, defined terms have the meaning given to such terms in the Articles of Association.

Exchange rates

This Draft Red Herring Prospectus contains conversions of certain other currency amounts into Indian Rupees that have been presented solely to comply with the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

The following table sets forth, for the periods indicated, information with respect to the exchange rate between the Indian Rupee and other foreign currencies:

Currency	Exchange rate as on		
	March 31,2026	March 31,2025	March 31,2024
1 USD	95.24	85.58	83.37

Industry and Market Data

Unless stated otherwise, the industry and market data and forecasts used throughout this Draft Red Herring Prospectus has been obtained from industry sources as well as Government Publications. Industry sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured. Further, the extent to which the industry and market data presented in this Draft Red Herring Prospectus is meaningful depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources. Accordingly, investment decisions should not be based solely on such information.

In accordance with the SEBI ICDR Regulations, "Basis for issue Price" on Page No. 153 of this Draft Red Herring Prospectus includes information relating to our peer group entities. Such information has been derived from publicly available sources, and neither we, nor the BRLM have independently verified such information.

FORWARD-LOOKING STATEMENTS

This Draft Red Herring Prospectus contains certain forward-looking statements. These forward-looking statements can generally be identified by words or phrases such as "aim", "anticipate", "believe", "expect", "estimate", "intend", "objective", "plan", "propose", "project", "will", "will continue", "will pursue", or other words or phrases of similar import. Statements that describe our strategies, objectives, plans or goals are also forward-looking statements.

All forward-looking statements are subject to risks, uncertainties, expectations and assumptions relating to our Company that could cause actual results to differ materially from those contemplated by the relevant forward-looking statements. These forward-looking statements, whether made by us or by third parties, are based on our current plans, estimates and expectations, and actual results may differ materially from those suggested by such forward-looking statements.

Actual results may differ materially from those suggested by forward-looking statements due to risks or uncertainties associated with, inter alia, regulatory changes pertaining to the industries in India in which we operate and our ability to respond to such changes; our ability to successfully implement our strategy; our growth and expansion plans; technological changes; exposure to market risks; general economic and political conditions in India impacting business activities or investments; monetary and fiscal policies of India; inflation or deflation; unanticipated volatility in interest rates, foreign exchange rates, equity prices or other rates or prices; performance of the financial markets in India and globally; changes in domestic laws, regulations and taxation; and changes in competition in the industries in which we operate. Other important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

- Costs of the raw materials that we use in our manufacturing process are subject to volatility due to factors beyond our control;
- Any shortfall in the supply of raw materials or an increase in raw material or other input costs may adversely impact the pricing and supply of our products and have an adverse effect on our business;
- We operate in the electrical equipment industry, which is highly technical and regulated, and failure to comply with prescribed regulations or customer standards could adversely affect our business, results of operations, cash flows and financial condition.
- Our Registered Office and Factory Unit I from which we operate are not owned by us.
- We rely on third-party transportation providers for procurement of input materials and distribution of finished products. Any failure by such providers to deliver materials or products on time or at all could result in loss of sales.
- Our business is dependent on our manufacturing facilities and is subject to risks inherent in manufacturing operations. Any slowdown or shutdown in manufacturing operations, strikes, work stoppages or increased wage demands by employees could adversely affect our business, financial condition and results of operations.

For further discussion of factors that could cause actual results to differ from our estimates and expectations, please refer to the sections titled "Risk Factors", "Our Business" and "Management's Discussion and Analysis of Financial Position and Results of Operations" beginning on pages 30, 187 and 322, respectively, of this Draft Red Herring Prospectus. Certain market risk disclosures are based

on estimates and may differ materially from actual future outcomes. As a result, actual gains or losses could differ materially from those estimated.

We cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. In light of these uncertainties, investors are cautioned not to place undue reliance on forward-looking statements and not to regard such statements as a guarantee of future performance.

Forward-looking statements reflect our views as of the date of this Prospectus and are not a guarantee of future performance. These statements are based on management's beliefs and assumptions derived from currently available information. Although we believe such assumptions to be reasonable, they may prove to be inaccurate, and the forward-looking statements based on such assumptions may be incorrect.

Neither our Company, our Directors, the Promoters, the Syndicate, nor any of their respective affiliates undertake any obligation to update or revise any forward-looking statements to reflect events or circumstances arising after the date of this Prospectus, even if underlying assumptions do not materialize.

In accordance with the SEBI ICDR Regulations, our Company, the Promoters and the Book Running Lead Manager shall ensure that Bidders in India are informed of all material developments until the grant of listing and trading permission by the Stock Exchange for the Issue.

SECTION II

RISK FACTORS

An investment in Equity Shares involves a high degree of financial risk. You should carefully consider all information in this Draft Red Herring Prospectus, including the risks described below, before making an investment in our Equity Shares. The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, as well as the other risks and uncertainties discussed in this Draft Red Herring Prospectus, could have a material adverse effect on our business and could cause the trading price of our Equity Shares to decline and you may lose all or part of your investment. In addition, the risks set out in this Draft Red Herring Prospectus are not exhaustive. Additional risks and uncertainties, whether known or unknown, may in the future have material adverse effect on our business, financial condition and results of operations, or which we currently deem immaterial, may arise or become material in the future. To obtain a complete understanding of our Company, prospective investors should read this section in conjunction with the sections entitled "Our Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" on page nos 187 and 322 of this Draft Red Herring Prospectus respectively as well as other financial and statistical information contained in this Draft Red Herring Prospectus. Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other risks mentioned herein.

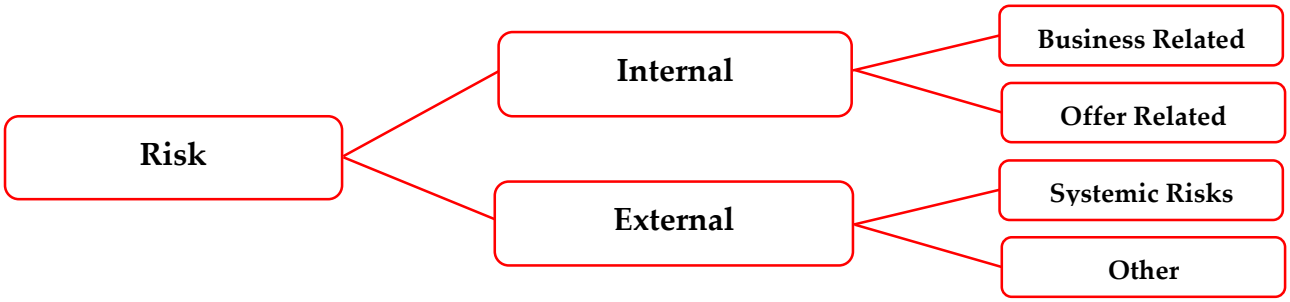

This Draft Red Herring Prospectus also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including events described below and elsewhere in this Draft Red Herring Prospectus. Unless otherwise stated, the financial information used in this section is derived from and should be read in conjunction with restated financial information of our Company prepared in accordance with the Companies Act and restated in accordance with the SEBI (ICDR) Regulations, including the schedules, annexure and notes thereto.

Materiality

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

1. Some events may have material impact quantitatively;
2. Some events may have material impact qualitatively instead of quantitatively.
3. Some events may not be material individually but may be found material collectively.
4. Some events may not be material at present but may be having material impact in future.

Classification of Risk Factors

INTERNAL RISK FACTORS

Risks related to Business and Operations

1. ***We have not entered into long-term agreements with most of our raw material suppliers. If we are unable to procure adequate quantities of raw materials or at competitive prices, our business, results of operations and financial condition may be adversely affected. Any increase or fluctuation in prices of our raw materials, may have a material adverse effect on our business, results of operations and financial condition.***

We usually procure raw materials from our major suppliers either under formal agreements or on a short-term basis through purchase orders, and we do not enter into long-term contracts with them. Any reduction of supplies or discontinuation or delay of supplies from any of such suppliers may adversely affect our financial performance and results of operations. The details of our raw material purchase for the Fiscals indicated are as under:

Particulars	FY 2025-2026		FY 2024-25		FY 2023-24	
	Amount (₹ in Lakhs)	% of Purchase	Amount (₹ in Lakhs)	% of Purchase	Amount (₹ in Lakhs)	% of Purchase
Top One Supplier	1,771.20	8.96%	1,553.08	13.00%	867.44	10.52%
Top Three Suppliers	4,175.14	21.12%	1,754.00	14.68%	867.44	10.52%
Top Five Suppliers	6,150.15	31.11%	3,322.13	27.80%	1,932.97	23.44%
Top Ten Suppliers	9,747.63	49.30%	7,653.66	64.05%	3,000.08	36.38%

In the absence of long-term contracts, we cannot assure you that we will be able to continue to obtain adequate or continuous supplies of our raw materials, in a timely manner or at competitive prices, in the future.

Our operations are dependent upon the price and availability of raw materials that we require for the manufacturing of our cables and wires. The raw materials used in our manufacturing process are Aluminium & Copper Wire and Rods, Polyvinyl Chloride (PVC), Cross-linked polyethylene (XLPE), GI Strips/Wires & Packing wooden drums, which are prone to price fluctuations. The following table sets forth the details of our total cost of goods sold for the periods indicated:

Particulars	FY 2025-26	FY 2024-25	FY 2023-24
Cost of Goods sold (₹ in lakhs)	17,915.93	12,337.00	7994.53
Cost of Goods sold as a Percentage of Revenue from Operations (%)	85.12%	88.25%	90.50%

These raw materials are subject to supply disruptions and are very volatile due to price fluctuations resulting from, domestic and foreign trade policies, shifts in supply and demand, competition and other factors beyond our control. We do not currently undertake any hedging activities or enter into derivative contracts to mitigate the risk arising from volatility in raw material prices. While we

generally pass on the cost increases to our customers, however, we may not be able to pass on every instance of increase in cost and may have to pursue internal cost control measures. If we are not able to compensate for or pass on our increased costs to customers, such price increases could have a material adverse impact on our result of operations, financial condition and cash flows.

2. ***Our business is dependent on a few customers and the loss of, or a significant reduction in award of contracts by such customers could adversely affect our business.***

We have established and will continue to focus on strengthening long-standing relationships with our customers across the end-use industries that we cater to. However, we depend on certain customers who have contributed a substantial portion to our total revenue from operations. The details of contribution by our top 10 customers to our revenues is given below:

Particulars	FY 2025-26		FY 2024-25		FY 2023-24	
	Amount (₹ in Lakhs)	% of Revenue from Operations	Amount (₹ in Lakhs)	% of Revenue from Operations	Amount (₹ in Lakhs)	% of Revenue from Operations
Top One Customer	3,863.10	18.35%	2,451.07	17.53%	480.560	5.44%
Top Three Customers	9,557.53	45.41%	3,582.00	25.62%	1,038.30	11.75%
Top Five Customers	11,419.78	54.26%	3,957.83	28.31%	1,064.81	12.05%
Top Ten Customers	13,941.35	66.24%	7,250.29	51.87%	2,489.52	28.18%

There is no guarantee that we will retain the business of our existing key customers or maintain the current level of business with each of these customers. The loss of these customers or a loss of revenue from sales to these customers may materially affect our business, financial condition, results of operations and cash flow. However, the composition and revenue generated from these clients might change as we continue to add newclients in normal course of business. We intend to retain our customers by implementing the project in cost effective and time efficient manner. This helps us in providing better value to each customer thereby increasing our engagement with our new and existing customer base that presents a substantial opportunity for growth.

We presently do not have any long-term or exclusive arrangements with any of our customers and we cannot assure you that we will be able to sell the quantities we have historically supplied to such customers. In the event our competitors' products offer better margins to such customers or otherwise incentivize them, there can be no assurance that our customers will continue to place orders with us. There can also be no assurance that our customers will place their orders with us on current or similar terms, or at all.

3. ***Our Company's manufacturing activities are employee intensive and are subject to labour laws and any strike, work stoppage or increased wage demand by our employees or any other kind of disputes with our employees or high attrition could adversely affect our business, financial condition, results of operations and cash flows.***

Our operations and manufacturing process are employee intensive and depend on our ability to retain employees. As on March 31, 2026, we have employed 167 permanent employees. Our attrition rate of employees for Fiscal 2026, Fiscal 2025, Fiscal 2024 was 13.67 %, 5.52 %, and 28.30 %, respectively. High attrition rates may lead to an increase in our training and recruitment costs,

which may have an adverse impact on our profitability and financial condition. High attrition and competition for manpower may limit our ability to attract and retain the skilled manpower necessary for us to meet our future growth requirements. There can be no assurance that skilled manpower will continue to be available in sufficient numbers and at wages suitable to our requirements.

Additionally, we have seen an increasing trend in manpower costs in India, which has had a direct impact on our employee costs and consequently, on our margins. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Employee cost incurred by our company for last 3 financial years is as under:

Particulars	FY 2025-26		FY 2024-25		FY 2023-24	
	Amount (₹ in Lakhs)	% of Revenue from Operations	Amount (₹ in Lakhs)	% of Revenue from Operations	Amount (₹ in Lakhs)	% of Revenue from Operations
Employee Benefits Expense	228.33	1.08%	288.21	2.06%	356.91	4.04%

We may need to increase compensation and other benefits in order to attract and retain key personnel in the future and that may materially affect our costs and profitability. We cannot assure you that as we continue to grow our business in the future, our employee costs coupled with operating expenses will not significantly increase.
Although our employees are not currently unionized and we have not experienced any major disruptions in our business operations due to disputes or other problems with our work force in the past, however, there can be no assurance that they will not unionize in the future or we will not experience such disruptions in the future. If our employees unionize, it may become difficult for us to maintain flexible employee policies, and we may face the threat of employee unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition and may also divert the management's attention and result in increased costs.

4. ***Our Company does not own the land on which premises of our registered office and manufacturing units are situated and both the land are on long term lease arrangement. Our depot is also operated from lease premised. Any termination of such lease/license thereof and attachment by land owner could adversely affect our operations.***

As on the date of this Draft Red Herring Prospectus, land on which premises of our registered office and manufacturing units are situated, has been taken on long term lease basis from our promoter. Further, our Depot is also operated through lease premises. Details of which are as under:

Sr. No	Location of Property	Type of Property	Land Plot Area (Sq mtr)	Is Lessor a related party*	Name of Owner / Lessor	Lease Period / Title Deed Details	Rent paid

**Please refer Risk Factor no. 18— "Our Company has entered into related party transactions in the past and may continue to enter into related party transactions in the future, which may potentially involve conflicts of interest with the equity shareholders" of this Draft Red Herring Prospectus.*

We carry out our business operations such as manufacturing, quality control, accounts, sales, marketing, human resource, customer service from the aforesaid offices and both the Manufacturing Units including operational functions such as drawing, furnacing, stranding, testing laboratories, armouring and logistics ensuring smooth running of our business operations. For details, see "Our Business – Properties" on page no 227 of this Draft Red Herring Prospectus.

As a safeguard against the non-renewal risk, the lease agreement for the land of our manufacturing facilities grants our Company the right to renew the lease for further of 20 years, subject to compliance with the terms of the lease and issuance of the requisite notice. Our Company has not experienced any material disputes or interruptions in the use of such premises and believes that these arrangements provide operational stability for the foreseeable future.

5. ***We generate our major portion of sales from our operations in certain geographical regions especially Gujarat, Rajasthan, West Bengal and Uttar Pradesh. Any adverse developments affecting our operations in these regions could have an adverse impact on our revenue and results of operations.***

In Fiscal 2026, we derived major portion of sales from Gujarat, Rajasthan, West Bengal and Uttar Pradesh. For the Financial Year ended March 31, 2026, March 31, 2025 and March 31, 2024, our revenue from our customers contributed large portion of our total revenue from operations as per our Restated Financial Statements, as depicted below:

Note: States are arranged in descending order based on March 2026 figures, with the corresponding data for previous years presented in the same order for comparison.

The concentration of our business in specific geographical regions increases our exposure to competitive, economic, and demographic risks in those regions, which may adversely affect our business, financial condition, and results of operations. Our experience in these regions may not be applicable to other parts of India due to differences in competition, regulatory frameworks, business practices, industry requirements, and local conditions. In other markets, we may face competition

from national and local participants who have established operations, greater familiarity with local regulations and practices, and stronger financial resources, which may place us at a competitive disadvantage. Any limitation in operating outside these regions may adversely affect our business, financial condition, and results of operations.

6. ***As of March 31, 2026, our debt-to-equity ratio is significantly high at 2.54. We have availed a substantial debt amounting to ₹ 7987.70 Lakhs as of March 31, 2026. Any inability to service this debt or adhere to the covenants stipulated in our financing agreements could materially and adversely impact our business operations, financial condition, and overall performance.***

We are into capital intensive business and our debt-to-equity ratio is at *2.54*, as on March 31, 2026 which is higher than some of our peers. As on March 31, 2026, we have an outstanding borrowing amounted to ₹ 7987.70 Lakhs. For details on our total borrowings, see "Financial Indebtedness" on page no. 344 of this Draft Red Herring Prospectus.

Any downturn in the industry, increases the possibility that we may be unable to generate cash sufficient to pay, when due, the principal of, interest on or other amounts due in respect of its indebtedness. In addition, as this debt matures, we may need to refinance or secure new debt which may not be available on favourable terms, or at all. Our high indebtedness levels, and other financial obligations and contractual commitments, may have other significant consequences for our business and results of operations, including:

- Increasing vulnerability to adverse changes in economic conditions, government regulations, or the competitive environment;
- diversion of our cash flow, from operations to payments on our indebtedness, and other obligations and commitments, thereby reducing the availability of our cash flows to fund working capital, capital expenditure, acquisitions and other general corporate purposes;
- limiting additional borrowings for working capital, capital expenditure, acquisitions, debt refinancing service requirements, execution of business strategy or other purposes; and
- Impairing our ability to pay dividends in the future.

Our high indebtedness levels, and other financial obligations and contractual commitments, could lead to a downgrade of our credit rating by domestic rating agencies, thereby adversely impacting our ability to raise additional financing, as well as the interest rates and commercial terms on which such additional financing is availed of. Our inability to meet our debt servicing obligations and repay our outstanding indebtedness, depends primarily on the revenue generated by our business. We cannot assure you that we will generate sufficient revenues to service existing or proposed borrowings, or for funding other liquidity needs.

7. ***We are dependent on the performance of the cables market and any adverse changes in the conditions affecting the cables market can adversely impact our business, financial condition, results of operations, cash flows and prospects.***

We derive most of our revenue from operations from the manufacture and sale of cables. Our revenue from operations for Fiscal 2026, 2025 and 2024 constituted as follows:

Products	FY 2025-26		FY 2024-25		FY 2023-24	
	Amount (₹ in Lakhs)	% of Revenue from Operations	Amount (₹ in Lakhs)	% of Revenue from Operations	Amount (₹ in Lakhs)	% of Revenue from Operations
Power cables	6,857.19	32.58%	4,854.81	34.73%	1,801.39	20.39%
Housing/ Building Wires	6,321.90	30.04%	2,419.63	17.31%	1,557.09	17.63%
Industrial Single core and Multicore Control Cables	1,510.73	7.18%	854.87	6.12%	781.01	8.84%
Submersible Flat Cables	2,894.24	13.75%	3,068.08	21.95%	3,116.67	35.28%
Solar / Photovoltaic Cables	1,896.19	9.01%	996.78	7.13%	627.77	7.11%
Welding Cable	79.53	0.38%	42.78	0.31%	44.19	0.50%
Others*	1487.63	7.06%	1742.18	12.45%	905.78	10.25%
Grand Total	**21047.41**	**100.00%**	**13979.13**	**100.00%**	**8833.90**	**100.00%**

**Others includes Sale of Scrap, Raw materials and other Residual Products.*

As a result, our business and financial condition is heavily dependent on the performance of the cables market India and globally, and we are exposed to fluctuations in the performance of these markets. If demand for cables in India decreases in the future, our business, results of operations, financial condition, cash flows and prospects may be materially and adversely affected. The cables market may be affected by, among others, changes in government policies, government initiatives, economic conditions, government and individual spending, availability of raw material and interest rates, which may negatively affect the demand and the valuation of our products. These and other factors may negatively contribute to changes in the prices of and demand for our cables and may have a material adverse effect on our business, financial condition, results of operations and cash flows.

8. ***Our company may incur penalties or liabilities for non-compliance or delay in compliance with certain provisions of GST Act, Income tax and other applicable laws in the last three years.***

Our operations are subject to various central, state, and local legislations, including the Goods and Services Tax (GST) Act, Income Tax Act, 1961, and employee laws such as the Employees' Provident Funds. Except mentioned in below table, our Company has not been subject to any penalties or adverse liabilities for non-compliance or filing delays during the preceding three Fiscals including lapsed/ made delay in certain filings and/or erroneous filing/non-filing of e-forms under applicable acts in the past 3 financial years, we cannot assure you that our internal checking mechanisms will prevent procedural errors, erroneous declarations, or administrative delays in the future.

Delays in GST filing are as follows:

Sr. No.	Financial Year	Form	Due date	Date of Filing	Late Fees/ Penalty (₹)	Reason for such Delay
1.	2024-25	GSTR-3B	20-01-2025	21-01-2025	50	Due to unavailability of Management

Any non-compliance or delay with compliance with certain aforesaid provisions may incur penalties or liabilities which may affect the results of operations and financial conditions of the company in near future.

Though The Company has implemented appropriate internal controls and monitoring mechanisms to ensure timely compliance with statutory due dates, it cannot be assured, that there will not be such instance in the future, or our company will not commit any further delays or defaults in relation to its statutory filing requirements, or any penalty or fine will not be imposed by any regulatory authority in respect to the same.

9. ***Our Company has, in the past, experienced delays in the filing of certain forms with the Registrar of Companies (ROC) as required under the Companies Act, 2013.***

Our Company has, in the past, experienced delays in the filing of certain forms with the Registrar of Companies (ROC) as required under the Companies Act, 2013. These delays could potentially attract penalties, fines, and other regulatory actions against our company, which may adversely affect our financial condition and reputation.

The details of late filings with ROC are as follows for which company has already paid requisite additional fees/late filing fees at the time of filing:

Sr. No.	Year	Form	Event	Due date	Date of Filing	Late Fees/ Penalty (₹)	Reason for such Delay

The aforesaid forms could not be filed due to the non-appointment of a qualified professional to manage our Company's compliances. The Company has taken corrective measures to rectify the errors made in the forms by filing relevant forms with the RoC and our Company has also appointed a Company Secretary and Compliance Officer in the Company as a measure of corrective step to avoid delayed, incorrect filings or any non-compliances in the future.

While on the date of this Draft Red Herring Prospectus, there is no legal proceedings or regulatory action that has been initiated against our Company in relation to such delays in filing statutory forms with the RoC, we cannot assure you that such legal proceedings or regulatory actions will not be initiated against our Company in future. In the event such penalties are material, they may adversely affect our financial condition, cash flows and results of operations.

10. ***While we supply to varied end-user industries, over 25 % of our revenues are from Railway and Renewable Energy industry during the preceding three Fiscals. Any downturn in this industries and the other industries in which our customers operate, may create an adverse impact on our revenue from operations, cash flows and financial condition.***

We supply to varied end-user industries, Power Transmission and Distribution, Renewable Energy, Railways, Industrial Infrastructure & operations, Building and Housing, Agriculture/farm irrigation, Chemicals. Our substantial revenue derived from Power Industry. We derived 42.12%, 35.12% and 25.97% of our revenue from operations during the Fiscal 2026, Fiscal 2025 and Fiscal 2024, respectively from the energy transmission and distribution industry. Our revenues in these industries come from entities engaged in railway infrastructure, energy transmission and distribution, EPC contractors engaged in the energy transmission and distribution industry, among others. Any downturn in this industry and the other industries in which our customers operate, would create an adverse impact on our revenue from operations, cash flows and financial conditions.

The breakdown of our Revenue from Operations from various end user industries is as under:

End use Industries	FY 2025-26		FY 2024-25		FY 2023-24

**Revenue generated from sales made to distributors has been disclosed under the category "Distributors". The Company does not maintain records of the ultimate end-use industry to which products sold to distributors are further supplied. Accordingly, revenue from distributors has not been allocated to any specific industry and has been presented separately under the category "Distributors".*

***Others include revenue from sale of Scrap and raw materials as such sales are not attributable to any specific end-use industry.*

In case of any slowdown in the end-user industries we are catering to, it will impact our business and operations while we have not faced any such situation in the past, we cannot assure you that such event will not occur in future. To mitigate such risks, we intend to further expand our operations in other industries such as, railways, mobility, among others.

11. *We have significant working capital requirements. If we experience insufficient cash flows to meet our working capital requirements, our business, results of operations and cashflows could be adversely affected.*

We require significant working capital to finance the purchase of raw materials and for the manufacture and other related expenses before payment is received from customers. We currently meet our working capital requirements through a mix of internal accruals and working capital facilities from banks.

Set out below are our working capital requirements and Net Working Capital days for the Financial Years ended March 31, 2026, March 31, 2025 and March 31, 2024:

Particulars	FY 2025-26	FY 2024-25	FY 2023-24

Net Working Capital Days*	111	97	111

** Net working capital = Sundry Debtors Holding period + Inventory Holding period - Sundry Creditor Holding Period*

Any delays in our billing and settlement process, or delays or defaults in our trade receivables or an increase in inventory and work in progress and/or accelerated payments to suppliers or limited advance payments on government contracts could adversely affect our working capital, lower our cash flows and materially increase the amount of working capital requirements. The actual amount and timing of our future working capital requirements may differ from estimates as a result of, among other factors, unforeseen events beyond our control, unforeseen delays or cost overruns, unanticipated expenses, regulatory changes, economic conditions, technological changes, revisions to business terms by customers and suppliers and additional market developments and new opportunities in the industries we operate. Further, our future success depends on our ability to continue to secure and successfully manage sufficient amounts of working capital. Our inability to obtain adequate amount of working capital at such terms which are favourable to us and in a timely manner or at all may also have an adverse effect on our results of operations, cash flows and financial condition. Continued increases in our working capital requirements may have an adverse effect on our results of operations, cash flows and financial condition. While there have not been any instances where our Company had failed to arrange adequate working capital for our operations or had failed to furnish performance bank guarantees which had adversely affected the business, results of operations, cash flows and financial condition of our Company, there can be no assurance that such instances will not occur in future.

12. ***We have had negative cash flows from Operating activities in the past and a consequent net decrease in cash and cash equivalents in some of the recent years.***

As per our Restated Financial Statements, Our Company recorded negative cash flows from operating activities in the recent Fiscals as set out below:

(₹ in Lakhs)

Particulars	March 31, 2026	March 31, 2025	March 31, 2024
Net Cash Flow from/ (used in) Operating Activities	(1,970.06)	(173.07)	(426.57)
Net Cash from Investing Activities	(1,669.49)	(338.90)	(990.83)
Net Cash used in Financing Activities	3,665.39	516.41	1,412.55

The negative cashflow in Fiscal 2026 was primarily attributable to an increase in working capital requirements arising from the expansion of business operations. Our company made capital investments during past 3 financial years, which is reflected in the net cash outflows from investing activities presented in the table above. The Company's operating earnings were primarily deployed towards capital expenditure to support its expansion initiatives; its short-term working capital requirements were funded through cash credit facilities availed from banks. The negative operating cash flow in FY 2024 was primarily attributable to the early stage of business expansion.

Such negative cash flows led to a net decrease in cash and cash equivalents for respective years. We cannot assure you that our net cash flows will be positive in the future. Negative cash flows over extended periods, or significant negative cash flows in the short term, could materially impact our ability to operate our business, implement our growth plans, financial conditions and the trading price of our Equity Shares. For further details regarding cash flow please refer chapter titled "MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS" beginning on Page no.322 of the Draft Red Herring Prospectus.

13. ***We rely on third-party transportation providers for all of our input materials and product distribution. Failure by any of our transportation providers to deliver our input materials and products on time or at all, could result in loss in sales.***

We rely on third-party transportation providers for the procurement of raw materials and the delivery of finished products to customers. Raw materials and Finished products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disaster. Disruptions such as adverse weather conditions, strikes, or other events affecting these providers may delay or prevent the receipt of raw materials and the timely delivery of products, which could result in order cancellations or non-renewal and adversely impact the Company's business, results of operations, and cash flows.
The loss of one or more transportation providers may lead to less favourable commercial terms and higher transportation costs, which could adversely affect operating results. The Company maintains marine insurance coverage for goods in transit in respect of imports and inward movement of goods as considered appropriate from time to time. Although we have not experienced any such event or instances in past, in the event any uninsured or underinsured goods in transit are lost, damaged or destroyed, the Company may be required to bear the resulting losses or incur additional costs for replacement or procurement of such goods. Further, there can be no assurance that any claims will be settled in a timely manner or in full, and any loss or delay in recovery may adversely affect the Company's business, financial condition, results of operations, and cash flows.

14. ***Our Manufacturing Units are subject to operating risks. The loss, shutdown or slowdown of operations at any of our facilities or the under-utilization of any such facilities may have a material effect on our results of operations and financial condition.***

We currently have two Manufacturing Units in Mehsana, Gujarat which are subject to usual operational Risks. Any disruption to manufacturing activities or production facilities may adversely affect the Company's business, cash flows, results of operations, and financial condition.
Disruptions may arise from factors beyond the Company's control, including interruptions in utility supplies, particularly power and water; shutdowns or suspensions due to equipment breakdown or failure, reduced operating efficiency, labour disputes, industrial accidents, natural disasters, or facility obsolescence; and other production or distribution constraints, including regulatory requirements, changes in product mix, or physical capacity limitations.

Our Company also depends on suppliers and vendors for the procurement and maintenance of machinery and equipment required for its operations. Any delay or inability to obtain such machinery or to enter into or continue contractual arrangements with vendors on commercially acceptable terms may adversely affect the Company's business, results of operations, and financial condition.

Except for the temporary shutdown of our Manufacturing Units during Covid-19 pandemic in the year 2020, there has not been any other instance of a material disruptions in the production at our Units in the preceding three Fiscals, causing an adverse effect on our business, financial conditions, cash flows and results of operations. However, there is no assurance that our business and financial results may not be adversely affected by any disruption of operations at our Manufacturing Units, including as a result of any of the factors mentioned above. Disruption in our operations may result in reduced production and reduced sales or higher costs to arrange for alternative arrangements to meet our customer obligations.

Further, The Company's business and results of operations depend on effective planning of manufacturing processes and optimal utilization of production capacity at its manufacturing units. Any disruption to our manufacturing process or the operation of our production facilities may affect our production capacity to be underutilized. We have not experienced any such instances during last 3 financial years. Our capacity utilization for last 3 years are as below:

Facility	FY 2025-26			FY 2024-25			FY 2023-24		
	Installed capacity (Kms)	Production (Kms)	Capacity Utilization (%)	Installed capacity (Kms)	Production (Kms)	Capacity Utilization (%)	Installed capacity (Kms)	Production (Kms)	Capacity Utilization (%)
Unit-I	70,000	57,000	81.43%	44,500	33,500	75.28%	32,500	24,000	73.85%
Unit-II	9,950	6,659	66.92%	3,400	2590	76.18%	2,000	1250	62.50%

Note: Certified by the Raj Techno Essential, an Independent Chartered Engineer by way of their certificate dated 01st June 2026.

We cannot guarantee that we will be able to operate at existing production capacity, if we face prolonged disruptions at our facilities including due to interruptions in any of above-mentioned event, it may adversely affect our capacity utilization, our business and financial condition.

15. *While, our operations are spread across two Units, we are significantly dependent upon our Unit-I, which exposes our operations to potential risks arising from local and regional factors.*

We derive a major portion of our revenue from our Unit-I therefore, any supply chain issues, breakdown of operations or any disruption in production at, or shutdown of, our Unit-I could have material adverse effect on our business and financial condition.

Revenue bifurcation of Both Units & Depot and a percentage of the revenue earned from each of our Units and Depot during three Financial Years has been provided below:

Particulars	FY 2025-26		FY 2024-25		FY 2023-24	
	Amount (₹ in Lakhs)	% of Revenue from Operations	Amount (₹ in Lakhs)	% of Revenue from Operations	Amount (₹ in Lakhs)	% of Revenue from Operations
Unit-I	14,688.05	69.79%	13,035.66	93.25%	8,833.89	100.00%
Unit-II	6,253.28	29.71%	943.47	6.75%	-	-
Depot	106.08	0.50%	-	-	-	-
Total	**21,047.41**	**100.00%**	**13,979.13**	**100.00%**	**8,833.89**	**100.00%**

We cannot assure you that we shall be able to strategically distribute our operations between our manufacturing units in the future or successfully minimize our reliance on a single facility. While, the aforementioned events have not occurred in the preceding three Fiscals, occurrence of any of the events may have a material impact on our business, results of operations and financial condition. In order to mitigate the risk relating to dependency on Unit-I, we intend to expand our operations by purchasing new machineries at Unit-II.

16. ***Our individual Promoters plays key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore, it is critical for our business that our Promoter and Executive Directors remain associated with us. Our success also depends upon the services of our key managerial personnel, Senior Management personnel and our inability to attract them may affect our operations.***

We benefit from our relationship with our individual Promoters and our success depends upon the continuing services of our Promoters and executive Directors who have been responsible for the growth of our business and is closely involved in the overall strategy, direction and management of our business. Our Promoters and executive Directors have been actively involved in the day-to-day operations and management. Accordingly, our performance is heavily dependent upon the services of our Promoters and executive Directors. If our Promoters and executive directors are unable or unwilling to continue in their present position, we may not be able to replace them easily or at all. Further, we rely on the continued services and performance of our key executives and senior management for continued success and smooth functioning of the operations of the Company. If we lose the services of any of our key managerial personnel and senior management Personnel, it may take reasonable time to locate suitable or qualified replacements and may incur additional expenses to recruit and train new personnel, which could adversely affect our business operations and affect our ability to continue to manage and expand our business. Our Promoters and executive Directors, along with the key managerial personnel and Senior managerial personnel, have over the years-built relations with various customers and other persons who form part of our stakeholders and are connected with us. The loss of their services could impair our ability to implement our strategy, and our business, financial condition, results of operations and prospects may be materially and adversely affected. For further details of our Directors, Key Managerial Personnel, Senior Managerial Personnel please refer to Section "Our Management" on page no.245 of this Draft Red Herring Prospectus.

17. ***There are no outstanding legal proceedings on the date of this Draft Red Herring Prospectus involving our Company. However, there may be possible litigation which may adversely affect our business, financial condition and result of operations.***

There are no proceedings pending at any levels of adjudication before various courts, enquiry officers and appellate forums. Possible litigation proceedings could divert management's time,

attention and consume financial resources in their defence. Further, an adverse judgment in any possible proceedings may have an adverse impact on our business, financial condition, and results of operations. Detail of outstanding litigations as on the date of this Draft Red Herring Prospectus are as follows:

If any possible claims may be determined against us, there can be a material adverse effect on our reputation, business, financial condition and results of operations, which could adversely affect the trading price of our Equity Shares. For the details of the cases filed by and against our Company, Promoters and Directors please refer to the chapter titled "Outstanding Litigations and Material Developments" beginning on page no. 347 of this Draft Red Herring Prospectus.

18. ***Our Company has entered into related party transactions in the past and may continue to enter into related party transactions in the future, which may potentially involve conflicts of interest with the equity shareholders.***

Our Company has entered into certain related party transactions with our Promoter and Directors, relatives of directors and entities forming a part of our promoter group in the past which are in compliance with applicable provisions of Companies Act as per Accounting Standard 18 –"Related Party Disclosures" and all other applicable laws. For details, please refer to the chapter titled "Restated Financial Information"–Notes to Financial Information- Note XI - Statement of Related Party Transactions, As Restated" beginning at page no. 274 of Draft Red Herring Prospectus. Although all such transactions have been conducted on the arm's length basis with the related parties as mentioned above, there can be no assurance that it could not have been achieved on more favourable terms had such transactions not been entered into with unrelated parties. There can be no assurance that such transactions, individually or taken together, may not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. Further, it is likely that we may enter into related party transactions in the future and such transactions may potentially involve conflicts of interest. In terms of the Companies Act and SEBI LODR Regulations, we are required to adhere to various compliance requirements such as obtaining prior approvals from our Audit Committee, Board and Shareholders for certain party transactions and our undertakes that such related party transactions shall not be done against the interests of the Company and its shareholders as prescribed in the SEBI LODR Regulations. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future.

19. ***Some of the statutory approvals are required to be transferred in the name of "Johnsoncab Electricals Ltd." from "Johnsoncab Electricals Pvt. Ltd.", pursuant to conversion from private limited to public limited company. Any failure to obtain and renew them or failure to transfer them in name of "Johnsoncab Electricals Ltd." in a timely manner may affect our business operations.***

Our Company is in the process of updating some of its certificates/ licenses with respect to the details of our offices or updating of its name from "Johnsoncab Electricals Pvt. Ltd." to "Johnsoncab Electricals Ltd." after the conversion from Private Limited to Public Limited. For more information on the status of licenses obtained by our Company and the licenses applied for by our Company, please refer chapter titled "Government and other Key Approvals" beginning on page no. 354 of Draft Red Herring Prospectus. Any failure to obtain and renew them or failure to transfer them in name of "Johnsoncab Electricals Ltd." in a timely manner may affect our business operations.

20. ***Certain unsecured loans availed by us from our Promoter Directors, and relative of Director may be recalled at any time. This may affect our business and financial conditions adversely.***

We have availed unsecured loans from our Promoter, Directors *and* relative of Director, as on March 31, 2026 of ₹ 1076.91 lakhs and which may be recalled at any time. Any such recall by the Promoter Directors would have an adverse impact on our cash flows as well as the finance available for the purposes of running our business. Further, such a recall could also result in a breach of the financial covenants undertaken by us while procuring secured loans from banks and financial institutions which require us to maintain these unsecured loans thereby, leading to a termination of one or more of our credit facilities, triggering cross default provisions, penalties and acceleration of amounts due

under such facilities which may adversely affect our business, financial condition and results of operations. For further details, see "Financial Indebtedness" on page no. 344 of this Draft Red Herring Prospectus.

21. ***We have been investing in our fixed assets to expand our operations, which requires significant capital expenditure. Our business requires significant capital expenditure, and if we are unable to have access to capital, it may adversely affect our business, results of operations, cash flows and financial condition.***

Our business requires significant capital expenditure. Any delays in procurement of the capital required for our operations may lead to delay in our operations such as, among others, upgrading the equipment at our Manufacturing Units, which may lead to losses on account of cost non-viability and loss of market opportunities. During the Fiscals 2026, 2025 and 2024, we added property plant and equipment aggregating to ₹ 1628.98 Lakhs, ₹ 229.27 Lakhs and ₹ 1015.00 Lakhs, respectively.

Our future capital requirements may differ from estimates due to a number of factors including, unforeseen delays or cost overruns, unanticipated expenses, regulatory changes, economic conditions, technological changes, and additional market developments, pursuant to which, we may have to avail additional financing through incurrence of debt, issuance of equity securities or a combination of both. There can be no assurance that the past or proposed expansion shall produce anticipated or desired output, revenue or cost reduction outcomes. If we decide to raise additional funds through the incurrence of debt, our interest and debt repayment obligations will increase, which may affect our profitability and cash flows. We may also become subject to additional restrictive covenants in our financing agreements, which could limit our ability to access cash flows from operations and undertake certain types of transactions. Any issuance of equity, on the other hand, would result in a dilution of the shareholding of existing shareholders. While, the aforementioned events have not occurred in the preceding three Fiscals, however if any of the foregoing were to occur, our business, results of operations, cash flows and financial condition could be adversely affected.

22. ***Our business is subject to seasonality in the industries in which our customers operate, which may contribute to fluctuations in our results of operations and financial condition.***

We supply cables and conductors primarily to energy transmission and distribution, renewable energy integration, railways and industrial applications, where demand is influenced by seasonal factors. In particular, during the pre-monsoon and monsoon season, project execution and installation activities are often delayed or slowed down due to site inaccessibility, safety concerns and adverse weather conditions. Consequently, demand for our products in these sectors tends to be lower during this period, leading to seasonality in our order inflows and revenue recognition. On contrary, the last quarter of fiscal has historically been more revenue generating due to increased realisation from government projects. Such fluctuations may impact our capacity utilisation, working capital cycle and cash flows, and could adversely affect our business operations and financial performance.

23. ***We are subject to strict quality requirements and any product defect issues or failure by us or our raw material suppliers to comply with quality standards may lead to the cancellation of existing and future orders, recalls or exposure to potential product liability claims.***

We face an inherent business risk of exposure to product defects and subsequent liability claims if the use of any of our products results in personal injury or property damage. The products

manufactured by us comply with ISO and BIS certifications. For details related to ISO and BIS certification held by our company, refer chapter titled "GOVERNMENT AND OTHER KEY APPROVALS" beginning on page no. 354 of Draft Red Herring prospectus. If we are unable to meet regulatory relevant quality standards in India, or the quality standards imposed by our customers and applicable to our manufacturing processes, which could have a material adverse effect on our business, financial condition, results of operations and cash flows. If any of our products do not meet regulatory standards or are defective or there are delays in our current or future orders and we are unable to receive extensions from our customers, we may be, inter alia, (i) responsible for liquidated damages and termination, (ii) required to replace such products; (iii) exposed to late delivery charges; or (iv) incur significant costs to defend any such claims. We are generally required to furnish performance guarantees in the form of bank guarantees. In the event we fail to perform under the terms of a contract, a bank guarantee may be called upon by our customer, which could adversely affect our financial condition and results of operations. Failure to effectively cover ourselves against any of these reasons could expose us to substantial costs and potentially lead to material losses. As on date, we have not faced any cancellation of existing and future orders, recalls and exposure to potential product liability due to any product defect issues or failure by us or our raw material suppliers for not complying with quality standards, however, there can be no assurance that such instances may not occur in future. Faults in technical specifications might also lead to order rejection or modification, which may not be foreseen. In addition, if there is a customer dispute regarding our product or deliveries, the customer may delay or withhold payment to us. Our products depend on customer's expectations and choice or demand of the customers. In the past, we have incurred liquidation damage/ late delivery charges in respect of our contracts, as follows:

Particulars	FY 2025-26	FY 2024-25	FY 2023-24
Liquidity Damages	8.93	10.69	-
% of Revenue from operations	0.04%	0.08%	-

To reduce cost of liquidated damages in future, our Company closely monitors production and delivery schedules, maintains adequate inventory of key raw materials and regularly reviews order execution progress. In cases where delays arise due to customer-related issues, changes in specifications, regulatory approvals or other factors beyond our control, we seek appropriate extensions of time in accordance with the applicable contractual terms.

24. ***Our lenders have charge over our movable and immovable properties in respect of finance availed by us.***

We have secured outstanding debt of ₹ 6910.78 Lakhs as on March 31, 2026 and we have secured our lenders by creating charge over our movable and immovable properties. In the event we default in repayment of the loans availed by us and any interest thereof, our properties may be forfeited by lenders. It may have a material adverse effect on the business, cash flows and financial condition of our company. For further information on the financing and loan agreements along with the total amounts outstanding, please refer to section titled "Restated Financial Information" on page 274 of this Draft Red Herring Prospectus.

25. ***The average cost of acquisition of Equity Shares held by our Promoters could be lower than the Issue Price.***

Our Promoters' average cost of acquisition of Equity Shares in our Company may be lower than the Issue Price which is proposed to be determined on a Book Build basis. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity

Shares by our Promoters in our Company, please refer to the chapter titled "Capital Structure" on page 100 of this Draft Red Herring Prospectus.

Sr. No.	Name of Promoters	Average cost (₹)
1.	Mr. Chandreshkumar Shankerlal Patel	12.19
2.	Mrs. Bhavanaben Chandreshkumar Patel	6.61
3.	Mr. Anjal Chandreshkumar Patel	2.69

26. ***Our Promoters have extended personal guarantees with respect to various loan facilities availed by our Company and have provided collateral security for loan facilities availed by our Company. Revocation of any or all of these personal guarantees may adversely affect our business operations and financial condition.***

Our Promoters have extended personal guarantees in favour of certain banks with respect to various facilities availed by our Company and have provided collateral security for loan facilities availed by our Company. Our financial position and future ability to avail loans are dependent on our promoters to honour the guarantee. There is no guarantee about the willingness and ability of our promoters to honour the said guarantees, which may arise from their financial difficulties, deterioration in their business performance, or a downturn in the global economy.

Details of personal guarantees provided by our promoters are as follows:

Sr. No	Name of the Lender	Name of Promoter(s)	Name of the Facility	Sanctioned Amount (₹ In Lakhs)*
1.	HDFC Bank Limited	Mr. Chandreshkumar Shankerlal Patel, Mrs. Bhavanaben Chandreshkumar Patel & Mr. Anjal Chandreshkumar Patel	EEG- Term loan	404.00

Di-Mehsana 384435	Activity	

In the event any of these guarantees are revoked, our lenders may require us to furnish alternate guarantees or may demand a repayment of the outstanding amounts under the said facilities sanctioned or may even terminate the facilities sanctioned to us. There can be no assurance that our Company will be able to arrange such alternative guarantees in a timely manner or at all. If our lenders enforce these restrictive covenants or exercise their options under the relevant debt financing agreements, our operations and use of assets may be significantly hampered and lenders may demand the payment of the entire outstanding amount and this in turn may also affect our further borrowing abilities thereby adversely affecting our business and operations. For further details please refer to the chapter titled Financial Indebtedness on page 344 of this Draft Red Herring Prospectus.

27. ***We operate in the wires and cables industry which is a highly technical and regulated sector and if we fail to comply with the regulations prescribed or standards set by our customers, our business results of operations, cash flows and financial condition could be adversely affected.***

Our operations of manufacturing wires and cables, forming part of the electrical equipment industry, are operated in a highly technical and regulated sector and are subject to stringent quality standards. The products manufactured by us need to comply with certain standards as prescribed by the International Organization for Standardization (ISO) or Bureau of Indian Standards (BIS). The registration requires our Company to comply with the specific provisions of the various acts enforceable by the BIS for electrical equipment's, most of which are stringent and they may continue to be stricter in the future. The penalties for non-compliance with these regulations can vary from revocation or suspension of the registration to imposition of fines or confiscation of the products manufactured, stored or sold.

These regulations are not only required to be adhered to as part of our regulatory mandate but also technical specifications and pre-qualifications of our products is a substantial issue for our customers. Our customers, who are into the electrical and other industrial sector, prefer products that adhere to strict standards and regulations and hence variations in product quality could result in loss of a substantial customer. While we have not experienced any such failure in the past, we remain committed to continuously strengthening our processes to ensure ongoing compliance with all applicable regulations and standards prescribed by our customers.

We hold license/certificate from ISO and BIS confirming that all our products meet the specified requirements. However, we cannot guarantee that these licenses/certificates will be available to us in future or they will be renewed in proper time. Refer chapter titled "Government and Other Key Approvals" on page no. 354 of Draft Red Herring Prospectus for details of ISO and BIS licenses/certificates. Consequently, there is an increased risk that we may inadvertently fail to comply with such regulations or procedures, which could lead to a variety of sanctions being imposed by the relevant authorities, as well as withholding or delay in further production process. Further, any adverse change in the regulatory environment or client procedures in the future may subject us to increased obligations and may adversely affect our business, cash flows and results of operation.

28. ***We are exposed to foreign currency fluctuation risks, particularly in relation to our import of raw materials, which may adversely affect our results of operations, financial condition and cash flows.***

A part of our raw material is imported which involves dealing in foreign exchange. For last three Fiscals 2026, 2025 and 2024 our expenditure on consumption of imported and domestic raw material was as follows:

Particulars	FY 2025-26		FY 2024-25		FY 2023-24	
	Amount (₹ in Lakhs)	% of Purchases	Amount (₹ in Lakhs)	% of Purchases	Amount (₹ in Lakhs)	% of Purchases
Imported Raw material	710.98	3.60%	-	-	-	-
Domestic Raw material	19,059.99	96.40%	11,950.17	100.00%	8,246.65	100.00%
Total	**19,770.96**	**100.00%**	**11,950.17**	**100.00%**	8,246.65	**100.00%**

In case if we are not able to procure raw material in the desired volume through imports due to any economic, political or other reasons, it may adversely affect our result of operations. Further, even though our direct imports have been limited, any adverse movement in foreign exchange rates may increase the procurement cost of imported raw materials as well as raw materials sourced from domestic suppliers that rely on imported inputs. Fluctuations in Indian Rupee against the USD and other foreign currencies may adversely affect our results of operations by increasing our costs. While our exposure to foreign currency fluctuations has been limited in past, however such fluctuations could adversely affect our business, financial condition, results of operations and cash flows.

29. ***We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, any failure to obtain, retain and renew such approvals and licences or comply with such rules and regulations may adversely affect our operations.***

We require several statutory and regulatory permits, licenses and approvals to operate our business, some of which are either received or applied for. Many of these approvals are subject to periodical renewal. Any failure to renew the approvals that may expire, or to apply for the required approvals, licences, registrations or permits, or any suspension or revocation of any of the approvals, licences, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects. Additionally, some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals which may result in the interruption of our operations and may have a material adverse effect on our business, financial condition, cash flows and results of operations. In past, we remain committed to timely renewal of our approvals and continued compliance with applicable laws and regulations, however if we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change in future, we may incur increased costs, be subject to penalties or suffer a disruption in

our business activities, any of which could adversely affect our results of operations. For further details, refer chapter titled "Key Industry Regulations and Policies" and "Government and Other Key Approvals" on pages 228 and 354, respectively of the Draft Red Herring Prospectus.

30. ***Inventories and trade receivables constitute a major part of our current assets, and any failure to manage effectively could adversely affect our business and financial performance.***

Our business of manufacturing cables and conductors is working capital intensive. A large portion of our funds is tied up in inventories and trade receivables. Our operating results depend significantly on our ability to efficiently manage our inventory, including raw materials, traded goods, and finished goods, as well as our trade receivables. Effective inventory management requires accurate estimation of customer demand, potential orders, and supply requirements. Set out below are details of our inventories for the years indicated:

Particulars	March 31,2026	March 31,2025	March 31,2024
Inventories (₹ in Lakhs)	5,115.34	2,461.13	2,056.83
Inventory Holding Period (Days)*	77	67	74
Inventory turnover ratio (times)**	5.56	6.19	5.48

** Inventory Holding Period (Days) = (Opening Inventory+ Closing Inventory/2)/ Cost of Goods Sold*365*

*** Inventory turnover ratio is as per Restated Financial Information*

Any failure to correctly forecast demand may result in either product shortages or accumulation of excess inventory. Excess inventory may require write-downs, while shortages may lead to loss of sales opportunities, both of which could adversely affect our revenues, profitability, and cash flows. Further, if we are unable to convert inventory into sales in a timely manner, we may be required to settle supplier obligations without corresponding cash inflows or arrange additional vendor or bank financing, which could negatively impact our liquidity and financial position. While we have not encountered any instances of failure in inventory management in the past due to which our Company has faced any adverse effect on the net sales, profitability, cash flow and liquidity, however, inability to manage our inventory may adversely affect our net sales, profitability, cash flow and liquidity.

The majority of our sales are to customers on a purchase order basis, with standard payment terms. Set out below are details of our trade receivables for the years indicated:

Particulars	March 31, 2026	March 31, 2025	March 31, 2024
Trade receivables (₹ in Lakhs)	3,735.74	2,132.29	1,160.65
Trade receivables as % of revenue from operation	17.75%	15.25%	13.14%
Trade receivables Holding(Days)*	51	43	46

** Trade receivables holding (Days) = (Opening Balance+ Closing Balance/2)/ Revenue from Operations*365*

We also depend on timely collection of trade receivables. If we fail to properly assess customer creditworthiness, it may lead to delayed payments, bad debts, or write-offs. This can create cash flow problems and may force us to increase borrowings, resulting in higher finance costs and reduced profitability.

31. ***Improper storage, processing and handling of our raw materials, work products and products could damage our inventories and, as a result, have an adverse effect on our business, results of operations and cash flows.***

We typically store our raw materials, work-in-progress, stock in trade and finished goods in our operating facilities premises. In the event that our raw materials, work products and products are improperly stored, processed and handled, the quality of our raw materials, such as copper, aluminium, could be reduced and our work products could be damaged. As a result, our production outputs could be adversely affected, which could have a material adverse effect on our business, financial condition, results of operations and cash flows. While we have not faced any such situation during Fiscals 2026, 2025, and 2024, however we cannot assure you that such instances will not occur in future.

32. ***Activities involving our manufacturing operations and the handling of heated materials expose us to operational and workplace risks, which may adversely affect our business, financial condition and results of operations.***

Our manufacturing operations involve the handling of heated and flammable materials and the use of machinery, exposing us to risks such as workplace accidents, fires, explosions, equipment failures, power outages, natural disasters, environmental hazards and other operational disruptions. Such incidents may result in personal injury, loss of life, damage to property or equipment, environmental harm, suspension of operations, production and delivery delays, inability to meet customer demand, litigation, regulatory liabilities and reputational damage. Although we maintain safety procedures, there can be no assurance that such incidents will not occur or that our insurance will fully cover all losses. While no such material incidents, claims or litigation have occurred during Financial Years 2026, 2025 and 2024, any future occurrence could materially and adversely affect our business, financial condition, cash flows and results of operations.

33. ***Our trademark is registered in the name of our Promoter and any challenge to the assignment, ownership or registration of such trademarks may adversely affect our business and brand recognition.***

Trademark  used by our Company is originally registered in the name of our Promoter, Mr. Chandreshkumar Shankerlal Patel. Pursuant to an Assignment Deed, the trademark was assigned to the Company. Further, consequent to the conversion of our Company from a private limited company to a public limited and the change in its name, a supplemental Assignment Deed dated February 27, 2025 was executed with our Promoter and necessary applications were made to the relevant authorities for recording such changes. There have been no disputes, claims, objections, litigation proceedings or challenges in relation to the ownership, assignment, validity or use of the trademark since its adoption by the Company however any dispute or adverse outcome relating to the ownership, registration, validity or enforceability of these trademarks may restrict our ability to protect our intellectual property rights, affect our brand value and reputation, and may have a material adverse effect on our business, financial condition and results of operations.

34. ***Any increase in interest rates would have an adverse effect on our results of operations and will expose our Company to interest rate risks.***

Interest rates for borrowings have been volatile in recent periods. Our operations are funded to a significant extent by debt and increases in interest rate and a consequent increase in the cost of servicing such debt may adversely affect our results of operations and financial condition. Changes in prevailing interest rates affect our interest expense in respect of our borrowings. The interest rates for our borrowings ranged from 7.45 % to 8.58 % per annum. Set forth below are details of our borrowings at floating rates as of the dates set out below.

(₹ in Lakhs)

Particulars	March 2026	March 2025	March 2024
Borrowings at Floating Rate *	6,910.78	2,769.71	2,023.07

* Includes all credit facilities availed by our Company excluding cash credit facilities.

Furthermore, we are dependent upon the availability of equity, cash balances and debt financing to fund our operations and growth. Our indebtedness means that a material portion of our expected cash flow may be required to be dedicated to the payment of interest on our indebtedness, thereby reducing the funds available to us for use in our general business operations. If interest rates increase, our interest payments will increase and our ability to obtain additional debt and non-fund-based facilities could be adversely affected with a concurrent adverse effect on our business, financial condition and results of operations. For further details, see "Financial Indebtedness" on page 344 of the Draft Red Herring Prospectus.

35. ***Our Promoters, Directors, Key Managerial Personnel may have interests in our Company other than reimbursement of expenses incurred or normal remuneration or benefits.***

Our Promoters, Directors, Key Managerial Personnel and Senior Management Personnel may be deemed to be interested in our Company, in addition to the regular remuneration or benefits, reimbursements of expenses, Equity Shares held by them or their relatives, their dividend or bonus entitlement, the interest on the unsecured loans provided by the Directors or their relatives, benefits arising from their directorship in our Company. Our Directors shall be deemed to be interested to the extent of remuneration paid to their relatives and reimbursement of expenses, if any, payable to them for the services rendered by them in the aforementioned capacity, to our Company. Our Promoters may take or block actions with respect to our business which may conflict with the best interests of the Company or that of minority shareholders. For further details on interest of Directors, please refer "Our Management- Interest of Directors and Key Managerial Personnel" and for "Our Promoters, Promoter Group- Interests of Promoter" beginning on page no. 245 and 264 respectively of the Draft Red Herring Prospectus. There can be no assurance that our Promoters, Directors, Key Management Personnel and Senior Management Personnel will exercise their rights as shareholders to the benefit and best interest of our Company.

36. ***Change in technology, evolving customer requirements and emerging industry trends may affect our business, may render our current technologies obsolete and may require us to make substantial capital investments.***

Our ability to respond to technological advances, evolving customer requirements, and emerging industry standards and practices in a cost-effective and timely manner is critical to our future success. The development and implementation of such technology entails significant technical and business risk, as well as significant implementation costs. While we continue to monitor technological developments, customer requirements and industry trends to support our operations, we may need to adopt new technologies or upgrade our existing systems and facilities from time to time. We cannot guarantee that new technologies will be successfully implemented or that our

processing systems will be able to adapt to changing customer requirements or emerging industry standards. Technological advancements may make newer solutions more competitive than ours, or they may necessitate additional capital expenditures to upgrade our facilities and technology. If we are unable, for technical, legal, financial or other reasons, to adapt in a timely manner to changing market conditions, evolving customer requirements or technological changes, our business, financial condition and results of operations could be materially and adversely affected.

37. ***Employee misconduct, errors or fraud could expose us to business risks or losses that could adversely affect our business prospects, results of operations and financial condition.***

Employee misconduct, errors or frauds could expose us to business risks or losses, including regulatory sanctions, penalties and serious harm to our reputation. Such employee misconduct includes breach in security requirements, misappropriation of funds, hiding unauthorized activities, failure to observe our stringent operational standards and processes, and improper use of confidential information. It is not always possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective. In addition, losses caused on account of employee misconduct or misappropriation of petty cash expenses and advances may not be recoverable, which we may result in write-off of such amounts and thereby adversely affecting our results of operations. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions in which case, our reputation, business prospects, results of operations and financial condition could be adversely affected. No such instances have occurred in the past years but there can be no assurance that such instances would not occur in the future.

38. ***Any Penalty or demand raised by statutory authorities in future will affect our financial position of the Company.***

Our Company is engaged in business of manufacturing of wires and cables. Our business activities attract tax liability such as Goods and Service Tax, Income Tax (including dividend distribution tax for dividend payment), and Professional Tax as per the applicable provisions of Law. We are also required to comply with the provisions such as registration under the labour laws like Provident Fund and are also subjected to deposit of Provident Fund contribution of employer and employees. No penalty or demand has been raised by statutory authorities in last 3 Financial Years. Although, we have taken all the necessary approvals and deposited the required returns and taxes under various applicable Acts but any demand or penalty raised by the concerned authority in future for any previous year and current year will affect the financial position of the Company.

39. ***Our insurance coverage may not be adequate to protect us against all potential losses to which we may be subject and this may have a material effect on our business and financial condition.***

While we maintain insurance coverage, in amounts which we believe are commercially appropriate, including related to our movable property including motor vehicles and employees, provide appropriate coverage in relation to fire, explosions, theft, robbery and other force majeure events. We maintain insurance coverage such as Motor Vehicle Insurance, Material Damage (Fire & Allied Perils) and Burglary and Housebreaking, Bharat Sookshma Udyam Suraksha Policy, Employees Compensation Insurance, National Bharat Laghu Udayam Suraksha, Marine cargo for anticipated risks which are standard for our type of business and operations. For details about insurance policies, see section titled "Our Business – Insurance" beginning on page 187. We may not have sufficient insurance coverage to cover all possible economic losses, including when the loss suffered is not easily quantifiable and in the event of severe damage to our business. Even if we have made a

claim under an existing insurance policy, we may not be able to successfully assert our claim for any liability or loss under such insurance policy. Additionally, there may be various other risks and losses for which we are not insured either because such risks are uninsurable or not insurable on commercially acceptable terms. The occurrence of an event for which we are not adequately or sufficiently insured could have an effect on our business, results of operations, financial condition and cash flows. We confirm that No such event has occurred in the past years.

In addition, in the future, we may not be able to maintain insurance of the types or at levels which we deem necessary or adequate or at rates which we consider reasonable. The occurrence of an event for which we are not adequately or sufficiently insured or the successful assertion of one or more large claims against us that exceed available insurance coverage, or changes in our insurance policies (including premium increases or the imposition of large deductible or co-insurance requirements), could have an effect on our business, results of operations, financial condition and cash flows.

40. ***Information relating to the installed manufacturing capacity of our existing manufacturing units included in this Draft Red Herring Prospectus is based on various assumptions and estimates, and future production and capacity utilization may vary.***

Information relating to our installed capacities and capacity utilization of our manufacturing facilities is based on various assumptions and estimates of our management, including proposed operations, assumptions relating to availability and quality of raw materials, potential utilization levels and operational efficiencies. While we have obtained certificates from independent chartered engineer, namely, Raj Techno Essential, in relation to such capacities, future capacity utilization may vary significantly from the existing production capacities of our production facilities, installed capacities and historical capacity utilization. For Information relating to the installed manufacturing capacity of our existing manufacturing units, please refer chapter titled "Our Business" beginning on page no. 187 of this Draft Red Herring Prospectus. Undue reliance should therefore not be placed on the information relating to our installed capacities or historical capacity utilization of our manufacturing facilities included in this Draft Red Herring Prospectus.

41. ***We have significant power requirements and any disruption to power sources could increase our production costs and adversely affect our results of operations and cash flows.***

We require substantial power for our Manufacturing Units, which is an important portion of the production costs for our operations, details of Power/Electricity Expenses for the financial years ended March 31, 2026, March 31, 2025 and March 31, 2024 and % of our revenue from operations, as follows:

Particulars	FY 2025-26		FY 2024-25		FY 2023-24	
	Amount (₹ In Lakhs)	% of Revenue from Operations	Amount (₹ In Lakhs)	% of Revenue from Operations	Amount (₹ In Lakhs)	% of Revenue from Operations
Power/Electricity Expenses	163.67	0.78%	127.41	0.91%	68.25	0.77%

If electricity supplies or supply arrangements were disrupted, our profitability could decline. We source most of our electricity requirements for our Manufacturing Units from state electricity boards. The cost of electricity from state electricity boards could be significantly higher, thereby adversely affecting our cost of production and profitability. Further, natural disasters or adverse

conditions may occur in the geographical areas in which we operate including severe weather, tropical storms, floods, excessive rainfalls as well as other events beyond our control. If for any reason such electricity is not available, we may need to shut down our Manufacturing Units until an adequate supply of electricity is restored. While we experience short interruptions (either for few minutes or one or two hours), however such interruptions are managed with the diesel generators in order to avoid shutdown of production. Interruptions of electricity supply can also result in production shutdowns, increased costs associated with restarting production and the loss of production in progress.

42. ***If we fail to maintain an effective system of internal controls, we may not be able to successfully manage or accurately report our financial risk.***

Effective internal controls are necessary for us to prepare reliable financial reports and effectively prevent and detect any frauds or misuse of funds. Moreover, any internal controls that we may implement, or our level of compliance with such controls, may decline over time. We have established internal control processes and procedures designed to support the accuracy and reliability of our financial reporting, safeguard our assets and mitigate the risk of fraud or misuse of funds. We periodically review and strengthen our internal control systems to address the evolving requirements of our business. While we remain committed to maintaining effective internal controls, there can be no assurance that additional deficiencies or lacks in our internal controls will not arise in the future, or that we will be able to implement and continue to maintain adequate measures to rectify or mitigate any such deficiencies of lacks in our internal controls. If internal control weaknesses are identified in a delayed manner, our actions may not be sufficient to correct such internal control weakness. Such instances may also adversely affect our reputation, thereby adversely impacting our business, results of operations and financial condition.

43. ***Our Company's performance in the past may not be an indicative factor for our Company's future growth or performance.***

We have experienced and may continue to experience, rapid growth and organizational change, which has placed, and may continue to place, significant demands on our management, operational and financial resources. We plan to continue to expand our operations in the future, which will place additional demands on our resources and operations. We may need to scale and adapt our operational, financial and management controls further, as well as our reporting systems and procedures to manage this complexity and our increased responsibilities as a public listed company. This will require us to invest in and commit significant financial, operational and management resources to grow and change in these areas without undermining the corporate culture that has been critical to our growth so far. These investments will require significant expenditures, and any investments we make will occur in advance of the benefits from such investments, making it difficult to determine in a timely manner if we are efficiently allocating our resources. If we do not achieve the benefits anticipated from these investments, or if the achievement of these benefits is delayed, or if we are unable to achieve a high level of efficiency as our organization grows, in a manner that preserves the key aspects of our culture, our business, results of operations and financial condition may be adversely affected.

44. ***Majority of member of our Board have prior experience serving on boards of listed companies.***

Majority of members (excluding independent director Mr. Shail Shah) of our Board do not have prior experience serving on boards of listed companies. As a result, they may face challenges in adapting to the specific regulatory, financial, and governance frameworks that are inherent to listed

companies. Listed companies are subject to a wide range of compliance requirements, including adherence to securities laws, shareholder communications, and the disclosure of financial information in accordance with regulatory bodies such as the SEBI or relevant stock exchanges. Board of directors play a crucial role in ensuring that these standards are met, as well as in safeguarding shareholder interests, providing oversight on management decisions, and ensuring transparency.

Without prior experience in a listed company environment, our Board of Directors may require additional time and training to familiarize themselves with the nuances of public market governance. Their ability to effectively challenge management and make informed decisions could also be impacted by this lack of experience. This could potentially result in slower decision-making, less proactive risk management, and difficulties in navigating situations that typically arise in publicly listed entities, such as regulatory scrutiny or shareholder activism. Additionally, the absence of direct experience may limit the depth of their network and understanding of best practices in public company governance, potentially affecting the Company's reputation with investors, analysts, and other stakeholders. Therefore, while the Board of Directors bring valuable expertise in other areas, their lack of experience with listed companies could pose challenges in managing the unique risks and responsibilities associated with being a publicly traded entity. As such, the Company may need to invest in further director training or seek external advice to bridge this gap and mitigate potential risks. Although our Company secretary and Compliance officer has prior experience in compliances of listed companies, this helps our Company for meeting the regulatory challenges face by listed companies.

RISKS RELATED TO OFFER

45. ***Delay in raising funds from the IPO could adversely impact the growth rate.***

The proposed use of issue proceeds, as detailed in the section titled "Objects of the Issue" on page 123 of the Draft Red Herring Prospectus is to be partially and/or wholly funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule which may adversely impact the growth rate of our Company. We, therefore, cannot assure that we would be able to execute the expansion process within the given time frame, or within the costs as originally estimated by us. Any time overrun or cost overrun may adversely affect our growth plans and profitability.

46. ***Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency and our management will have broad discretion over the use of the Net Proceeds.***

We intend to utilize the Net Proceeds of the Issue as set forth in "Objects of the Issue" on page 123 of the Draft Red Herring Prospectus. The funding requirements mentioned as a part of the objects of the Issue are based on internal management estimates and have not been appraised by any bank or financial institution. This is based on current conditions and is subject to change in light of changes in external circumstances, costs, business initiatives, other financial conditions or business strategies. Various risks and uncertainties, including those set forth in this section, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business. Accordingly, use of the Net Proceeds for other purposes identified by our management may not result in actual growth of our business, increased profitability or an increase in the value of our business and your investment.

47. ***Our Promoters and Promoter Group will continue to retain majority shareholding after the Issue, which will allow them to exercise significant influence and potentially create conflicts of interest.***

Our Promoter and Promoter Group may beneficially own approximately [●] % of our post-Issue equity share capital. For details of shareholding of Our Promoters and Promoter Group, please refer chapter titled "Capital Structure" beginning on page no 100 of this Draft Red Herring Prospectus. As a result, the Promoter Group may have the ability to control our business including matters relating to any sale of all or substantially all of our assets, the timing and distribution of dividends and the election or termination of appointment of our officers and directors. This control could delay, defer or prevent a change in control of the Company, impede a merger, consolidation, takeover or other business combination involving the Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of the Company even if it is in the Company's best interest. In addition, for so long as the Promoter Group continues to exercise significant control over the Company, they may influence the material policies of the Company in a manner that could conflict with the interests of our other shareholders. The Promoter Group may have interests that are adverse to the interests of our other shareholders and may take positions with which our other shareholders do not agree.

48. ***Our proposed expansion plans are subject to the risk of unanticipated delays in implementation and cost overruns.***

Our Company proposes to utilise ₹2621.33 Lakhs from the Net Proceeds towards Proposed Objects. For details, see "Objects of the Issue – Funding the capital expenditure requirements of our Company" beginning on page no. 123, of this Draft Red Herring Prospectus.

In executing this expansion, we may face personnel and operational challenges leading to delays or increased costs. Risks include labour shortages, procurement issues, higher equipment or manpower costs, inadequate equipment performance, construction delays or defects, regulatory restrictions, delays in approvals, higher pre-operating expenses, taxes, finance charges, working capital requirements, environmental costs, and other external factors. There is no assurance that the proposed Object of the issue will be completed as planned or on schedule, that budgeted costs will be sufficient. Although we have not experienced in the past, significant cost overruns or delays could adversely impact our financial condition, results of operations, cash flows and prospects.

Given the long-term nature of such investments, actual returns may differ from estimates, and any shortfall could negatively affect our financial condition, cash flows and results of operations. Although we have not experienced cost overruns in the past, we cannot assure that future expansions will achieve the intended benefits or anticipated revenue growth.

49. ***We are yet to place orders for some of the plant and machinery proposed to be funded through this Issue. In the event of any delay in placing the orders, or in the event the vendors are not able to provide the equipment in a timely manner, or at all, it may result in time and cost over-runs and our business, results of operations, financial condition and cash flows may be adversely affected.***

We are yet to place orders for a portion of the plant and machinery which we propose to fund from the Net Proceeds, for an amount of upto ₹937.75 Lakhs, constituting [●] % of the total cost of the project. Out of the total estimated cost of ₹2790.94 Lakhs proposed to be incurred towards the Proposed Object, an amount of ₹169.61 Lakhs has already been paid out of our internal accruals, and the balance estimated cost of ₹2621.33 is proposed to be funded out of the Net Proceeds. For details,

see "Objects of the Issue – Funding the capital expenditure requirements of our Company" beginning on page no. 123, of this Draft Red Herring Prospectus. While, we have placed orders for purchase of plant and machinery, we have not entered into any definitive agreements to utilize the Net Proceeds for these objects of the Issue and have relied on the quotations received from third parties. The completion of such projects is dependent on the performance of external parties, which are responsible for inter alia supply and installation of machinery and equipment. If the performance of these agencies is inadequate, it may result in incremental cost and time overruns which could adversely affect our business and results of operations. We may also be unable to identify suitable replacement external parties in a timely manner. In addition, the actual amount and timing of our future capital requirements may differ from our estimates as a result of, among other things, unforeseen delays or cost overruns, unanticipated expenses, regulatory changes, engineering design changes and technological changes.

The quotations received by us for such plant and machinery as of the date of this Draft Red Herring Prospectus are valid for a certain period of time and may be subject to revisions and other commercial and technical factors. Additionally, in the event of any delay in placement of orders, the proposed schedule, implementation and deployment of the Net Proceeds may be extended or may vary accordingly. We cannot assure you that the actual costs incurred will not exceed the quotation amounts. Our inability to procure such machinery and equipment at acceptable prices or in a timely manner, may result in an increase in capital expenditure, the proposed schedule implementation and deployment of the Net Proceeds may be extended or may vary accordingly, thereby resulting in an adverse effect on our business, results of operations, financial condition and cash flows.

50. ***We have not arranged any alternative funding for the Objects of the Issue. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.***

As on date, we have not made any alternate arrangements for meeting our capital requirements for the objects of the Issue. We meet our capital requirements through our bank finance, unsecured loans, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this issue or any shortfall in the Issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, refer the chapter titled "Objects of the Issue" beginning on page no. 123 of Draft Red Herring Prospectus.

51. ***We may not achieve the expected benefits from the proposed manufacturing of new product under the Objects of the Issue. Commercialization of these products may take more time than expected and may involve various business, operational, and market risks.***

Our existing products are supported by an existing customer base; however, there is no assurance that the proposed new product, including Paper Covered Copper/Aluminium Conductors, will receive similar market acceptance or demand. Commercialization for new product may take longer time than expected and / or may involve unforeseen business risks which could have an adverse impact on our business and results of operations. Changes in customer preferences, technology, industry standards, or the introduction of similar or better products by competitors may adversely affect the growth and success of these products. It is often difficult to project the duration of market demand for these products, and hence there is a substantial risk that we may have to abandon a potential product that is no longer commercially viable, even after we have invested significant

resources in the manufacturing of such product.

Further, the success of the proposed products will depend on factors such as product quality, design, raw material quality, and effective quality control systems. Any issue relating to product quality, manufacturing defects, or negative allegations, even if incorrect, may adversely affect our brand image, customer confidence, business operations, and financial condition.

52. ***Any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior shareholders' approval.***

Our proposed objects of the Issue are detailed in the chapter titled "Objects of the Issue" beginning on page no. 123 of the Draft Red Herring Prospectus. However, due to changes in business, economic, competitive or other unforeseen circumstances beyond our control, we may require the Net Proceeds for purposes other than those presently disclosed. Under Sections 13(8) and 27 of the Companies Act, any variation in the utilisation of the Net Proceeds requires shareholders' approval through a special resolution. We may not be able to obtain such approval in a timely manner, or at all, which could adversely impact our business and operations.

Further, in case of any proposed variation in the objects of the Issue or related contracts, our Promoters may be required to provide an exit opportunity to dissenting shareholders in accordance with SEBI regulations. This obligation may discourage any proposed variation, even if considered beneficial to our Company. Additionally, there can be no assurance that the Promoters or controlling shareholders will always have sufficient resources to provide such exit opportunity. As a result, our ability to redeploy unutilised Net Proceeds or modify contractual terms may be restricted, which could adversely affect our business, financial condition and results of operations.

EXTERNAL RISK FACTORS

SYSTEMIC RISKS

53. ***Political, economic or other factors that are beyond our control may have an adverse effect on our business, results of operations, financial condition and cash flows.***

The Indian economy and capital markets are influenced by economic, political and market conditions in India and globally. Our results of operations are significantly affected by factors influencing the Indian economy. Factors that could adversely affect the Indian economy, and hence our results of operations, may include:

- epidemics, pandemics or any other public health concerns in India or in countries in the region or globally,
- the macroeconomic climate, including any increase in Indian interest rates or inflation;
- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export/import assets;
- prevailing income conditions among Indian consumers and Indian corporates;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- occurrence of natural or man-made disasters (such as typhoons, flooding, earthquakes and fires) which may cause us to suspend our operations;
- civil unrest, acts of violence, terrorist attacks, regional conflicts or situations or war; and

- international business practices that may conflict with other customs or legal requirements to which we are subject, including anti-bribery and anti-corruption laws;
- being subject to the jurisdiction of foreign courts, including uncertainty of judicial processes and difficulty enforcing contractual agreements or judgments in foreign legal systems or incurring additional costs to do so.

Our performance and the growth of our business depends on the overall performance of the Indian economy including political stability as well as the economies of the regional markets in which we operate. A change in the Government or an adverse change in the economic and deregulation policies could adversely affect our business operations.

54. ***Natural disasters, epidemics, pandemics, acts of war, terrorist attacks and other events could materially and adversely affect our business and profitability.***

Natural disasters (such as earthquakes, fire, typhoons, cyclones, hurricanes and floods), pandemics, epidemics, strikes, civil unrest, terrorist attacks and other events, which are beyond our control, may lead to global or regional economic instability, which may in turn materially and adversely affect our business, financial condition, cash flows and results of operations. Any of these occurrences could cause severe disruptions to our daily operations and may warrant a temporary closure of our facilities. Such closures may disrupt our business operations and adversely affect our results of operations. Our operation could also be disrupted if our clients are affected by such natural disasters or epidemics. An outbreak or epidemic, such as SARS, the H1N1 and H5N1 viruses or COVID-19 could cause general consumption or the demand for various products to decline, which could result in reduced demand for our services. Such an outbreak or epidemic may significantly interrupt our business operations as health or governmental authorities may impose quarantine and inspection measures on us or our clients.

Moreover, certain regions in India have witnessed terrorist attacks and civil disturbances and it is possible that future terrorist attacks or civil unrest, as well as other adverse social, economic and political events in India could have a negative effect on us. Transportation facilities, including vehicles, can be targets of terrorist attacks, which could lead to, among other things, increased insurance and security costs. Regional and global political or military tensions or conflicts, strained or altered foreign relations, protectionism and acts of war or the potential for war could also cause damage and disruption to our business, which could materially and adversely affect our business, financial condition, cash flows and results of operations. Such incidents could create the perception that investments in Indian companies involve a higher degree of risk and such perception could adversely affect our business and the price of the Equity Shares.

55. ***Financial instability in other countries may cause increased volatility in Indian and other financial markets.***

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any global financial instability, including further deterioration of credit

conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. Historically, the global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

56. ***The impact of the Russian invasion of Ukraine, the Israel-Hamas war and the Iran-Israel conflict on the global economy is uncertain, but may prove to negatively impact our business and operations.***

The short and long-term implications of Russia's invasion of Ukraine, the Israel-Hamas war and the Iran-Israel conflict are difficult to predict at this time. As on the date of this Draft Red Herring Prospectus, we have not experienced any material interruptions in our business operations in connection with these conflicts. We continue to monitor any adverse impact that the outbreak of war in Ukraine, the subsequent institution of sanctions against Russia by the United States and several European and Asian countries, and the Israel-Hamas war or the Iran-Israel conflict may have on the global economy in general, on our business and operations and on the businesses and operations of our lenders and other third parties with which we conduct business. To the extent the wars in Ukraine or Israel or the conflict between Iran and Israel may adversely affect our business as discussed above, it may also have the effect of heightening many of the other risks described herein. Such risks include, but are not limited to, adverse effects on macroeconomic conditions, including inflation; disruptions to our global technology infrastructure, including through cyber attack, ransom attack, or cyber-intrusion; adverse changes in international trade policies and relations; disruptions in global supply chains; significant volatility in commodity prices and supply of energy resources; political and social instability; changes in consumer or purchaser preferences and constraints; volatility, or disruption in the capital markets, any of which could negatively affect our business and financial condition.

57. ***Changing laws, rules and regulations and legal uncertainties in India and other countries may adversely affect our business and financial performance.***

The regulatory and policy environment in which we operate is evolving and subject to change. Our business is subject to a significant number of state tax regimes and changes in legislations governing them, implementing them or the regulator enforcing them in any one of those jurisdictions could adversely affect our results of operations. The applicable categories of taxes and tax rates also vary significantly from state to state, which may be amended from time to time. The final determination of our tax liabilities involves the interpretation of local tax laws and related regulations in each jurisdiction as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned, and expenditures incurred. Changes in the operating environment, including changes in tax law, could impact the determination of our tax liabilities for any given tax year. Taxes and other levies imposed by the Government or State Governments that affect our industry include GST, income tax and other taxes, duties or surcharges introduced from time to time and any adverse changes in any of the taxes levied by the Government or State Governments could adversely affect our competitive position and profitability. Such changes, including the instances mentioned below, may adversely affect our business, results of operations, financial condition and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

Additionally, the GoI has introduced (a) the Code on Wages, 2019; (b) the Code on Social Security, 2020; (c) the Occupational Safety, Health and Working Conditions Code, 2020; and (d) the Industrial Relations Code, 2020 which consolidate, subsume and replace numerous existing central labour legislations. While the GoI has already finalised the rules under these codes and now states are

framing regulations on their part as labour is a concurrent subject, we are yet to determine the impact of all or some of such laws on our business and operations which may restrict our ability to grow our business in the future and increase our expenses.

For instance, companies can voluntarily opt in favour of a concessional tax regime (subject to no other special benefits/exemptions being claimed), which reduces the rate of income tax payable to 22% subject to compliance with conditions prescribed, from the erstwhile 25% or 30% depending upon the total turnover or gross receipt in the relevant period. Any such future amendments may affect our other benefits such as exemption for income earned by way of dividend from investments in other domestic companies and units of mutual funds, exemption for interest received in respect of tax free bonds, and long-term capital gains on equity shares if withdrawn by the statute in the future, and the same may no longer be available to us.

There can be no assurance that the GoI will not implement new regulations and policies requiring us to obtain approvals and licenses from the GoI or other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment or change to governing laws, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent in the jurisdictions in which we operate may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future. It may also have a material adverse effect on our business, financial condition, cash flows and results of operations. In addition, we may have to incur expenditures to comply with the requirements of any new regulations, which could materially harm our results of operations or cash flows. Any unfavourable changes to the laws and regulations applicable to us could also subject us to additional liabilities.

We are unable to determine the impact of any changes in or interpretations of existing, or the promulgation of, new, laws, rules and regulations applicable to us and our business. If that was to occur it could result in us, our business, operations or group structure being deemed to be in contravention of such laws and/or may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

58. ***Investors outside India subscribing to this Issue may not be able to enforce any judgment of a foreign court against us, except by way of a suit in India.***

Our Company is a limited liability company incorporated under the laws of India. Our Company's assets are located in India. As a result, it may be difficult for investors to effect service of process upon us or such persons in India or to enforce judgments obtained against our Company or such parties outside India. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. India has reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions, including the United Kingdom, Singapore, UAE, and Hong Kong. A judgment from certain specified courts located in a jurisdiction with reciprocity must meet certain requirements of the Code of Civil Procedure, 1908, as

amended ("Civil Procedure Code"). The United States has not been notified as a reciprocating territory.

In addition, any person seeking to enforce a foreign judgment in India is required to obtain the prior approval of the RBI to repatriate any amount recovered, and we cannot assure that such approval will be forthcoming within a reasonable period of time, or at all, or that conditions of such approvals would be acceptable. Such amount may also be subject to income tax in accordance with applicable law. Consequently, it may not be possible to enforce in an Indian court any judgment obtained in a foreign court, or effect service of process outside of India, against Indian companies, entities, their directors and executive officers and any other parties' resident in India. Additionally, there is no assurance that a suit brought in an Indian court in relation to a foreign judgment will be disposed of in a timely manner.

59. ***Any adverse change or downgrading in ratings of India may adversely affect our business, results of operations and cash flows.***

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

60. ***Under Indian legal regime, foreign investors are subject to investment restrictions that limit our Company's ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares. Accordingly, our ability to raise foreign capital may be constrained.***

As a company incorporated in India, we are subject to exchange controls that govern the borrowings in foreign currencies. Further, under applicable foreign exchange regulations in India, transfer of shares between non- residents and residents are freely permitted (subject to compliance with sectoral norms and certain other restrictions), if they comply with the pricing guidelines and reporting requirements specified under applicable laws. If share transfer is not in compliance with such requirements and does not fall under any of the permissible exceptions, then prior approval of the relevant regulatory authority is required. Such regulatory restrictions limit our financing sources and could constrain our ability to obtain financings on competitive terms and refinance existing indebtedness.

61. ***The requirements of being a publicly listed company may strain our resources.***

We are not a publicly listed company and have not, historically, been subjected to the compliance requirement or the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the SEBI Listing Regulations, which will require us to file audited annual and unaudited half yearly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies.
Further, as a publicly listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of our

disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, our management's attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations and financial condition. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

62. ***Changes in the Government Policy could adversely affect economic conditions in India generally and our business in particular.***

Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Elimination or substantial change of policies or the introduction of policies that negatively affect the Company's business could cause its results of operations to suffer. Any significant change in India's economic policies could disrupt business and economic conditions in India generally and the Company's business in particular.

63. ***Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.***

Inflation is typically impacted by factors such as governmental policies, regulations, commodity prices, liquidity and global economic environment. Any change in the government or a change in the economic and deregulation policies could adversely affect the inflation rates. Continued high rates of inflation may increase our costs such as salaries, travel costs and related allowances, which are typically linked to general price levels. There can be no assurance that we will be able to pass on any additional costs to our clients or that our revenue will increase proportionately corresponding to such inflation. Accordingly, high rates of inflation in India could have an adverse effect on our profitability and, if significant, on our financial condition.

64. ***Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.***

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include STT, GST, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. Imposition of any other taxes by the Central and the State Governments may adversely affect our results of operations.

65. ***A slowdown in economic growth in India could adversely affect our business, results of operations, financial condition and cash flows.***

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. Demand for our products may be adversely affected by an economic downturn in domestic, regional and global economies. Economic growth in the country in which we operate is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports of materials, global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production. Consequently, any future slowdown in the Indian economy could harm our business, results of operations, financial condition and cash flows.

OTHERS – RISK FACTORS RELATED TO EQUITY SHARES

66. ***Equity Shares of our Company have never been publicly traded, and after the Issue, the Equity Shares may be subject to price and volume fluctuations, and an active trading market for the Equity Shares may or may not develop. Further, the Issue Price may not be indicative of the market price of the Equity Shares after the Issue.***

Prior to this Issue of our Company, no public market existed for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation of Equity Shares does not guarantee that a market for the same will develop, or if developed, the liquidity of such market for the Equity Shares cannot be guaranteed. The Issue Price of the Equity Shares is proposed to be determined through a book building process in compliance with Schedule XIII of the SEBI ICDR and the same may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The Issue Price will be based on numerous factors, as described in the section "*Basis for Issue Price*" beginning on page no. 153 of this Draft Red Herring Prospectus. This price may not necessarily be indicative of the market price of our Equity Shares after the Issue is completed. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in.

Our Equity Shares are expected to trade on BSE after the Issue, but there can be no assurance that active trading in our Equity Shares will develop after the Issue, or if such trading develops, that it will continue. Investors may not be able to sell our Equity Shares at the quoted price if there is no active trading in our Equity Shares.

67. ***Investors may be subject to Indian taxes arising out of income arising on the sale of the Equity Shares.***

Under the present Indian tax laws and regulations, unless specifically exempted, capital gains that arise from the sale of equity shares in an Indian company are generally taxable in India. A securities transaction tax ("STT") is levied on and collected by an Indian stock exchange on which equity shares are sold. Any gain realised on the sale of listed equity shares held for more than 12 months, which are sold using any other platform other than on a recognised stock exchange and on which no STT has been paid, are subject to long-term capital gains tax in India at the specified rates depending on certain factors, such as whether the sale is undertaken on or off the Stock Exchanges, the quantum of gains and any available treaty relief. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of Securities Transaction Tax ("STT"), on the sale of any Equity Shares held for more than 12 months immediately preceding the date of transfer. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any capital gains realised on the sale of listed equity shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short term capital gains tax in India. In cases where the seller is a non-resident, capital gains arising from the sale of the equity shares will be partially or wholly exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident and the seller is entitled to avail benefits thereunder, subject to certain conditions.

Capital gains arising from the sale of the Equity Shares will not be chargeable to tax in India in cases where relief from such taxation in India is provided under a treaty between India and the country of which the seller is resident and the seller is entitled to avail benefits thereunder, subject to certain conditions. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

68. ***The determination of the Price Band is based on various factors and assumptions, and the Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue.***

The determination of the Price Band is based on various factors/ assumptions and will be determined by our Company in consultation with the BRLMs. Furthermore, the Issue Price of the Equity Shares will be determined by our Company in consultation with the BRLMs through the Book Building Process. The Issue Price will be based on numerous factors, including the factors described in "Basis for Issue Price" beginning on page no 153 of this Draft Red Herring Prospectus and may not be indicative of the market price for the Equity Shares after the Issue.
The market price of the Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. In addition, the stock market often experiences price and volume fluctuations that are unrelated or disproportionate to the operating performance of a particular company. These broad market fluctuations and industry factors may materially reduce the market price of the Equity Shares, regardless of our Company's performance. As a result of these factors, there can be no assurance that the investors will be able to resell Equity Shares at or above the Issue Price resulting in a loss of all or part of the investment.

69. ***QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after the submission of their Bid.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Individual Investors can revise their Bids during the Bid/Offer Period and withdraw their Bids until Bid/Offer Closing Date. While our Company is required to complete Allotment pursuant to the Offer within 3 Working Days from the Bid/Offer Closing Date, events affecting the Bidders' decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the Bidders' ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing. For more details please refer chapter titled "Terms of the Issue" beginning on page no. 381of this Draft Red Herring Prospectus.

70. ***Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Issue.***

The Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. Investors' book entry, or 'demat' accounts with depository participants in India, are expected to be credited within one working day of the date on which the Basis of

Allotment is approved by the Stock Exchanges. The Allotment of Equity Shares in the Issue and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately five Working Days from the Bid/ Issue Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within six Working Days of the Bid/ Issue Closing Date. There could be a failure or delay in listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise commence trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

71. ***Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.***

Under the Companies Act, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution. However, if the laws of the jurisdiction the investors are located in does not permit them to exercise their pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor's benefit. The value the custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emption rights granted in respect of the Equity Shares held by them, their proportional interest in us would be reduced.

72. ***We may be subject to surveillance measures, such as the Additional Surveillance Measures (ASM) and the Graded Surveillance Measures (GSM) by the Stock Exchanges which may adversely affect trading price of our Equity Shares.***

SEBI and Stock Exchanges in order to enhance market integrity and safeguard interest of investors, have been introducing various enhanced pre-emptive surveillance measures. The main objective of these measures is to alert and advice investors to be extra cautious while dealing in these securities and advice market participants to carry out necessary due diligence while dealing in these securities. Accordingly, SEBI and Stock Exchanges have provided for (a) GSM on securities where such trading price of such securities does not commensurate with financial health and fundamentals such as earnings, book value, fixed assets, net-worth, price per equity multiple and market capitalization; and (b) ASM on securities with surveillance concerns based on objective parameters such as price and volume variation and volatility. On listing, we may be subject to general market conditions which may include significant price and volume fluctuations. The price of our Equity Shares may also fluctuate after the issue due to several factors such as volatility in the Indian and global securities market, our profitability and performance, performance of our competitors, changes in the estimates of our performance or

any other political or economic factor. The occurrence of any of the abovementioned factors may trigger the parameters identified by SEBI and the Stock Exchanges for placing securities under the GSM or ASM framework. In the event our Equity Shares are subject to such pre-emptive surveillance measures implemented by the Stock Exchange, we may be subject to certain additional restrictions in connection with trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active trading market for our Equity Shares.

73. ***A third-party could be prevented from acquiring control of us post this Issue, because of anti-takeover provisions under Indian law.***

As a listed Indian company, there are provisions in Indian legal regime that may delay, deter or prevent a future takeover or change in control of our Company. Under the Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company subsequent to completion of the Issue. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of Takeover Regulations.

74. ***After the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.***

An active trading market on the Stock Exchange may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares shall be determined through a book-building process and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate and other regulatory factors.

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., 22.00 in the above example. The Company in consultation with the BRLM, may finalize the Issue Price at or below such Cut-Off Price, i.e., at or below * 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

- Check eligibility for making a Bid (see section titled "Issue Procedure" on page 404 of this Draft Red Herring Prospectus);

- Ensure that you have a Demat account and the Demat account details are correctly mentioned in the Bid cum Application Form;

- Ensure correctness of your PAN, DP ID and Client ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Issue will obtain the Demographic Details of the Bidders from the Depositories.

- Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central of State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depositary Participant's verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims.

- Ensure that the Bid cum Application Form is duly completed as per instructions given in this Draft Red Herring Prospectus and in the Bid cum Application Form;

The time for applying for Individual Applicant on Bid/ Issue Closing Date maybe extended in consultation with the BRLM, RTA and BSE SME taking into account the total number of applications received up to the closure of timings.

Due to limitation of time available for uploading Bid Cum Application Forms on the Bid/ Issue Closing Date, the Bidders are advised to submit their applications one day prior to the Issue Closing Date and, in any case, not later than 3.00 p.m. (IST) on the Issue Closing Date. All times mentioned in this Draft Red Herring Prospectus are Indian Standard Times. Bidders are cautioned that in the event a large number of Applications are received on the Issue Closing Date, as is typically experienced in public offerings, some Applications may not get uploaded due to lack of sufficient time. Such Bid-cum Application forms that cannot be uploaded will not be considered for allocation under the Issue. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the BRLM is liable for any failure in uploading the Applications due to faults in any software/hardware system or otherwise.

In accordance with SEBI ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their application (in terms of the quantity of the Equity Shares or the

Application amount) at any stage. Individual Applicants can revise or withdraw their Bid Cum Application Forms prior to the Bid/ Issue Closing Date. Allocation to Individual Applicants, in this Issue will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid Cum Application Form, for a particular Applicant, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid Cum Application Form, for a particular ASBA Applicant, the Registrar to the Issue shall ask the relevant SCSBs / RTAs / DPs / stock brokers, as the case may be, for the rectified data.

UNDERWRITING

This Issue is 100% Underwritten. The Underwriting agreement is dated [●] Pursuant to the terms of the Underwriting Agreement, the obligations of the Underwriters are several and are subject to certain conditions specified therein. The Underwriters have indicated their intention to underwrite the following number of specified securities being offered through this Issue:

Name, address, telephone number and e-mail address of the Underwriters	No. of Shares Underwritten (F.V. ₹10 each)	Amt Underwritten (₹in Lakhs)	% of the Total Issue Size Underwritten
[●]	Upto 28,00,800	[●]	100.00%

**Includes* [●] *Equity shares of ₹10.00 each for cash of ₹* [●] *the Market Maker Reservation Portion which are to be subscribed by the Market Maker in its own account in order to claim compliance with the requirements of Regulation 261 of the SEBI (ICDR) Regulations, as amended.*

In the opinion of the Board of Directors (based on certificate given by the Underwriters), the resources of the above-mentioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full.

WITHDRAWAL OF THE ISSUE

In accordance with the SEBI (ICDR) Regulations, Our Company may, in consultation with the Book Running Lead Manager, reserve the right to not to proceed with the issue at any time before the Bid/ Issue Opening Date without assigning any reason thereof.

If our Company withdraws the issue any time after the Bid/ Issue Opening Date but before the allotment of Equity Shares, a public notice within 2 (two) working days of the Bid/ Issue Closing Date, providing reasons for not proceeding with the issue shall be published by our Company. The notice of withdrawal will be issued in the same newspapers where the pre- Issue advertisements have appeared and the Stock Exchange will also be informed promptly. The Book Running Lead Manager, through the Registrar to the Issue, will instruct the SCSBs to unblock the ASBA Accounts within 1 (one) working Day from the day of receipt of such instruction.

If our Company withdraws the Issue after the Bid/ Issue Closing Date and subsequently decides to proceed with an Issue of the Equity Shares, our Company will have to file a fresh Draft Red Herring Prospectus with the stock exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Issue is subject to obtaining (i) the final listing and trading approval of the Stock Exchange with respect to the Equity Shares Issued through the Prospectus, which our Company will apply for only after Allotment;

MARKET MAKER

Our Company has entered into a Market Making Agreement dated [●] with the following Market Makers for fulfilling the Market Making obligations under this Issue:

Name	[●]

SEBI Registration No.: **Market Maker Registration No.**	[●] [●]

Details of the Market Making Arrangement for this Issue

Our company may, in consultation with the Book Running Lead Manager, shall allot at least 5.00% of the Issue to the Market Makers under the Market Makers Reservation Portion as per the Regulation 261(4) of the SEBI ICDR Regulations.

In accordance with Regulation 261 of the SEBI ICDR Regulations and amendments thereto, we shall enter into an agreement with the Book Running Lead Manager and the Market Makers (duly registered with BSE to fulfil the obligations of Market Making) dated [●] to ensure compulsory Market Making for a minimum period of three years from the date of listing of equity shares issued in this Issue.

[●], registered with SME Platform of BSE "BSE SME" will act as the Market Makers and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI ICDR Regulations.

The Market Makers shall fulfil the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, and its amendments from time to time and the circulars issued by the BSE Limited and SEBI regarding this matter from time to time.

The following outlines the key aspects of the proposed Market Making arrangement:

1. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. Further, the Market Maker shall inform the exchange in advance for each and every black out period when the quotes are not being issued by the Market Maker.

2. The minimum depth of the quote shall be ₹ 1,00,000. However, the Investors with holdings of value less than ₹ 1,00,000 shall be allowed to offer their holding to the Market Maker in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.

3. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our company reaches to 25% of Issue Size. Any Equity Shares allotted to Market Maker under this Issue over and above 25% of Issue Size would

not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduces to 24% of Issue Size, the Market Maker will resume providing 2-way quotes.

4. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, BSE may intimate the same to SEBI after due verification.

5. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker, for the quotes given by him.

6. There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.

7. On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. In case equilibrium price is not discovered the price band in the normal trading session shall be based on Issue price.

8. The Market maker may also be present in the opening call auction, but there is no obligation on him to do so.

9. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems or any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.

10. The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of the SME platform of BSE Limited (BSE SME) and SEBI from time to time.

11. The Market Maker shall not sell in lots less than the minimum contract size allowed for trading on the BSE SME platform (in this case currently the minimum trading lot size is [●] equity shares of face value of ₹10/ each; however, the same may be changed by the BSE SME platform from time to time).

12. The Market Maker shall have the right to terminate the said arrangement by giving a one months' notice or on mutually acceptable terms to the Book Running Lead Manager, who shall then be responsible to appoint a replacement Market Maker.

    In case of termination of the above-mentioned Market Making Agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Manager to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations, 2018. Further the Company and the Book Running Lead Manager reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particular point of time.

13. **Risk containment measures and monitoring for Market Maker**: SME Platform of BSE Limited will have

all margins which are applicable on the BSE Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. BSE Limited can impose any other margins as deemed necessary from time-to-time.

14. **Punitive Action in case of default by Market Maker**: SME Platform of BSE Limited will monitor the obligations on a real-time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

15. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.

16. **Price Band and Spreads:** The price band shall be 20% and the market maker spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time

17. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Markets Makers during market making process has been made applicable, based on the issue size and as follows:

Issue Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to ₹ 20 Crore	25%	24%
₹ 20 Crore to ₹50 Crore	20%	19%
₹50 Crore to ₹ 80 Crore	15%	14%
Above ₹ 80 Crore	12%	11%

SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Issue size up to ₹250 Crores, the applicable price bands for the first day shall be:

- In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
- In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Issue price.

Additionally, the securities of the Company will be placed in SPOS and would remain in Trade for Trade settlement for first 10 days from commencement of trading. The following spread will be applicable on the SME platform:

Sr. No.	Market Price Slab (in ₹)	Proposed Spread (in % to total Sale Price)
1.	Up to 50	9
2.	50 to 75	8
3.	75 to 100	6
4.	Above 100	5

All the above-mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and/or norms issued by SEBI / BSE from time to time.

a) In terms of Regulation 242 of the SEBI (ICDR) Regulations, 2018 the locked in Equity Shares held by the Promoters, as specified above, can be pledged with any scheduled commercial bank or public financial institution or a systemically important non-banking finance company or a housing finance company as collateral security for loan granted by such bank or institution provided that the pledge of Equity Shares is one of the terms of the sanction of the loan. Provided that securities locked in as minimum promoter contribution may be pledged only if, in addition to fulfilling the above requirements, the loan has been granted by such bank or institution, for the purpose of financing one or more of the objects of the issue.

b) In terms of Regulation 243 of the SEBI (ICDR) Regulations, 2018 the Equity Shares held by persons other than the Promoters prior to the issue may be transferred to any other person holding the Equity Shares which are locked in as per Regulation 239 of the SEBI (ICDR) Regulations, 2018 subject to continuation of the lock-in in the hands of the transferees for the remaining period and compliance with the SEBI (Substantial Acquisition of Shares and

Takeovers) Regulations, 2011, as applicable.

c) Further in terms of Regulation 243 of the SEBI (ICDR) Regulations, 2018 the specified securities held by the promoters and locked-in as per regulation 238 may be transferred to another promoter or any person of the promoter group or a new promoter or a person in control of the issuer subject to continuation of the lock-in in the hands of the transferees for the remaining period and compliance with SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011, as applicable.

22. Our Company, our Promoters, our Directors and the Book Running Lead Manager have no existing buyback arrangements or any other similar arrangements for the purchase of Equity Shares being issued through the Issue.

23. The post-issue paid up Equity Share Capital of our Company shall not exceed the authorised Equity Share Capital of our Company.

24. There have been no financing arrangements whereby our directors or any of their relatives have financed the purchase by any other person of securities of our Company during the six months immediately preceding the date of filing of this Draft Red Herring Prospectus.

25. As on the date of this Draft Red Herring Prospectus, the entire Issued Share, Subscribed and Paid-up Share Capital of our Company is fully paid up. Since the entire issue price in respect of the issue is payable on application, all the successful applicants will be allotted fully paid-up Equity Shares.

26. Neither any of the investors of our Company is directly or indirectly related to the Book Running Lead Manager ("BRLM") or its associates, nor does the BRLM, i.e., ISK Advisors Private Limited, or any of its associates hold any Equity Shares in our Company as on the date of filing of this Draft Red Herring Prospectus. The BRLM and their affiliates may engage in the transactions with and perform services for our Company in the ordinary course of business or may in the future engage in commercial banking and investment banking transactions with our Company for which they may in the future receive customary compensation.

27. As on the date of this Draft Red Herring Prospectus, we do not have any Employees Stock Option Scheme / Employees Stock Purchase Scheme/ Stock Appreciation Right Scheme and we do not intend to allot any shares to our employees under Employee Stock Option Scheme/ Employee Stock Purchase Plan/ Stock Appreciation Right Scheme from the proposed issue. As and when, options are granted to our employees under the Employee Stock Option Scheme, our Company shall comply with the SEBI (Share Based Employee Benefits) Regulations, 2014.

28. We have 9 (Nine) shareholders as on the date of filing of this Draft Red Herring Prospectus.

29. As on the date of filing of this Draft Red Herring Prospectus, there are no outstanding warrants, options or rights to convert debentures, loans or other instruments which would entitle Promoters or any shareholders or any other person any option to acquire our Equity Shares after this Initial Public issue.

30. Our Company has not raised any bridge loan against the proceeds of the issue. However, depending on business requirements, we might consider raising bridge financing facilities, pending receipt of the Net Proceeds.

31. As on the date of this Draft Red Herring Prospectus, none of the Equity Shares held by our Promoter/ Promoter Group are pledged or otherwise encumbered.

32. We here by confirm that there will be no further issue of capital whether by way of issue of bonus shares, preferential allotment, rights issue or in any other manner except for the issued and allotment of Equity Shares pursuant to the Pre IPO-Placement, if any, during the period commencing from the date of the Draft Red Herring Prospectus until the Equity Shares Issued have been listed or application money unblocked on account of failure of issue.

33. Investors may note that in case of over-subscription, allotment will be on proportionate basis as detailed under "Basis of Allotment" in the chapter titled "Issue Procedure" beginning on page 404 of this Draft Red Herring Prospectus. In case of over-subscription in all categories the allocation in the issue shall be as per the requirements of Regulation 253 (2) of SEBI (ICDR) Regulations, as amended from time to time.

34. An over-subscription to the extent of 1% of the issue subject to the maximum post issue paid up capital of Rs. 25 cr., can be retained for the purpose of rounding off to the nearest integer during finalizing the allotment, subject to minimum allotment, which is the minimum application size in this issue. Consequently, the actual allotment may go up by a maximum of 1% of the issue, as a result of which, the post- issue paid up capital after the issue would also increase by the excess amount of allotment so made. In such an event, the Equity Shares held by the Promoters and subject to 3 years lock in shall be suitably increased; so as to ensure that 20% of the post issue paid-up capital is locked in.

35. An investor cannot make an application for more than the number of Equity Shares issued in this Issue, subject to the maximum limit of investment prescribed under relevant laws applicable to each category of investor.

36. Under subscription, if any, in any of the categories, would be allowed to be met with spill-over from any of the other categories or a combination of categories at the discretion of our Company in consultation with the BRLM and Designated Stock Exchange. Such inter-se spill over, if any, would be affected in accordance with applicable laws, rules, regulations and guidelines.

37. At any given point of time there shall be only one denomination of the Equity Shares, unless otherwise permitted by law.

38. Our Company shall comply with such disclosure and accounting norms as may be specified by BSE, SEBI and other regulatory authorities from time to time.

39. There are no Equity Shares against which depository receipts have been issued.

40. Other than the Equity Shares, there is no other class of securities issued by our Company.

41. There are no safety net arrangements for this public issue.

42. Our Company is in compliance with the Companies Act, 2013 with respect to issuance of securities since inception till the date of filing of Draft Red Herring Prospectus.

43. As per RBI regulations, OCBs are not allowed to participate in this issue.

44. Our Promoters and Promoter Group will not participate in the issue.

45. All Equity Shares held by our Promoters and Promoter Group are in Dematerialised Form. Hence Pre- issue paid up capital of our Company is 100% Dematerialised.

46. No payment, direct, indirect in the nature of discount, commission, and allowance, or otherwise shall be made either by us or by our Promoter to the persons who receive allotments, if any, in this issue

47. As on date of this Draft Red Herring Prospectus, there are no outstanding financial instruments or any other rights that would entitle the existing Promoters or shareholders or any other person any option to receive Equity Shares after the Issue.

48. This issue is being made through Book Building Method.

49. Our Company has not made any public issue or rights issue of any kind or class of securities since its incorporation.

50. In terms of Rule 19(2)(b)(i) of the Securities Contracts (Regulation) Rules, 1957, as amended, (the SCRR) the issue is being made for at least 25% of the post- issue Paid-up Equity Share capital of our Company. Further, this issue is being made in terms of Chapter IX of the SEBI (ICDR) Regulations, 2018, as amended from time to time.

51. No person connected with the issue shall issue any incentive, whether direct or indirect, in the nature of discount, commission, and allowance, or otherwise, whether in cash, kind, services or otherwise, to any Applicant.

Notes:

1) We have considered the above quotations for the budgetary estimate purpose and our management has not yet placed any firm order for the above-mentioned quotation and is subject final negotiations.
2) We have not entered into definitive agreements with any of these suppliers and there can be no assurance that the same suppliers would be engaged to eventually supply the equipment or at the same cost.
3) The quotations relied upon by us in arriving at the above cost are valid for a specific period of time and may lapse after the expiry of the said period. Consequent upon which, there could be a possible escalation in the cost of Plant & Machineries proposed to be acquired by us at the actual time of purchase, resulting in increase in the estimated cost.
4) Our Promoters, Promoter Group, Directors, Key Managerial Personnel and Senior Management Personnel do not have any interest in the acquisition of Plant & Machineries or in the entities from whom we have obtained quotations in relation to such activities.
5) The Vendors are neither related to directors/KMPs/promoters/promoter group/group companies/any other entities controlled nor influenced by the promoters or directors of the company in any capacity.
6) None of the above supplier is relative to the Promoters, Directors and KMPs in any manner.
7) The quantity of machinery to be purchased is based on the estimates of our Company's management. Accordingly, the number of units of each machine proposed to be purchased may be varied based on the availability, technological improvements, commercial and logistics, specifications of the machinery or negotiations with the relevant vendors.
8) No second-hand or used equipment is proposed to be purchased out of the Net Proceeds. No land is proposed to be acquired from the Net Proceeds.

Table-2 The details of Purchase Orders placed for purchase as on date of this Draft Red Herring Prospectus, are set out in the table below

As on date of this Draft Red Herring prospectus, we have already placed purchase orders for the following plant and machinery. These purchase orders have been placed by us after having evaluated factors including by not limited to the quality, brand, price, historical relationships with and market feedback on the suppliers, etc.

Note: We have above approvals for existing operations at Unit-II, please refer chapter titled "Government and other key approvals beginning on page no.354 of Draft Red Herring prospectus.

In the event of any unanticipated delay in receipt of such approvals, the proposed schedule of implementation and deployment of the Net Proceeds may be extended or varied. Please refer *"Our proposed expansion plans are subject to the risk of unanticipated delays in implementation and cost overruns"* chapter titled "Risk factor" beginning of page 30 of Draft Red Herring prospectus.

b) <u>Purchase new machinery to manufacture "Paper Insulated Copper / Aluminium Conductors"</u>

Over the years, we have scaled our capacity in line with evolving market demand and added products to our product portfolio to better serve our existing customer base and on board new customers. Currently, our product portfolio comprises of LT Power Control Cables, Industrial Single and Multicore Control Cables, Housing/ Building Wires, Welding Cable, Solar / Photovoltaic Cables, Submersible Flat Cables.

We propose to manufacture a new product "Paper Insulated Copper / Aluminium Conductors", which have wide applications in including oil-filled power and distribution transformers, dry-

type transformers, high tension motors and windmill generators across the power transmission & distribution, electrical equipment manufacturing, industrial, infrastructure, and renewable energy sectors.

The management of company proposes to purchase and install new machineries to manufacture PICC in the constructed Factory Shed at Unit-II. For the manufacture of PICC, the Company has commenced the civil construction of the factory shed and proposes to procure new machinery to manufacture a new product "PICC". Civil cost has been already funded through term loans availed by our Company and is not part of the Objects of the Offer.

It will have an installed production capacity of 47.25 MT as per Technical Evaluation Report dated 06th August 2026 issued by Vishvakarma Consulting Services Pvt. Ltd., Chartered Engineers.

A brief indicative description of the some of the proposed machinery and its intended use, is set out below:

Machine Name	Intended Use
Vertical Paper Taping Machine	Vertical paper taping / insulation of conductor
Horizontal Double Decker Layer Paper Taping Machine	Multi-layer paper insulation on conductor
Horizontal Double Decker & Double Bunch Conductor Paper Taping Machine	Paper taping of individual and bunched conductors
Single Stand Flattening Mill Machine	Flattening / shaping of conductor
Horizontal Paper Taping Machine with Automatic Machine Setting Feature	High-layer paper taping with automatic setting
Furnace	Heating / process support for conductor manufacturing
PLC Controlled Automatic Slitter / Rewinder	Paper cutting, slitting and rewinding
Baling Press Machine	Packing / bundling support
Computerized Universal Testing Machine	Tensile / compression / transverse testing
Computerized Vickers Hardness Tester	Hardness testing
Profile Projector	Measurement of profile / corner radius
OHM Meter with One Meter Stand	Resistance / conductivity measurement
TLJ 300H Continuous Extrusion Production Line	Continuous extrusion production line for copper strip / conductor

Note: As per Technical Evaluation Report dated 06th August 2026 issued by Vishvakarma Consulting Services Pvt. Ltd., an independent chartered engineer.

As on date of this Draft Red Herring Prospectus, we have already placed purchase orders for the following plant and machinery. These purchase orders have been placed by us after having evaluated factors including by not limited to the quality, brand, price, historical relationships with the suppliers.

c) Purchase and set up a rooftop solar power plant

In order to minimize the electricity cost, our Company proposes to purchase and install 309.88 KWP DC & 900.36 KWP DC Rooftop Solar plant at manufacturing unit-I & II respectively. The new solar rooftop will have an estimated power generation capacity of 4,77,805 Kwh DC (units p.a) & 14,25,912 Kwh DC (Units p.a.). The electricity generated from the proposed rooftop solar power plant shall be used for power requirements of Unit-I and II and hence, shall be used for captive consumption purposes. Further for additional electricity requirements, if any, our Company shall make arrangements with Uttar Gujarat Vij Company Ltd. (UGVCL) for supply of power.

The set up of captive solar power unit is in line with our Company's approach towards be sustainable and self-reliant. Further, unlike the conventional energy, solar system generates power that is renewable, clean, and safe for the environment.

We believe that installation of Rooftop solar power plant may result into substantial reduction in the overall electricity cost borne by the Company and also the dependency on State Electricity supply shall be curtailed. Estimated total units Saved from installation of proposed Solar Power Plant are 19,03,717 kWh per annum, which is estimated 91.95% of total units consumed during latest Fiscal 2026. Saving in electricity units will reduce electricity cost in turn impact the profitability of Company.

Unit wise details of Electricity unit consumption and Electricity Cost of last 3 Financial Years are as under:

Particulars	FY 2025-26	FY 2024-25	FY 2023-24
Unit-I			
Electricity unit consumption	9,18,750	8,09,418	7,19,388
Electricity Cost (Rs. In Lakhs)	₹ 81.03 Lakhs	₹75.07 Lakhs	₹ 63.89 Lakhs
Unit-II

Electricity Cost (Rs. In Lakhs)	₹82.64 Lakhs	₹52.34 Lakhs	₹4,36 Lakhs

** Electricity consumption at Unit-II started from December 2023.*

The total estimated cost of purchase and installation of rooftop solar power plant is ₹322.80 Lakhs as per quotation obtained from Kosol Energie Pvt. Ltd. dated July 31, 2026. Address of supplier is Kalthia Corporate House, Sindhu Bhavan Marg, Thaltej, Ahmedabad, Gujarat 380059. The quotation is valid for 29/10/2026. The entire amount is intended to be funded from the Net Proceeds. We confirm

that as on date No solar power plant has been installed at any of our manufacturing facility.

The summary of the quotations for the estimated cost is provided below:

Unit	Particular	Quantity	Price Per Unit (₹)	Total cost (₹)
I	309.88 KWP DC Rooftop Mounting Solar Power Plant-Grid Connected	508 Panels	14,640	74,37,120
II	900.36 KWP DC Rooftop Solar Power Plant-Grid Connected	1476 Panels	14,640	2,16,08,640
Total				**2,90,45,760**
Add: Taxes (8.9%)				25,85,073
Add: Miscellaneous/ Contingent cost				**6,50,000**
Total estimated cost proposed to be funded from the Net Proceeds (Rounding off)(A)				**3,22,80,000**

Terms & Conditions as per Quotation:

1. Govt. charges & additional work: (Rs.11,800 Extra per Meter At actual)
2. Cables & Other additional work at extra at actual cost.
3. Transportation: Included, as pre decided location.
4. Any Govt./DISCOM / Net Metering / GEDA charges at actual in Customer Scope.
5. If any change Solar Policy then Consider & Provide additional Cost.
6. **Payment Terms:**
   I. 10% Advance along with this LOI/PO.
   II. 40% At time of successful Registration of GEDA.
   III. 40% payment before material dispatch
   IV. 10 % payment at time of installation (panels, wiring, inverters etc..) finished

Justification for holding period:

Particulars	Details
Trade Receivables	The historical trade receivable holding period has ranged from 43 days to 51 days during Fiscal 2024 to Fiscal 2026, based on the Restated Financial Statements. Trade receivable days were 51 days in Fiscal 2026 and are estimated at 50 days for Fiscal 2027. The estimated holding period has been determined considering the Company's existing credit policy, historical collection trends, prevailing industry practices and the anticipated growth in operations. The proposed augmentation of working capital is expected to enable the Company to finance the resulting increase in receivables while maintaining adequate liquidity for its operations. The Company believes that extending appropriate credit periods to customers will support customer retention, facilitate business growth and contribute to increased revenue from operations
Inventories	Inventories primarily comprised of Raw materials Finished products. Historically, the Company's inventory holding period has ranged from 67 days to 77 days during Fiscal 2024 to Fiscal 2026, based on the Restated Financial Statements. Inventory holding days were 77 days in Fiscal 2026, and are estimated at 76 days for Fiscal 2027. The Company intends to maintain inventory at appropriate levels to ensure uninterrupted production and timely execution of customer orders, while mitigating the risk of supply chain disruptions and fluctuations in the availability of key raw materials.
Trade Payables	The historical trade payable holding period has ranged from 8 days to 17 days during Fiscal 2024 to Fiscal 2026, based on the Restated Financial Statements. The Company has estimated a trade payable holding period of 16 days for Fiscal 2027. The estimated holding period has been determined considering the Company's payment practices and supplier profile. As substantial number of the Company's suppliers are registered under the MSMED Act, The Company intends to continue settling its trade payables in accordance with the terms agreed with its suppliers and the applicable provisions of the MSMED Act, wherever applicable. The Company believes that timely payments contribute to stable supplier relationships and improve its ability to obtain competitive commercial terms.

Rationale for increase in Working Capital Requirement:

Justification for the working capital requirement in FY 2024-25 in comparison to FY 2023-24 is as follows:

The Revenue from Operations of the company has increased from Rs. 8833.89 lakhs in FY 2023-24 to Rs. 13,979.13 lakhs in FY 2024-25, representing an increase of 58.24%. Increase in revenue is driven by increase in production and higher volumes. The increase in production was supported by the addition of plant and machinery during the previous fiscal year, which enhanced the Company's manufacturing capacity and enabled actual production to increase by 10,840 KMs, or 42.93% from 25,250 KMs in FY 2023-24 to 36,090 KMs in FY 2024-25. This increase in revenue has led to increase in Trade Receivables to Rs. 2132.29 Lakhs in FY 2024-25 compared to Rs. 1160.65 lakhs in F.Y. 2023-24, leading to increase in working capital requirement in F.Y. 2024-25. Further also, Inventory of the company has increased from Rs. 2056.83 lakhs in FY 2023-24 to Rs. 2461.13 lakhs in FY 2024-25. All these has resulted in the increase in working capital requirement of the company.

Justification for the working capital requirement in FY 2025-26 in comparison to FY 2024-25 is as follows:

The increase in the Company's working capital requirement during FY 2025-26, as compared to FY 2024-25, is primarily attributable to growth in operational scale and production volumes. Revenue from Operations for FY 2025-26 is ₹21,047.41 lakhs, as against ₹13,979.13 lakhs in FY 2024-25, reflecting a growth of 50.56%. The increase in revenue resulted in a corresponding rise in Trade Receivables, which are at ₹3,735.74 lakhs in FY 2025-26 compared to ₹2,132.29 lakhs in FY 2024-25, thereby increasing the working capital requirement. Further, substantial number of the Company's suppliers are registered under the MSMED Act, the Company need to settle its trade payables in accordance within timeline prescribed under the applicable provisions of the MSMED Act. Trade Payables were ₹1,084.30 lakhs in FY 2025-26 to ₹586.61 lakhs in FY 2024-25.

Additionally, increase in installed capacity supported increased production and sales volumes. Inventory levels increased from ₹2,461.13 lakhs in FY 2024-25 to ₹5,115.34 lakhs in FY 2025-26. All these resulted in the increase in working capital requirement of the company.

Justification of increase in working capital requirements of the Company for estimated period FY 2026-27:

The company foresees a rise in working capital needs on account of continuous increase in the revenue from business operations of the company from F.Y. 2023-24 to F.Y. 2025-26. This growth has been driven by expansion and increase in installed capacity. One of the object of the issue is "Funding capital expenditure of our company to Purchase of additional plant & machinery for increasing the production capacity" with this Capital expenditure the installed capacity of will increase by 1,67,580 KMs from our existing(as on 31st March 2026) combined installed capacity of 79,950 KMs (*As per Technical Evaluation Report dated 06th August 2026 issued by Vishvakarma Consulting Services Pvt. Ltd., an independent chartered engineer)*. Further, our company has proposed to purchase plant & machinery to manufacture PICC in the object of the issue. These proposed increase in capacity and manufacturing of PICC will enable the company to accept bigger orders, creates additional revenue streams and achieve the projected revenue. The estimated Revenue from

Operations for FY 2026-27 is projected at ₹31,571.11 Lakhs from ₹21047.41 Lakhs in FY2025-26. The increase in revenue is expected to result in a corresponding rise in Trade Receivables which are estimated at ₹4,870.18 Lakhs in FY 2026-27 compared to ₹3,735.74 Lakhs in FY 2025-26. Additionally, to support increased production and sales volumes, Inventory levels are projected to increase from ₹5115.34 Lakhs in FY 2025-26 to ₹6043.58 Lakhs in FY 2026-27. The estimated trade payables of the company are ₹1,313.73 Lakhs in FY 2026-27 compared to ₹1084.30 Lakhs in FY2025-26. The estimated trade payables holding period in FY 2026-27 reduced to 16 days compared to 17 days in FY 2025-26 with timely payments to its creditors. All these combined has resulted in the increase in working capital requirement of the company.

Working Capital Requirement on Incremental Basis

To provide further clarity on the growth in working capital needs, the following table demonstrates the requirements on an incremental basis. The incremental requirement for each year is calculated as the difference between the net working capital requirement for that year and the previous year's requirement. This highlights the additional capital needed to support projected business expansion, revenue growth, and operational scaling.

(₹ in Lakhs, except Average Working capital/Revenue)

Particulars	FY 2023-2024	FY 2024-2025	FY 2025-2026	FY 2026-2027
	Restated	Restated	Restated	Estimated
Net Working Capital Requirement	2,672.83	3,885.01	7,773.81	9,822.63
Incremental Working Capital Requirement	893.27*	1,212.18	3,888.80	2,048.82
Average working capital requirement	2,226.19*	3,278.92	5,829.41	8,798.22
Revenue from operations	8,833.89	13,979.13	21,047.41	31,571.11
Average Working capital / Revenue (%)	25.20%*	23.46%	27.70%	27.87%

**For calculation with previous FY 2022-23 figures has been taken from Audited Financial Statements.*

The total IPO proceeds allocated for working capital ₹1400.00 Lakhs will primarily address a portion of these incremental requirements in FY 2026-27 with the balance funded through internal accruals/existing net worth as shown in the main table. This incremental approach underscores the phased funding needed to align with anticipated increases in inventories, receivables, and overall operational scale due to business growth.

Notes:

1) Revenue from Operations means the Revenue from Operations as appearing in the Restated Financial Information.

2) Total income includes revenue from operations and other income.

3) EBITDA refers to profit for the year, as adjusted to exclude (i) other income, (ii) depreciation and amortization expenses, (iii) finance costs and (iv) tax expenses.

4) EBITDA Margin refers to the percentage margin derived by dividing EBITDA by revenue from operations.

5) Restated profit after tax for the period / year.

6) PAT Margin (%) is calculated as Profit for the year/period as a percentage of Revenue from Operations.

7) Restated Net-worth of the company is calculated as share capital plus total reserves & surplus.

8) "ROE" means return on equity, which represents Profit after tax during the relevant year divided by Average Equity. Average equity is calculated as average of opening and closing balance of total equity (Shareholders' funds) for the year.

9) "ROCE" means return on capital employed, which represents EBIT (Earnings before Interest and Tax) during the relevant year as a percentage of capital employed. Capital employed is the total of all types of capital, other equity, total borrowings, total lease liabilities and deferred tax liabilities (net) less deferred tax assets (net) as of the end of the relevant year.

10) Net asset value per share calculated as Total net-worth divide by total no of outstanding shares after adjusting Bonus shares.

11) Debt- equity ratio is calculated by dividing total debt by total equity. Total debt represents long-term and short-term borrowings. Total equity is the sum of share capital and reserves & surplus.

8. Weighted Average Cost of Acquisition (WACA), Floor Price and Cap Price

a) ***Price per share of the Company (as adjusted for corporate actions, including split, bonus issuances) based on primary issuances of Equity Shares or convertible securities (excluding Equity Shares issued under the ESOP Plans and issuance of Equity Shares pursuant to a bonus issue) during the 18 months preceding the date of this Draft Red Herring Prospectus, where such issuance is equal to or more than 5% of the fully diluted paid-up share capital of the Company in a single transaction or multiple transactions combined together over a span of rolling 30 days ("Primary Issuances")***

There has been no issuance of Equity Shares during the 18 months preceding the date of this Draft Red Herring Prospectus (Except Bonus Issue of Shares), where such issuance is equal to or more than 5% of the fully diluted paid-up share capital of the Company (calculated based on the pre-issue capital before such transaction(s) and excluding employee stock options granted but not vested), in a single transaction or multiple transactions combined together over a span of 30 days.

Date of Allotment	No. of Equity Shares	Face value (₹)	Issue Price (₹)	Nature of Consideration	Nature of Allotment
Not applicable as our Company has not issued any shares during last 18 months, where such issuance is equal to or more that 5% of the fully diluted paid-up share capital of our Company

Attachment: Statement of Possible Tax Benefits available to the Company or its shareholders

Annexure to the Statement of Possible Tax Benefits

Outlined below are the possible Special tax benefits available to the Company and its shareholders under the Income Tax Act, 1961 presently forced in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in the Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have different interpretation on the benefits, which an investor can avail.

YOU SHOULD CONSULT YOUR OWN TAX ADVISORS CONCERNING THE INDIAN TAX IMPLICATIONS AND CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF EQUITY SHARES IN YOUR PARTICULAR SITUATION.

STATEMENT OF POSSIBLE DIRECT TAX BENEFITS AVAILABLE TO THE COMPANY AND SHAREHOLDERS OF THE COMPANY

A. Special Direct Tax benefits available to the company

1. Section 115BAA of the Act: Corporate Tax Rate as per new tax regime

(a) Section 115BAA, as inserted vide The Taxation Laws (Amendment) Act, 2019, provides that domestic company can opt for tax rate of 22% plus surcharge @ 10% and health and education cess @ 4% (effective tax rate of 25.168%) for the financial year 2019-20 and onwards, provided the total income of the company is computed without claiming certain specified deductions and specified brought forward losses and claiming depreciation determined in the prescribed manner.

(b) In case a company opts for section 115BAA, provisions of Minimum Alternate Tax (MAT) would not be applicable and earlier years' MAT credit will not be available for set - off.

(c) The option needs to be exercised on or before the due date of filing the income tax return. Option once exercised, cannot be subsequently withdrawn for the same or any other subsequent assessment year.

Further, if the conditions mentioned in section 115BAA are not satisfied in any financial year, the option exercised shall become invalid for assessment year in respect of such financial year and subsequent assessment years, and the other provisions of the Act shall apply as if the option under section 115BAA had not been exercised.

(d) The company has represented to us that they have currently not opted for tax regime under section 115BAA of the Act.

S V J K AND ASSOCIATES FRN:135182W AHMEDABAD CHARTERED ACCOUNTANTS

2. Section 80JJAA of the Act: Deduction in respect of employment of new employees

(a) In accordance with and subject to the conditions specified under Section 80JJAA of the Act, a company is entitled to a deduction of an amount equal to 30% of additional employee cost incurred in the course of business in a financial year, for 3 consecutive assessment' years including the assessment year relevant to the financial year in which such additional employment cost is incurred.

(b) Additional employee cost means the total emoluments paid or payable to additional employees employed in the financial year. The deduction under section 80JJAA would continue to be available to the company even where the company opts for the lower effective tax rate of 25.168% as per the provisions of section 115BAA of the Act (as discussed above).

(c) The company should be eligible to claim this deduction in case it incurs additional employee cost within the meaning of Explanation (i) to sub-section (2) of section 80JJAA of the Act and satisfies the conditions as mentioned in the said section.

3. Section 80M of the Act: Deduction in respect of inter-corporate dividends

(a) Dividend received by a domestic company from any other domestic company or a foreign company or a business trust shall be eligible for deduction of dividend income under section 80M of the Act while computing its total income for the relevant assessment year subject to the fulfilment of prescribed conditions. The amount of such deduction would be restricted to the amount of dividend distributed by the shareholder (domestic company) up to 1 month prior to the due date for furnishing the return of income under section 139(1) of the Act. Where the company has investments in Indian subsidiaries and other companies, if any, it can avail the above-mentioned benefit under Section 80M of the Act.

B. Special Tax Benefits available to the shareholders of the Company

The Shareholders of the Company are not entitled to any special tax benefits under the Act.

SECTION V – ABOUT THE COMPANY

INDUSTRY OVERVIEW

The information in this section has been extracted from reports publicly available documents and information, including, but not limited to, materials issued or commissioned by the Government of India and certain of its ministries, trade and industry-specific publications and other relevant third-party sources. Industry websites and publications generally state that the information contained therein has been obtained from sources believed to be reliable, but their accuracy and completeness are not guaranteed, and their reliability cannot be assured. While the Company has exercised reasonable care in relying on such government, industry, market and other relevant data in this document, it has not been independently verified by the Company or any of its advisors, nor the Book Running Lead Manager or any of its respective advisors, and should not be relied on as if it had been so verified.

GLOBAL ECONOMY OVERVIEW

Global Economic Outlook

Global growth is projected to be 3.0 percent in 2026 and 3.4 percent in 2027, down from the average of 3.5 percent observed in 2024–25 and broadly unchanged on a cumulative basis compared with the forecasts in the April 2026 World Economic Outlook (WEO). The modest slowdown reflects the effects of the war in the Middle East being partly offset by accelerated demand-driven momentum in the global technology cycle thanks to advances in artificial intelligence (AI) and its adoption. The impact varies widely based on countries' exposure to the war and position in the technology value chain. Energy exporters outside the conflict zone benefit from favorable terms of trade, whereas economies plugged into the technology-led upturn experience stronger activity even if they are energy importers. In contrast, activity weakens for energy importers with limited participation in the technology value chain, a group that includes many low-income countries. Global headline inflation is expected to increase from 4.1 percent in 2025 to 4.7 percent in 2026 before declining to 3.9 percent in 2027. Slightly revised upward from April, these projections indicate that the disinflation trend in place since the beginning of 2024 has stalled.

Risks to the outlook are more balanced than in April but still tilted to the downside. The possibility of renewed Middle East conflict looms large and could extend commodity price volatility, further threaten supply chains, raise prices, and weigh on financial conditions. Trade fragmentation could accelerate, possibly hurting output and increasing prices. A possible correction in technology-driven expectations adds to the downside risks, whereas eroded policy buffers can amplify those risks. Upside risks stem from a swifter-than-expected normalization in energy markets, stronger-than-expected technology investment, a revival of durable cooperation that lowers trade barriers, and structural reform that raises medium-term growth. Policy priorities are restoring price stability, supported by clear communication, central bank independence, and strong financial oversight, while rebuilding fiscal buffers and using fiscal tools sparingly through temporary, targeted support that preserves price signals. Structural reforms are needed to promote energy security, AI readiness, domestic rebalancing, and international
cooperation should be strengthened to relieve the strain of ongoing tensions.

Uneven Momentum Continues amid Opposing Shocks

Global economic activity and the outlook are being shaped by two major forces, pushing in opposite directions with asymmetric effects across countries. First is the negative supply shock induced by the war in the Middle

East. Second is the ongoing positive technology shock manifesting in accelerated momentum of the global technology cycle, in no small part driven by advances in and deployment of artificial intelligence (AI) tools. The global economy as a whole has, so far, weathered the shock from the war better than feared. Movements in and repercussions from the main channels of transmission—commodity prices, inflation expectations, and financial conditions—have been relatively limited.

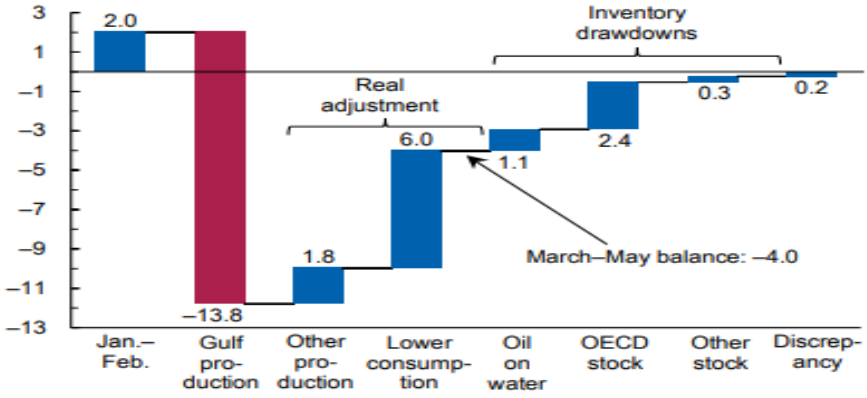

However, transmission is still in the early stages—commercial and strategic destocking have provided temporary relief from reduced energy flows, whereas forward-looking indicators such as supply chain pressure and manufacturing purchasing managers' indices point to softer momentum ahead—and some countries are experiencing more strain than others.

Commodity prices are still elevated, but ceasefires and a memorandum of understanding between Iran and the United States have cooled prices from their April 2026 peaks, in part by justifying adjustment in inventories to tackle what are perceived to be temporary shortfalls. Energy prices are roughly 25 percent higher than prewar levels. The oil futures curve is in backwardation—higher spot prices than futures—through the end of 2026, in line with supply disruptions and heightened geopolitical risk. Even so, the curve implies an average petroleum spot price index of $78 per barrel for 2026, compared with the $82 per barrel assumed under the reference forecast in the April 2026 World Economic Outlook (WEO) and $100 per barrel assumed under the April adverse scenario. The relatively muted increase in global oil prices reflects the fact that part of the decrease in oil flows through the Strait of Hormuz has been compensated for by a drawdown of inventories, containing the need for oil consumption and production to adjust through prices (Figure 1). That said, the global picture blurs glaring differences across countries: Even though oil markets are globally connected and generally track price benchmarks such as Brent, Dubai, and West Texas Intermediate, countries routinely pay different prices for their imports, reflecting oil type, geographic distance from the source, ability to secure long-term government-to-government deals, and sanctions, and pass-through to retail gasoline prices varies depending on taxes, subsidies, and market regulation. As a result of this plethora of factors, since the onset of the war, retail gasoline prices have risen by 30 percent in emerging Asia and by only 15 percent in Latin America. The market for natural gas tends to be less globally connected, reflected by liquefied natural gas prices climbing by about 50 percent in Asia and 25 percent in Europe since the war started, whereas US Henry Hub prices have increased by only about 10 percent.

Seasonal factors are embedded in the estimation of changes. Some data are preliminary and subject to change. OECD = Organisation for Economic Co-operation and Development.

Inflation and inflation expectations have risen, but there is little evidence of de-anchoring thus far. Driven by surging energy prices, global headline inflation rose for a third month in a row year over year in May, breaking the downward trend that has been in place since the beginning of 2024. Sequential headline inflation jumped by almost 4 percentage points between February and April (at a seasonally adjusted annualized rate), even as core inflation has remained relatively stable to date in most countries. The discrepancy between headline and core inflation has been wider in countries that had more slack and narrower in countries that put in place measures to cap fuel prices. Elevated energy prices and higher headline inflation readings have stoked inflation expectations for 2026 across countries, whereas expectations for 2027 have moved much less (Figure 2). The variation across countries is considerable, however, and in some cases household expectations have reacted more.

Global financial conditions have eased since their peaks in early April and continue to be accommodative by historical standards (Box 1). The easing trend has been accompanied by bouts of volatility, and markets are pricing in higher nominal policy rates in response to the reappearance of inflationary pressures. This, along with other factors, has raised long-term sovereign yields, again with variation across countries.

On the back of these developments, global growth in the first quarter of 2026 turned out to be stronger than expected, slowing from 3.8 percent in the fourth quarter of 2025 to 3.0 percent on a quarter-over-quarter annualized basis, instead of the 2.7 percent forecast in the April 2026 WEO. Fiscal support and robust domestic demand in some countries are a contributing factor as well.

Japan's economy grew by 1.8 percent, also beating expectations, with a strong contribution from net trade and exports and a pickup in private consumption. In Germany, GDP expanded by 1.4 percent, twice the April 2026 WEO projection of 0.7 percent, driven by net exports. In the United States, GDP increased at an annualized rate of 2.1 percent in the first quarter of 2026, slower than the 2.5 percent projected in April, but still a solid pace. Business investment in equipment and intellectual property products acted as a strong growth engine against a surge in imports and a softening in consumer spending and added to a rebound in government spending relative to the previous quarter, following the end of the federal government shutdown.

INDIAN ECONOMY OVERVIEW

India's macroeconomic outlook seemed relatively favorable at the start of 2026: Inflation had moderated to 2.1%, its lowest level in years; the Reserve Bank of India (RBI) was contemplating further monetary easing;

relief from higher US tariffs and supply-chain uncertainties had boosted investor confidence; and robust domestic demand and resilient growth prompted the RBI governor to describe India's economic position as a "Goldilocks" phase.

The geopolitical arena has since become more complicated, with the Middle East conflict serving as the latest reminder that geopolitical tensions pose a key risk to global economic stability.

The hostilities underscored the fragility of the RBI's macroeconomic assumptions, leading it to downgrade its growth projections and raise its inflation expectations, as higher energy prices and trade disruptions due to the blockade of the Strait of Hormuz trickle into the economy.

While the memorandum of understanding signed by the United States and Iran did reduce immediate concerns, structural vulnerabilities associated with an increasingly uncertain geopolitical environment persist. Despite entering the 2026 from a position of relative macroeconomic resilience, India now faces major global headwinds.

But crises often present opportunities:

1. The government will likely effect structural reforms to enhance India's economic resilience, both externally and domestically. India's recent free-trade agreements (FTAs) will form an important pillar of that strategy.

2. Beyond improving market access, these agreements will seek to expand India's export footprint in high-potential markets, diversify access to critical imports, and strengthen supply-chain resilience.

But these must be complemented by conducive industrial policy and an enabling ecosystem that can drive domestic value addition and progressively reduce India's import dependence, given many of India's strategic manufacturing sectors continue to rely heavily on imported inputs. The right industrial policy reforms can help the economy to integrate more effectively into global value chains while lowering its vulnerability to geopolitical and supply-chain disruptions.

This narrative is corroborated by the World Bank's June 2026 Global Economic Prospects report, which estimates India's GDP growth accelerated to approximately 7.6–7.7% in FY26 before moderating to 6.6% in FY27 (an upward revision from its January 2026 estimate) and rebounding to 7.2% in FY28, keeping India the fastest-growing major economy even as global growth slows. The IMF has similarly revised its FY2026-27 estimate upward to 6.5%, citing the reduction of incremental US tariffs on Indian goods from 50% to 10% as a key factor improving export prospects and offsetting the drag from elevated global energy prices. This tariff relief is a materially positive development relative to the position understood at the start of calendar 2026 and should be reflected as part of the base case for demand-facing industries, including infrastructure and electrical equipment.

Fiscal 2025 to 2026: A growth recap

In the last fiscal, real gross domestic product growth stood at 7.7% year over year (figure 1), beating the government's first advance estimate (7.4%).2 Growth remained robust in the final quarter (7.8%), indicating resilient domestic demand amid a challenging global backdrop. Real gross value added (GVA) expanded even faster (7.9%), pointing to strength on both demand and supply sides.

The expenditure side of GDP was largely driven by domestic demand.

- Private final consumption expenditure remained resilient, growing 7.1% in the last quarter of fiscal 2025 to 2026, with the Retailers Association of India reporting retail growth of 10% and 9% in March and February, respectively. For the entire fiscal, private final consumption expenditure grew 7.7%, supported by tax incentives, disposable income gains, and stronger purchasing power.
- Investment remained strong, with gross fixed capital formation rising 10.8% in the fourth quarter and 8.2% for the full year. Public capital expenditure did most of the heavy lifting here.
- Exports softened, rising by 3.7%, while imports were up 1.9% in the last quarter, as shipping disruptions due to the Middle East conflict weighed on economic activity in March. For the full year, exports were up 6.3% while imports rose 5.6%, helped by trade frontloading amid US tariff–driven uncertainty.

  India's merchandise trade deficit widened to US$776 billion, but services exports of US$421 billion and remittances worth US$143 billion helped cushion the overall external balance. India also retained its position as the world's eighth largest services exporter in 2025.

On the production side, growth was driven by strong performances in both manufacturing and services.

- Manufacturing showed strong performance through the year, with GVA rising 10.7% for the whole year, despite moderating to 7.3% in the fourth quarter. The index of industrial production pointed to strong growth in capital goods (11.8%) and infrastructure goods (9.2%).

- Services were the main growth pillar, with the tertiary sector growing the fastest—9.9% in the last quarter and 9.3% for the full year—driven by strong performances in trade, hotels, transport, and communication (11%).

- Growth moderated in the agriculture and allied activities sector, reaching 3.6% in the last quarter and 3% for the full fiscal. But this did not translate into weaker rural demand: Strong two-wheeler sales (up 13.2% year over year), tractor sales (up 19.2%), and growth in the fast-moving consumer goods sector (up 4.6% in rural areas versus 3.1% in urban areas) for fiscal 2025 to 2026 pointed to a healthy rural economy despite softer growth in agricultural GVA.

  Inflation fell to a multiyear low as food and fuel prices eased, aiding consumer spending. This also resulted in a subdued GDP deflator, keeping nominal GDP growth at 8.9%.

GLOBAL OVERVIEW OF WIRES AND CABLE INDUSTRY

WIRES AND CABLES MARKET SIZE:

A wire is defined as one electrical conductor, while a cable is defined as a group of individually insulated wires (conductors) encased together in sheathing. The sheathing is a non-conducting material with protective properties to shield the conducting part of the wire/cable. The global wires and cables market was valued at USD 247.6 billion in 2025 and is expected to grow at a compound annual growth rate (CAGR) of 6.51% from 2026 to 2034. Major factors driving this growth include rising urbanization and expanding infrastructure worldwide, which have significantly impacted power and energy demand across commercial, industrial, and residential sectors. Increased investments in upgrading power transmission and distribution systems, along with the development of smart grids, are also contributing to market growth. The implementation of smart grid technology has increased the need for grid interconnections, leading to heightened investments in new underground and submarine cables.

Independent estimates place the market in a comparable range: a separate industry review puts the global wire and cable market at approximately USD 245–255 billion in 2026, growing at roughly 6% per annum, with high-voltage power cables, optical fibre cables and EV-related cables outperforming the broader market average.

URL: https://www.npcelectric.com/news/global-wire-and-cable-industry-review-2025-and-market-outlook-2026.html

In 2025, India's exports of commodity group 8544, which includes insulated wires, cables, and optical fibre cables, totaled $2 billion, marking a 16.9% increase from 2024. This rise represented a $291 million boost over the previous year's $1.71 billion. Commodity group 8544 accounted for 0.465% of India's total exports, which amounted to $431 billion in 2025. This share increased by 0.086 percentage points from 0.379% in 2024 when total exports were $452 billion. Additionally, exports of commodity group 8544 made up 6.21% of India's total sales of the broader commodity group, which were valued at $32 billion in 2025. This share decreased by 0.246 percentage points from 6.46% in 2024 when total sales were $26 billion. The top export destinations for India's commodity group 8544 in 2025 included the USA (22%, $451 million), the UAE (9.48%, $190 million), the UK (8.32%, $167 million), Australia (4.66%, $93 million), Germany (2.42%, $48 million), France (2.42%, $48 million), Nepal (2.32%, $46 million), Japan (2.21%, $44 million), Spain (1.81%, $36 million), and Italy (1.75%, $35 million).

Renewable Energy Expansion to Create Lucrative Opportunity for Wires and Cables Market

The global shift towards renewable energy presents substantial opportunities for the wires and cables market. With governments and organizations striving to reduce carbon emissions and adopt sustainable energy sources, there is a growing need for specialized cables in wind, solar, and hydroelectric projects. These renewable installations require durable and efficient cables for energy transmission and distribution, opening new avenues for market players.

As nations strive to reduce carbon emissions and transition to sustainable energy sources, the demand for renewable energy installations, such as solar and wind farms, has surged. These installations require extensive cabling for power generation, transmission, and distribution, significantly boosting the Wires and Cables Market growth. The development of renewable energy in the power sector is the result of increased policy attention to renewable power. As of 2024, as many as 174 countries had targets for renewable power shares (including 37 countries with targets for 100% renewable electricity), 49 countries had targets for biofuels, and 46 countries had targets for renewable heat, with only 9 and 3 new targets for biofuels and renewable heat, respectively, being announced in 2024. In contrast, more than 25 new targets for renewable power shares and installed capacity were announced in 2025.

Globally, China continued to lead in new renewable energy investments in 2025-24, accounting for 55% of the total. Europe followed with 11%, and the United States with 10%. Africa and the Middle East combined represented only 1.6% of global investment in renewables, indicating the high concentration of this investment in just a few regions. For renewable heat, Europe leads in the modern bioheat market, with a 24% share in 2020, followed by the United States with 13%. 20 China accounted for 73% of the solar water heating market, followed by Türkiye, the United States, Germany and Brazil. Also, the integration of smart grid technologies necessitates advanced cabling solutions to enhance efficiency and reliability. The increasing investment in

renewable energy infrastructure propels the demand for high-performance, durable wires and cables, fostering wires and cables market growth.

Total energy investment worldwide is expected to exceed $3 trillion in 2025 for the first time, with some $2 trillion set to go toward clean technologies including renewables, electric vehicles, nuclear power, grids, storage, low-emissions fuels, efficiency improvements and heat pumps according to the latest edition of the IEA's annual World Energy Investment report. The remainder, slightly over $1 trillion, is going to coal, gas and oil. In 2025, combined investment in renewable power and grids overtook the amount spent on fossil fuels for the first time.

INDIA's ELECTRICAL EQUIPMENT INDUSTRY OVERVIEW

The India wires and cables market size was valued at USD 9.32 billion in 2024. The market is projected to grow from USD 10.01 billion in 2025 to USD 17.08 billion by 2032, exhibiting a CAGR of 7.94% during the forecast period.

India has observed a substantial rise in the demand for wires and cables due to the country's ambitious renewable energy goals and the growing awareness of the potential of renewable energy, such as solar and wind power. In solar power plants, photovoltaic (PV) projects require a high-quality cabling system that

connects all electrical components with minimal energy loss. The significant growth of solar panels in India is creating a considerable demand for solar cables. According to industry standards, a 1 MW solar project will use about 50 km of solar cable. Considering the Indian government's target of 500 GW of non-fossil energy capacity by 2030 (of which solar accounts for the largest share, with installed solar capacity already having crossed roughly 280 GW as of 2026), India's solar cable requirement alone is set to run into several million kilometers over the current decade.

The spread of the COVID-19 pandemic affected almost every country worldwide. Some countries were at the peak of infection and were urgently building surge capacity in their health systems. The impact of the COVID-19 pandemic on the wires and cables market growth was moderate, as it hampered consumption in many end-use industries. However, as countries emerge from the pandemic and industries recover, there are opportunities for the wire and cable market to rebound. Infrastructure development projects, investments in 5G networks, and the expansion of renewable energy sources could drive the demand for wires and cables in the coming years.

INDIA WIRES AND CABLES MARKET GROWTH FACTORS

Increasing Investments in Smart Grid Projects and Upgradation of Power Transmission and Distribution Systems to Drive Market Growth

Energy storage is crucial to achieving the country's goal of integrating a large share of renewable energy into the electricity system. Clean, reliable, and sustainable power systems increasingly need smart grids. India views smart grid technology as a strategic infrastructure investment that will fund its long-term economic prosperity and help achieve its carbon reduction goals. In India, the main application areas of the smart grid system are energy arbitrage by storing excess renewable energy to reduce constraints, 24/7 and seasonal storage, smart metering, energy accounting, and renewable energy (RA) outage management.

The government launched Revamped Distribution Sector Scheme (RDSS) with an outlay of 3.03 trillion for the next five years from 2021-22 to 2025-26. This scheme aims to provide financial support to Power Distribution Companies (DISCOMs) for the modernization and strengthening of distribution infrastructure, aiming to improve the quality, reliability and affordability of power supply

INDIA WIRES AND CABLES MARKET SEGMENTATION ANALYSIS

By Voltage Analysis

Low Voltage Cable Segment Dominated the Indian Market Owing to Rapid Development in Infrastructure

Based on voltage, the market is segmented into low voltage, medium voltage, high voltage, and extra high voltage. The low voltage segment held the largest India wires and cables market share in 2023 owing to its wide application in multiple sectors

As India continues to urbanize and develop its infrastructure, there is a significant demand for low-voltage cables to support residential and commercial construction projects. These cables are used for electrical wiring in buildings and infrastructure. The construction of new homes, office buildings, and commercial spaces often requires extensive low-voltage wiring for lighting, power outlets, HVAC systems, and other electrical components.

KEY INDUSTRY DEVELOPMENTS:

- **November 2023:** UKB Electronics, India's primary electrical and electronics manufacturing company, took approval from the Directorate General of Quality Assurance, Electronics Division. This approval includes the supply of specialized wires and cables tailored for signal and transmission equipment, as well as wiring harnesses and cable assemblies for army tanks and armored vehicles.
- **November 2023:** Ultracab, a leading Indian manufacturer and exporter of electric wires and cables with over 23 years of experience in the industry possesses cutting-edge technology and advanced machinery to produce high-quality products and has secured an order of approximately USD 5.70 million from Sterling & Wilson.
- **September 2023:** Polycab India unveiled a new logo and a brand identity that reflects its future business roadmap. After the launch of the new logo, Polycab India Ltd. shares rose by 2.38%. The rebrand signifies a commitment to innovation, technology, safety, and sustainability, supporting the Polycab brand purpose of "Connecting all for a better future. A visual update by Interbrand, incorporating sunrise-inspired colors and an innovative visual logo featuring the letter "O," an essential sound in the Polycab name. The colors red, blue, and purple represent leadership in the wires and cable industry, connecting customers through FMEG and preparing for the future. Polycab is diversifying its products to provide more electrical solutions for modern life, focusing on safety and durability.
- **September 2023:** RR Kabel shared plans to raise USD 236 million through an IPO (Initial Public Offering). RR Kabel competes with Polycab India and Finolex Cables, whose shares rose more than 100% in 2023 on government infrastructure spending and a real estate boom.
- **April 2023:** Finolex Cables shared plans to expand production capacity at its Pune, Goa, and Roorkee plants for its entire product portfolio, including telecom cables, solar cables, and cables for the automotive and construction industries. The company also announced plans to expand its optical line. In the FMEG segment, the company is expanding its range and has entered the segment of small household appliances with steam and dry irons. Finolex also enters the category of smart switches and smart door locks.

- **2025:** Adani Enterprises, through subsidiary Kutch Copper Limited, formed Praneetha Ecocables, a joint venture with Praneetha Ventures, to manufacture cables and wires.
- **FY2025–FY26:** Polycab India expanded its organised-market share to approximately 27%, up from 25–26% in FY24, aided by continued capex-led capacity growth.

INDIA WIRES AND CABLES MARKET — COMPETITIVE LANDSCAPE

The Indian cables and wires industry remains fragmented, though the organized segment has been steadily gaining share from unorganized players — from roughly 70% in FY22 to an estimated 74–80% of the market by FY26, aided by tightening BIS quality-control enforcement (see Regulatory Framework below) and rising quality consciousness among institutional buyers. Within the organized segment, no single player currently holds more than roughly a quarter of the market, reflecting continued headroom for scaled and regional players alike. Illustrative organized-market shares as of 2025–26 include:

- Polycab India — the largest listed player, with an organised-market share estimated in the range of ~25–27%, built on an extensive dealer/distribution network and continued capex-led capacity additions;
- KEI Industries — the second-largest listed player, with an estimated ~9% share of the overall market (~13% of the organised segment), with a particular strength in EHV/turnkey project cables;
- Havells India, RR Kabel and Finolex Cables — each holding high-single-digit to low-double-digit shares of the organised market, competing on brand, distribution reach and specific product-segment strength (e.g., house wires, FMEG cross-sell).

Competitive intensity is rising from new, well-capitalised entrants outside the traditional peer set: Adani Enterprises (through its Kutch Copper subsidiary) has formed a joint venture, Praneetha Ecocables, to enter cable manufacturing, while UltraTech Cement (Aditya Birla Group) has announced a ₹1,800 crore investment in a greenfield wires-and-cables plant at Bharuch, Gujarat, targeted for commissioning by December 2026. These entries reflect the sector's attractive growth and margin profile but are a relevant competitive risk factor for existing and prospective issuers in the space.

REGULATORY FRAMEWORK GOVERNING THE WIRES AND CABLES INDUSTRY

Cables sold in India are subject to the Cables (Quality Control) Order, 2020 issued by the Department for Promotion of Industry and Internal Trade (DPIIT), which mandates that specified cable products conform to applicable Indian Standards and bear the BIS Standard Mark under Scheme-I of the BIS Conformity Assessment Regulations, 2018. This mandatory-certification regime has been a structural driver of the organized sector's market-share gains, as it raises compliance costs and lead times for smaller and unorganized manufacturers.

The regulatory perimeter has continued to widen through 2025–2026: BIS has notified Quality Control Order amendments extending mandatory certification to adjacent electrical-accessory categories (for example, cable trunking and ducting systems, effective January 2026), and the broader Machinery and Electrical Equipment Safety (Omnibus Technical Regulations) Order, 2024 ("BIS Scheme X"), with compliance timelines extended to September 2026, is expected to bring further categories of electrical equipment under mandatory BIS certification. Separately, government production-linked-incentive (PLI) schemes for specialty steel and related input categories have supported capacity investment among upstream wire-rod and conductor-input suppliers, which is a relevant tailwind for the broader wires and cables value chain.

The Global Market of PICC

The global Paper Insulated Copper Conductor (PICC) market is projected to reach $10.61 billion by 2025, demonstrating a robust Compound Annual Growth Rate (CAGR) of 13.01% from 2025 to 2033. This expansion is primarily fueled by the increasing demand for power transformers and electrical equipment across diverse industrial sectors, driven by grid modernization, infrastructure development, and the growing adoption of renewable energy. The round PICC segment currently dominates the market due to its extensive use in power transformers, while the rectangular segment is poised for significant growth, particularly in high-voltage applications. Key applications include oil-filled power and distribution transformers, and other essential electrical equipment. The Asia-Pacific region, led by China and India, exhibits the strongest growth potential due to rapid industrialization and infrastructure expansion. North America and Europe remain key markets, though their growth rates are anticipated to trail those of Asia-Pacific. The competitive landscape features established global manufacturers and emerging regional players, with strategic innovation and partnerships driving market share.

Emerging Trends in Paper Insulated Copper Conductors (PICC)

Several emerging trends are shaping the future of the PICC market:

- Development of Advanced Paper Insulation: Research into novel paper treatments and composite materials is focused on enhancing dielectric strength, moisture resistance, and fire retardancy for even more demanding applications.
- Smart and High-Performance Transformers: The integration of PICC in transformers designed for smart grids, capable of handling dynamic load changes and digital monitoring, is a growing trend.

- Focus on Eco-Friendly Production: Manufacturers are increasingly exploring sustainable manufacturing practices, including reducing waste, optimizing energy consumption, and investigating biodegradable insulation options where technically feasible.
- Nanotechnology Integration: The potential application of nanomaterials in paper insulation to further improve electrical and thermal properties is an area of active research.
- Customized Solutions for Niche Applications: Growing demand for highly specialized PICC tailored to unique operational requirements in sectors like defense or specialized industrial machinery.

Recent developments in Paper Insulated Copper Conductors (PICC)

- **2023:** APAR announced significant capacity expansion for its PICC production to meet growing domestic and international demand
- **2023:** Precision Wires India invested in advanced automation for its PICC manufacturing lines, aiming to improve product consistency and production efficiency.
- **2024:** Sorgen showcased new formulations for paper insulation with enhanced dielectric properties at a major electrical industry exhibition.
- **2023:** Vidya Wire launched a new range of rectangular PICC designed for higher current density applications in advanced transformers.
- **2024:** Madhav Copper reported a notable increase in export orders for its PICC products, particularly to Southeast Asian markets.

Government Initiatives

The pressure on India's transmission infrastructure has rarely been this visible. Rising electricity demand and the accelerating integration of renewable energy are only part of the reason. The emergence of large renewable generation clusters is adding a new layer of complexity to an already stretched system. Expanding the grid, however, is becoming progressively complex as acquiring new transmission corridors faces growing Right-of-Way (RoW) constraints, from land acquisition challenges and environmental clearances to urban congestion and competing land use. In this context, utilities are increasingly exploring reconductoring of existing transmission lines as a practical strategy to augment capacity within established corridors, upgrading ageing conductors with higher-performance alternatives to increase power transfer without building entirely new lines.

Grid Expansion Has Its Limits

The scale of the challenge is significant. India already operates one of the world's largest interconnected transmission networks, spanning hundreds of thousands of circuit kilometres across multiple voltage levels. According to the Ministry of Power and Central Electricity Authority data, India's national grid now spans over 500,000 circuit kilometres of transmission lines (220 kV and above), with transformation capacity exceeding 1,400 GVA, making it one of the world's largest synchronous power systems. At the same time, the country's energy transition targets, including 500 GW of non-fossil capacity by 2030, are expected to significantly increase the need for transmission infrastructure capable of evacuating power from renewable generation clusters to load centres.

Meeting this demand will require substantial additions to the transmission system over the coming years. The National Electricity Plan (Transmission) 2022–32 estimates that over 114,000 circuit kilometres of new transmission lines will be required by 2032 to support demand growth, particularly to connect emerging renewable energy hubs in regions such as Rajasthan, Gujarat, and southern India.

The Conductor Evolves

The growing interest in reconductoring is closely tied to advances in transmission conductor technology. Conventional aluminium conductor steel reinforced (ACSR) conductors, long used in overhead transmission lines, were designed to operate within specific thermal and mechanical limits. As power flows increase, these conductors can experience higher thermal expansion and sag, constraining the amount of current that existing lines can safely carry. Newer conductor technologies are addressing these limitations, enabling significant increases in capacity without requiring changes to tower structures or transmission corridors.

High-temperature low-sag (HTLS) conductors represent one of the most widely discussed solutions in this context. Designed to operate at higher temperatures while maintaining mechanical stability, HTLS conductors allow transmission lines to carry greater current without excessive sag. Various design approaches, including advanced aluminium alloys, composite or carbon fibre cores, and specialised strand geometries, are being developed to enhance ampacity, reduce resistance losses, and improve overall performance under demanding operating conditions.

Composite-core designs such as AECC combine lightweight carbon fibre cores with aluminium strands, allowing conductors to operate at higher temperatures while maintaining lower sag characteristics. This enables utilities to increase power transfer capability without requiring major structural modifications to transmission lines.

Indian manufacturers have moved well beyond conventional conductor production. APAR Industries describes itself as the largest one-stop solution provider for the design, manufacturing, upgrading, and testing of conductors globally, and has executed over 165 turnkey reconductoring projects across India. The company holds around 50 per cent market share in domestic reconductoring projects, a figure that reflects both the scale of its manufacturing operations and the depth of its project execution capability. In FY2023-24, APAR expanded its manufacturing capacity for alloys, high-efficiency, and HTLS conductors from approximately 3,120 kilometres per month to 5,722 kilometres per month, a scale-up that reflects deliberate preparation for growing demand.

As domestic manufacturing capability matures alongside growing project demand, India is increasingly positioned not only as a market for reconductoring solutions but as a credible source of the advanced conductor technology that makes them possible.

OVERVIEW

Our Company was originally established as a partnership firm in the year 2012 under the name **M/s. Johnson Cables**. Over the years, the partnership firm underwent various reconstitutions and was subsequently converted into a private limited company as **Johnsoncab Electricals Private Limited** on November 12, 2020. Thereafter, the Company was converted into a public limited company and name of the Company was changed from **Johnsoncab Electricals Private Limited** to **Johnsoncab Electricals Limited** on December 05, 2025. The Corporate Identification Number (CIN) of our Company is U31900GJ2020PLC118226.

Johnsoncab Electricals Limited (JEL) is engaged in the business of manufacturing of low voltage (up to 1.1 kV) wires and cables deployed across power infrastructure including transmission and distribution, renewable energy integration, railways and allied industrial application. Our product portfolio includes Control Cables, Power cables, Industrial Single and Multicore Control Cables, Housing/ Building Wires and Special-purpose Power Cables including Welding Cable, Solar / Photovoltaic Cables, Submersible Flat Cables. We manufacture and sell our products under the name "JOHNSON CABLES". Our company holds ISO and BIS certifications, ensuring the quality standards of our products.

Our Company operates two manufacturing units (Unit I and Unit II) located in Mehsana, Gujarat. As of Fiscal 2026, the combined annual installed manufacturing capacity of both units is 79,950 KMS, as certified by the Independent Chartered Engineer, Raj Techno Essentials, vide its certificate dated June 1, 2026. Our manufacturing facilities are equipped with machinery for wire drawing, annealing, bunching, insulation, extrusion, testing and packaging, enabling us to manufacture wires and cables across multiple specifications. Over the years, we have upgraded our manufacturing facilities through the installation of automatic and semi-automatic machinery and equipment to enhance our production capabilities.

Our Company caters to both private sector customers and government entities. We secure orders directly through participation in tenders, vendor approval processes. Our revenues from operations for Fiscals 2026, 2025 and 2024 were ₹21,047.41 lakhs, ₹13,979.13 lakhs and ₹8,833.89 lakhs, respectively. Our EBITDA for Fiscals 2026, 2025 and 2024 was ₹2406.32 lakhs, ₹1213.50 lakhs, ₹ 542.09 lakhs respectively. Our profit after tax for Fiscals 2026, 2025 and 2024 was ₹ 1341.95 lakhs, ₹546.44 lakhs and ₹252.30 lakhs, respectively.

For further details, please refer to the section titled "Financial Information" on page no. 274 of this Draft Red Herring Prospectus.

Notes:

1) *Revenue from Operations means the Revenue from Operations as appearing in the Restated Financial Information.*
2) *Total income includes revenue from operations and other income.*
3) *EBITDA refers to profit for the year, as adjusted to exclude (i) other income, (ii) depreciation and amortization expenses, (iii) finance costs and (iv) tax expenses.*
4) *EBITDA Margin refers to the percentage margin derived by dividing EBITDA by revenue from operations.*
5) *Restated profit after tax for the period / year.*
6) *PAT Margin (%) is calculated as Profit for the year/period as a percentage of Revenue from Operations.*
7) *Restated Net-worth of the company is calculated as share capital plus total reserves & surplus.*
8) *"ROE" means return on equity, which represents Profit after tax during the relevant year divided by Average Equity. Average equity is calculated as average of opening and closing balance of total equity (Shareholders' funds) for the year.*
9) *"ROCE" means return on capital employed, which represents EBIT (Earnings before Interest and Tax) during the relevant year as a percentage of capital employed. Capital employed is the total of all types of capital, other equity, total borrowings, total lease liabilities and deferred tax liabilities (net) less deferred tax assets (net) as of the end of the relevant year.*
10) *Net asset value per share calculated as Total net-worth divide by total no of outstanding shares after adjusting Bonus shares.*

11) *Debt- equity ratio is calculated by dividing total debt by total equity. Total debt represents long-term and short-term borrowings including unsecured loan from Directors and Related Parties. Total equity is the sum of share capital and reserves & surplus.*

Explanation for KPI metrics:

Revenue from Operations	Revenue from Operations is used by our management to track the revenue profile of the business and in turn helps to assess the overall financial performance of our Company and volume of our business
Total Income	Total Income is used by our management to obtain a comprehensive view of all income including revenue from operations and other income.
EBITDA	EBITDA provides information regarding the operational efficiency of the business
EBITDA Margin (%)	EBITDA Margin (%) is an indicator of the operational profitability and financial performance of our business
PAT	Profit after tax provides information regarding the overall profitability of the business.
PAT Margin (%)	PAT Margin (%) is an indicator of the overall profitability and financial performance of our business.
RoE (%)	RoE provides how efficiently our Company generates profits from shareholders' funds.
RoCE (%)	RoCE provides how efficiently our Company generates earnings from the capital employed in the business.
NAV (Net Asset Value)	Total net-worth divide by total no of outstanding shares. It is also termed as Book Value per share
Debt-Equity Ratio (in times)	Debt- equity ratio is a gearing ratio which compares shareholder's equity to company debt to assess our company's amount of leverage and financial stability.

PRODUCT PORTFOLIO

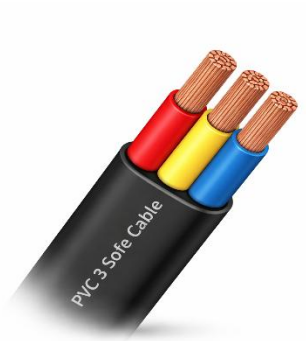

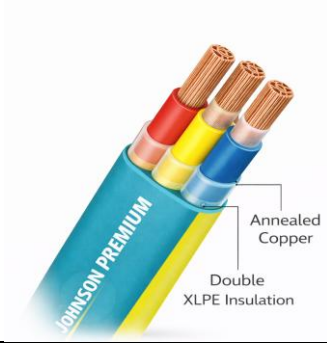

We manufacture low voltage wires and cables ("LV Cables"), which are designed to operate at or below voltages up to 1.1 kV and have multiple end uses including domestic, commercial, infrastructure and industrial applications. Cables are manufactured with high-conductivity copper or aluminium conductors, insulated with PVC or XLPE, and provided with protective sheathing for mechanical and environmental safety.

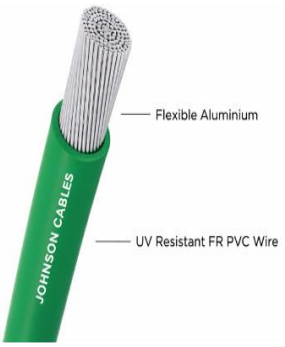

The following table provides a detailed description of our products.

Sr. No	Products		Description
A. HOUSE/BUILDING WIRES			
1.	Heat Resistance Flame Retardant (HRFR) Wire		*HRFR (Heat Resistance Flame Retardant) wire* is a PVC insulated single-core flexible copper cable used for electrical wiring in buildings. The specially formulated HRFR insulation provides higher heat resistance and prevents flame propagation, improving electrical safety during overload or fire conditions. ▪ **Conductor Material:** 99.97% pure electrolytic copper ▪ **Insulation:** HRFR PVC compound ▪ **Voltage Rating:** Up to 1100 V ▪ **Standards:** IS 694:2010 compliant **Application:** Residential and commercial complexes, high-rise building, hotels, hospitals, school, colleges etc.

2.	Flame Retardant Low Smoke Halogen (FR-LSH)		*FRLSH Wire* is insulated with a specially formulated compound that restricts flame spread and produces very low smoke with minimal toxic gases during fire conditions. This improves visibility and safety during emergencies, making it suitable for buildings where fire protection is critical. ▪ **Conductor Material:** 99.97% pure electrolytic copper ▪ **Insulation:** Flame Retardant Low Smoke Halogen (FRLSH) compound ▪ **Voltage Rating:** Up to 1100 V ▪ **Standards:** IS 694:2010 compliant **Application:** Hospitals, schools, theatres, and public buildings.
3.	Johnson HRFR Gold House Wire		*Johnson HRFR Gold wire* uses Type-C PVC insulation that offers higher thermal stability, better insulation resistance, and improved current carrying capacity compared to standard PVC wires, ensuring longer service life. ▪ **Conductor Material:** Copper (99.97% pure electrolytic grade) ▪ **Insulation:** 85°C Type-C PVC compound ▪ **Voltage Rating:** Up to 1100 V ▪ **Standard:** IS 694:2010 compliant ▪ **Application:** Hospitals, schools, and public buildings.
B. INDUSTRIAL CABLES			
LT POWER AND CONTROL CABLE			
4.	LT Power and Control Cable (1 core copper to Multicore copper cables)		*LT Power & Control Cables* are used for power distribution and control applications in industrial and infrastructure sectors. These cables are manufactured with XLPE insulation for superior thermal performance and long service life. Available in 1 Core to 5 Core and multicore configurations, they provide flexibility for both high current and compact wiring systems. ▪ **Conductor Material:** Aluminium / Copper (Solid or Stranded) ▪ **Insulation**: XLPE Compound ▪ **Sheath:** PVC Type ST-2 (FR / FRLS optional) ▪ **Voltage Rating:** Up to 1100 V **Application :** Power distribution in industrial installations, power plants, underground/duct systems, and control panels
SINGLE CORE INDUSTRIAL CONTROL CABLES			

5.	Single Core PVC Industrial Cable		*Single Core PVC Industrial Cables* are flexible copper cables designed for power supply and electrical wiring in industrial installations. The FR/HR PVC insulation provides reliable electrical performance and protection against heat and mechanical stress in industrial environments. ▪ **Conductor:** 99.97% pure electrolytic copper ▪ **Insulation:** FR PVC / HR PVC compound/ 85°C Type-C HR compound ▪ **Voltage Rating:** Up to 1100 V ▪ **Standard:** IS 694:2010 compliant ▪ **Size Range:** 10 sq mm² – 240 sq mm² **Application:** Control panel wiring, switchgear connections and industrial machinery.
6.	Single Core FR PVC Panel Wire		*Single Core FR PVC Panel Wires* are flexible copper wires used for internal wiring of control panels, switchboards, and electrical equipment. Their flexible conductor allows easy routing in compact panel layouts, while the FR PVC insulation provides good insulation resistance and helps prevent flame spread, ensuring safe panel operation. ▪ **Conductor Material:** 99.97% pure electrolytic copper ▪ **Insulation:** FR PVC compound ▪ **Size Range:** 0.5 sq.mm² – 240 sq.mm² ▪ **Voltage Rating:** Up to 1100 V ▪ **Standard:** IS 694:2010 compliant **Application:** Internal wiring of electrical control panels, Appliances Fitting, relay panels, and any other panel application.
MULTICORE INDUSTRIAL CONTROL CABLES			
7.	PVC Round Multicore Cables (2 – 5 Core)		*PVC Round Multicore Cables* consist of multiple insulated copper conductors enclosed within a protective PVC sheath. They are designed for control wiring and signal transmission in machinery and automation systems, allowing organized multi-connection wiring. ▪ **Core Configuration:** 2 to 5 cores ▪ **Conductor Material:** 99.97% pure electrolytic copper ▪ **Insulation:** PVC insulation ▪ **Outer Sheath:** PVC sheath resistant to oil and moisture ▪ **Voltage Rating:** Up to 1100 V ▪ **Standard:** IS 694:2010 compliant ▪ **Size Range:** 0.5 sq.mm – 50 sq.mm

			Application: Used for control wiring in electrical panels, machinery, and automation systems, where multiple signal or control connections are required within a single cable.
C. SUBMERSIBLE FLAT CABLES			
8.	PVC 3 Core Regular Flat Cable	 PVC 3 Core Regular Flat Cable	*PVC 3 Core Flat Cables* are submersible pump cables with three flexible copper conductors arranged in flat configuration. The PVC insulation and sheath provide good resistance against water, oil, grease, and abrasion, ensuring reliable performance in borewell installations. ▪ **Core:** 3 Core flat configuration ▪ **Conductor Material:** 99.97% pure electrolytic copper ▪ **Insulation:** PVC insulation and sheath ▪ **Outer Sheath:** Abrasion-resistant PVC sheath (water, oil, grease resistant) ▪ **Voltage Rating:** Up to 1100 V ▪ **Standard:** IS 694:2010 compliant ▪ **Size Range:** 1.0 sq.mm – 70 sq.mm **Application:** Submersible pumps in borewells, agricultural irrigation systems, water supply systems, and other underwater pump installations.
9.	Johnson Gold – XLPE Flat Cables		*Johnson Gold XLPE Flat Cables* are double-insulated submersible pump cables with flexible copper conductors insulated with XLPE and protected by an HR PVC sheath. They offer higher durability, better temperature resistance, and improved current carrying capacity compared to standard PVC flat cables, ensuring reliable pump operation. ▪ **Conductor Material:** 99.97% pure electrolytic copper ▪ **Insulation:** XLPE insulation ▪ **Outer Sheath:** ST-2 HR PVC ▪ **Voltage Rating:** Up to 1100 V ▪ **Size Range:** 1.5 mm^2 to 10 mm^2 ▪ **Standard:** IS 694:2010 compliant **Application:** Used for power connection to submersible pump motors in borewells and agricultural irrigation systems, especially where higher temperature resistance and longer cable life are required.
10.	Johnson Premium — TPR Sheathed Cable		*Johnson Premium cables* feature double XLPE insulation with a TPR (Thermoplastic Rubber) outer sheath, providing water-tight protection and high resistance to UV, ozone, and weathering. These cables are designed for long-term performance in harsh pump installation environments. ▪ **Conductor Material:** 99.97% pure electrolytic copper ▪ **Insulation:** Double XLPE insulation (UV and ozone resistant)

			▪ **Outer Sheath:** TPR (Thermoplastic Rubber) sheath ▪ **Voltage Rating:** Up to 1100 V ▪ **Size Range:** 1.5 mm² to 10 mm² ▪ **Standard:** IS 694:2010 compliant **Application:** Used for power connection to submersible pump motors in borewells and irrigation systems operating in harsh environmental conditions.
D. SOLAR CABLES			
11.	Photovoltaic DC Solar Cables	 DC Solar Cables	*Photovoltaic DC Solar Cables* are specialized cables used for transmitting direct current in solar photovoltaic systems. With tinned copper conductors and XLPE insulation, they provide excellent resistance to UV radiation, ozone, and outdoor weather conditions. ▪ **Conductor Material:** Tinned copper ▪ **Insulation:** XLPE (cross-linked polyethylene) ▪ **Standard:** EN 50618 / TUV PV1-F ▪ **Size Range**: 2.5 sq.mm² – 6 sq.mm² **Application:** Used for DC power transmission between solar panels, combiner boxes, and inverters in solar photovoltaic systems.
12.	Solar Earthing Cables	 ALUMINIUM SOLAR EARTHING WIRE	*Solar Earthling Cables* are aluminium conductor cables with UV-resistant FR PVC insulation, designed for grounding in solar power installations. They safely carry fault current to earth and help protect solar panels and electrical equipment. ▪ **Conductor Material:** Aluminium ▪ **Insulation:** UV-resistant FR PVC ▪ **Size Range:** 6 sq mm², 16 sq mm², 25 sq mm² **Application:** Used for earthing of solar panels, mounting structures, and solar electrical equipment to ensure electrical safety.
E. WELDING CABLES			
13.	Single Sheathed Welding Cables	 Single Sheathed Welding Cable	*Single Sheathed Welding Cables* are highly flexible copper cables with NBR rubber sheath, designed to withstand oil, abrasion, and mechanical stress during welding operations. ▪ **Conductor Material:** Annealed flexible copper ▪ **Outer Sheath:** NBR (Nitrile Butadiene Rubber) ▪ **Voltage Rating:** Up to 2500 V ▪ **Size Range:** 10 mm² - 400 mm² ▪ **Standard:** IS 694:2010 compliant ▪ **REF. Standard:** IEC 60228 ▪ **Type:** Single sheathed welding cable

			Application: Used for power connection in welding machines and Hand welding machine.
14.	Double Sheathed	 Double Sheathed Welding Cable	*Double Sheathed Welding Cables* provide additional mechanical protection with two layers of Nitrile Butadiene Rubber (NBR) sheath, making them suitable for heavy-duty welding environments. ▪ **Conductor Material:** Annealed flexible copper ▪ **Outer Sheath:** NBR sheath ▪ **Voltage Rating:** Up to 2500 V ▪ **Size Range:** 10 mm^2 - 185 mm^2 ▪ **Standard:** IS 694:2010 compliant ▪ **REF. Standard:** IEC 60228 ▪ **Type:** Double sheathed welding cable **Applications**: Used for power connection in welding machines and Hand welding machine.

INDUSTRIES WHICH WE CATER TO:

Our products are primarily focusing on industrial and commercial segments which includes infrastructure and industrial use. Our products have application for multiple sectors, including Power (generation, transmission and distribution), Renewable Energy, Railways, Industrial operations, Building and Housing, Agriculture/farm irrigation, solar energy projects, instrumentation.

Products	Application of our product	End-Use Industry/Sector
Power cables	**Low-voltage (LV)** Power cables have industrial use. Our Power cables are used in transmission and distribution of electricity. Power cables are used at each stage of power sector ecosystem, right from Power Generation, Transmission & Distribution to end user i.e. Power consumption.	• Power Generation, Transmission and Distribution • Renewable Energy • Railway Infrastructure • Construction
Industrial Singlecore and Multicore Control Cables	Industrial single and multicore control cables are used for interconnecting electrical equipment and control systems in industries.	• Manufacturing • Oil & Gas • Chemical • Infrastructure
Housing/ Building Wires	Housing wires are catered to residential requirements. They are designed to manage low-voltage applications and ensure reliable power distribution for lighting, appliances, and other utilities.	• Construction (Residential and Commercial)
Welding Cable	Welding cables are flexible, heavy-duty cables designed to carry high current from welding machines to welding tools. They are resistant to heat, oil, abrasion, and mechanical stress.	• Manufacturing & Fabrication
Solar / Photovoltaic Cables	Solar cables are specially designed to connect solar panels and other components in photovoltaic systems. They offer resistance to UV radiation, weather conditions, and temperature variations.	• Renewable Energy (Solar Power Infrastructure)
Submersible Flat Cables	Submersible flat cables are specially designed for use with submersible pumps in deep wells and borewells. They are resistant to water, abrasion, and harsh environmental conditions.	• Agriculture/ Farming & Irrigation (Submersible pumps)

**Revenue generated from sales made to distributors has been disclosed under the category "Distributors". The Company does not maintain records of the ultimate end-use industry to which products sold to distributors are further supplied. Accordingly, revenue from distributors has not been allocated to any specific industry and has been presented separately under the category "Distributors".*

***Others include revenue from sale of Scrap and raw materials as such sales are not attributable to any specific end-use industry.*

MANUFACTURING PROCESS

We manufacture low voltage wires and cables ("LV Cables"), which are designed to operate at or below voltages up to 1.1 KV. Our manufacturing process involves several stages which include drawing of copper or aluminium Rods, Annealing, Stranding, insulated with PVC or XLPE, Armouring, Testing and Packaging.

Below is indicative step-by-step breakdown of the manufacturing process:

Description of Manufacturing of Process:

1. **Procurement of Raw Materials**

The primary raw materials used in the manufacturing process include high-conductivity aluminium or copper wire rods, PVC compounds, XLPE compounds, master batches and other ancillary materials. Raw materials are procured from vendors based on predefined technical specifications and quality standards.

Upon receipt, all raw materials are subjected to **incoming quality inspection,** including dimensional checks, resistance tests, tensile strength and thermal stability tests, as applicable. Only materials that meet the prescribed quality standards are released for production.

2. **Conductor Manufacturing**

Conductor manufacturing includes process from wire drawing till stranding. Aluminium wire rods and/or copper wires are processed to manufacture conductors as per the required size and configuration. The process includes

- **Wire Drawing:** The rods are drawn through a series of carbide or diamond dies on high-speed wire drawing machines to achieve the required wire dimensions. During the process, the material undergoes elongation and diameter reduction, leading to strain hardening and improved tensile strength. Lubrication and cooling systems are used to minimize friction, prevent overheating, and maintain surface quality. The finished wire is then wound onto spools and prepared for further processing.

- **Annealing and tensile strength testing:** The wire drawing process increases hardness and reduces ductility of the material. For applications requiring flexibility, such as cables, the wires are subjected to annealing through controlled heat treatment in continuous furnaces, followed by gradual cooling. This process restores ductility, enhances elongation properties, and improves suitability for further processing. In contrast, where strength is critical, the wires are generally retained in a hard-drawn condition and are not annealed. Tensile strength testing is carried out to assess the mechanical properties of the wires, including strength and elongation, to ensure compliance with required specifications.

- **Stranding**: The prepared wires are then stranded together to form the conductor. Stranding involves twisting multiple wires around a central wire in a concentric lay pattern. This process not only provides the necessary cross-sectional area for current carrying but also improves the mechanical properties, ensuring flexibility, higher tensile strength, and resistance to vibration.

- **Surface Treatment when required:** Depending on the type of conductor and its intended use, surface treatments may be applied. Tin plating is applied to conductors used in photovoltaic (PV) cables to protect them from corrosion, moisture, and oxidation. This helps improve durability, maintain consistent performance, and increase the service life of the cables, especially in outdoor conditions.

The conductors are manufactured in accordance with relevant Indian Standards and internal quality control norms.

3. **Insulation Process**

Conductors are then pass through the insulation process. Depending on the product specification, PVC or XLPE insulation compounds are used.

The insulation process includes:

- Mixing of insulation compound and master batch.
- Extrusion of insulation over the conductor surface.
- Online spark testing at high voltage to detect insulation defects
- Curing of insulated cores in case of XLPE insulated cables
- High voltage testing and visual inspection

Insulation acts as a protective barrier, preventing leakage current and providing dielectric strength. Only insulated cores that successfully pass all quality checks are forwarded to the next stage of production.

4. **Laying up**:

Laying-up involves assembling insulated conductors in a specified configuration for multi-core cables, using fillers and separators to maintain uniform shape and stability. The cores are identified through color coding or marking for ease of installation.

5. **Inner sheath extrusion:**

The laid-up assembly is then bound with an inner sheath, typically PVC and other compound, which provides mechanical protection and serves as a bedding layer for subsequent armouring. Stringent quality checks ensure proper sheath thickness, adhesion, and absence of defects.

6. **Armouring:**

Armouring is applied to enhance the mechanical strength and durability of wires and cables, using aluminium wire wound helically over the inner sheath as per design requirements. Post application, visual and dimensional inspections are carried out to ensure compliance with specifications, followed by testing to verify that insulation and cable geometry remain unaffected. Non-conforming cables are segregated for rework.

7. **Outer Sheathing Process:**

For cables requiring outer sheathing, insulated cores are processed through PVC sheathing extrusion using appropriate sheathing grade compounds. The outer sheath is the final protective layer applied over the armouring of a cable. It is typically made of PVC, LSZH (low smoke zero halogen), FRLS (flame retardant low smoke) or FRLSH (flame retardant low smoke & halogen) compounds, and provides resistance against moisture, chemicals, UV rays, mechanical stress, and environmental conditions.

The sheathing process includes:

- Thermal stability testing of PVC sheathing compound
- Extrusion of outer sheath
- Cooling and surface finish inspection
- Printing and identification marking on the cables

This process ensures mechanical protection and durability of the finished cables. FRLS/FRLSH sheaths are preferred for enhanced fire safety, as they minimize toxic gas emission and smoke in case of fire.

8. **Testing and Quality Control:**

Finished cables are subjected to **routine and type tests**, as applicable, in accordance with relevant Indian Standards and customer specifications. These tests include:

- Dimensional verification
- Conductor resistance test
- Insulation resistance test
- High voltage test
- Tensile strength and elongation test
- Thermal stability test

Cables that fail to meet the required standards are rejected or scrapped as per internal quality procedures.

9. **Packing and Dispatch:**

Cables that successfully pass all quality checks are packed in wooden drums or coils, as applicable. Each package is properly labelled to ensure traceability. The finished goods are then dispatched to customers in accordance with dispatch schedules and contractual terms.

- Quality Assurance in manufacturing process

The Company has implemented quality control measures at every stage of the manufacturing process to ensure compliance with applicable standards and consistent product quality. The manufacturing operations are supported by trained personnel and standardized operating procedures. Our Company have obtained ISO and BIS certifications detail of which is given in chapter titled "GOVERNMENT AND OTHER KEY APPROVALS" beginning on page no.354 of Draft Red Herring Prospectus.

MANUFACTURING UNITS AND DEPOT

Our company operates through two manufacturing units and One Depot for storing goods. Details of each manufacturing facility are as under:

- **Manufacturing Unit–I**

The first manufacturing facility of our company, Unit-I was established in 2012. At the time of commencement, the unit started with limited extrusion lines and employees. Initially only Basic Low Voltage Cables were manufactured. Over the years company expanded its product range and included specialized category of wires and cables.

Set forth below is a table summarizing details in respect of Manufacturing Unit–I

Sr. No.	Particulars	Details
1.	Address	Survey No. 930, Jagudan Char Rasta, Mehsana-Ahmedabad Highway, At Linch,Jagudan, Mahesana, Gujarat, India, 382710.
2.	Operational since	2012
3.	Nature of holding	Leased
4.	Land/Plot Area (Sq. mtr.)	5997 Sq.mtr
5.	Built-up Area (Sq. mtr.)	3102.38 Sq.mtr

6.	Installed Capacity as on 31.03.2026	70,000 KMS (Certificate issued by independent chartered engineer, Raj Techno Essentials dated June 01, 2026)
7.	Products manufactured	Housing & Building Wires, Multicore Industrial Cables, Welding Cables, Solar Cables, Submersible Flat Cables
8.	Machineries	Machineries for Annealing, Stranding, Extrusion, Cable Cooling and Sizing and Auto Coiling Machine

- **Manufacturing Unit-II**

  As part of expanding and modernizing our total manufacturing capabilities, the company decided to set up its second manufacturing unit ("Unit-II"). Unit-II became operational since 2024. Initially, we started Unit-II to support demand of LT XLPE Armoured and Unarmoured Power and control Cables. Subsequently, we widened our product range to project-based cable requirements including but not limited to Welding Cables, Submersible Cables, and Photovoltaic Solar DC Cables.

  Set forth below is a table summarizing details in respect of Manufacturing Unit–II

Sr. No.	Particulars	Details
1.	Address	NA 1055/1 At Mehsana-Ahmedabad Highway, Near Saffrony Holiday Resort, Linch, Mahesana, Gujarat, 384435.

- **Depot at Karnataka**

  In addition to our manufacturing units, we have taken on lease a storage facility (depot) recently in January 2026. It is located in state of Karnataka located at 11/11A, Opp. Anjaneya Temple, Main Road, Shamanur, Devangere, Karnataka – 577004. Admeasuring area is 47.02 approximately square meters. The facility is used for storage and dispatch of finished goods and supports faster distribution of products in the region.

BUSINESS PROCESS – CLIENT IDENTIFICATION TO ORDER DELIVERY

1. Customer Inquiry & Market Engagement

- Sales team engages with contractors, EPC companies, and distributors.
- In case of Government contracts, visit Government Portals, tender aggregator websites, newspaper ads and file for tenders based on qualification requirements.
- Inquiry received through website, distributor network, exhibitions or direct contact.
- Initial information collected such as Type of cable required (House Wire / Industrial Cable / Solar Cable etc.), Voltage grade and standards, Quantity and delivery schedule and Application environment (industrial, residential, solar project etc.).

2. Technical Evaluation

- Engineering team reviews specifications and convert customer requirement into a technically suitable cable design.
- Compliance check with ISO standards and industry regulations.

3. **Commercial Proposal/Quotation & Order Confirmation**

- Preparation of quotation including Price, Lead time, Payment terms and Negotiation with client.
- Issuance of Pro forma Invoice / Sales Order and Customer releases Purchase Order (PO).

4. **Production Planning**

- Production team schedules manufacturing batch.
- Procurement of Raw materials including copper/aluminium rods, PVC / XLPE compounds and insulation & sheathing materials.
- Material inspection and inward quality check.

5. **Cable Manufacturing Process**

- Manufacturing process from Wire Drawing & Stranding, Insulation Process to Sheathing & Armoring is carried out in production facilities with modern equipment.

6. **Quality Testing & Compliance**

Our products are manufactured in accordance with the specifications set out in the respective purchase orders and customer requirements. The Company carries out sample-based quality testing during the production to meet the requirements of the customer.

7. **Packing, Logistics & Dispatch**

- Packing in coils, drums or reels depending on cable length and type.
- Labeling with batch number and specification.
- Dispatch through logistics partners or transporters.

8. **Delivery**

- Delivery confirmation from client.
- Feedback collected for continuous improvement

PROCUREMENT AND RAW MATERIALS

The Company uses various raw materials for manufacturing of cables and wires, including aluminium and copper rods, polyvinyl chloride (PVC), cross-linked polyethylene (XLPE), GI strips/wires and wooden drums for packing. Suppliers are selected from an internally maintained vendor list.

The Company's cost of goods sold (COGS) for last three Fiscals 2026, 2025 and 2024 was ₹17,915.93 lakhs, ₹12,337.00 lakhs, and ₹7994.53 lakhs, respectively, which constituted 85.12 %, 88.25 %, and 90.50 % of its revenue from operations for the respective years.

The Company follows a structured procurement process for sourcing key raw materials and utilities, which includes the following steps:

1. Need Identification

The requirement for raw materials and utilities is identified based on production planning, inventory levels, and operational requirements.

2. Specification Definition

Detailed technical specifications, quality standards, and quantity requirements are defined for the identified materials.

3. Supplier Research

Potential suppliers are identified and evaluated based on their capability, past performance, quality standards, and commercial terms.

4. Request for Quotation (RFQ)

Requests for quotations are issued to selected suppliers specifying the required materials, specifications, and delivery timelines.

5. Quotation Evaluation

Quotations received from suppliers are reviewed and compared based on pricing, quality, delivery schedules, and other relevant parameters.

6. Negotiation

Commercial terms, including pricing, delivery schedules, and payment terms, are discussed and finalized with the selected supplier(s).

7. Order Placement

Purchase orders are issued to finalized suppliers for procurement of raw materials and utilities.

SWOT ANALYSIS

- **Strengths**

1. **Promoters are Well Experienced in the Cable Industry -** Our Promoters have experience in the wires and cables industry. Mr. Chandreshkumar Shankerlal Patel, our Promoter and Managing Director, has over 37 years of experience in the wire and cable manufacturing industry. The experience of our Promoters has contributed to the development of our manufacturing operations, procurement processes, customer relationships and overall business management**.**
2. **Established Brand Recognition under the "Johnson" Brand -** Our Company markets and sells its products under the "Johnson" brand, which has been associated with the wires and cables industry for several years. The "Johnson" brand is recognized among our customers and dealers in the markets where we operate. The continued use of the brand has supported customer acquisition, repeat business and the marketing of our product portfolio across different categories of wires and cables.
3. **Certifications, Awards and Quality Assurance –** Our Company maintaines high standards of quality, safety and operational excellence, as reflected by its ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 and BIS certifications. Further, our Company has received various awards and recognitions, including the "Best Product Award" from the Government of Gujarat, the "Quality Excellence Award "at the Gujarat MSME Business Conclave 2025 and the "Pride of North Gujarat"recognition.
4. **Presence Across Multiple End-user Industries** – The Company's products are supplied to sectors such as power transmission & distribution, renewable energy, railways, infrastructure and industrial applications, reducing dependence on a single end-use segment.
5. **Infrastructure & Capacity** – The Company operates two manufacturing facilities in Mehsana, Gujarat, with an aggregate installed manufacturing capacity of 79,950 KMS per annum, supported by modern production and testing equipment that enables manufacturing across various product specifications.

- **Weaknesses**

1. **Dependence on Raw Material Prices** – Cable manufacturing is sensitive to Aluminum, copper and PVC prices, which can squeeze margins in volatile commodity markets.
2. **Competition from Domestic and multinational Players** – The Company operates in a highly competitive industry and faces competition from established domestic and multinational manufacturers with larger production capacities, broader product portfolios.
3. **Substantial Investment in Working Capital –** Our Company's operations are working capital intensive due to the need to maintain adequate inventories of key raw materials such as copper and aluminium and to extend credit to customers. Any inability to efficiently manage working capital requirements may impact liquidity, cash flows and operational performance.

Opportunities

1. **Expected Higher Growth in Power and Infrastructure Sector –** Increasing investments in power transmission, distribution and infrastructure projects such as railways, metros and smart cities are expected to drive demand for electrical wires and cables. This provides growth opportunities for our Company to expand its customer base and revenues.
2. **Growing Demand from Renewable Energy Sector –** India's increasing focus on solar and wind energy projects is expected to drive demand for specialized power and solar cables. This presents opportunities for our Company to strengthen its presence in the renewable energy sector and enhance revenues.
3. **Increasing Demand from Railway Electrification and Government Infrastructure Projects –** The Company's status as an approved railway vendor positions it to capitalize on the growing demand generated by railway electrification initiatives and various government infrastructure projects. This presents opportunities to enhance its market presence and secure additional business in the infrastructure sector.
4. **Export Potential** – Global supply chain diversification is leading overseas buyers to source from Indian suppliers for competitive, quality-assured cables. This diversification is unlocking export potential for Indian cable manufacturers in key markets.

- **Threats**

1. **Competitive industry**– Our Company operates in wires and cables industry which is highly competitive with the presence of established national brands and numerous regional manufacturers, leading to pricing pressure.
2. **Fluctuating Raw Material Costs** – Sharp increases in copper, aluminum or polymer prices can erode profitability if not passed on to customers.
3. **Economic Slowdowns** – A downturn in construction or industrial activity can reduce demand for cables.
4. **Adverse Changes in Government Policies**– Changes in government policies, regulations, taxation, or compliance requirements may increase costs and adversely impact the Company's operations, profitability, and demand for its products.

COMPETITIVE STRENGTHS

Following are our competitive strengths:

1. Consistent growth in revenue from operations demonstrating business scalability

Our Company has recorded revenue from operations of ₹21,047.41 lakhs, ₹13,979.13 lakhs and ₹8833.89 lakhs during Fiscals 2024, 2025 and 2026, respectively. The growth in revenue has been supported by increased demand for our products, expansion of manufacturing capabilities and continued execution of orders from government and private sector customers. We believe our ability to consistently grow our revenue reflects the scalability of our operations and the acceptance of our products in the market.

2. Continued investment in manufacturing infrastructure to support future growth

Our Company has consistently invested in plant and equipment to enhance manufacturing facilities. Our manufacturing infrastructure enable us to expand our production capacity, adding new product range, achieve operational efficiencies and strengthen our market presence. The year-wise capital expenditure incurred by our Company on manufacturing infrastructure during the last three Fiscals is set out below:

(₹ in Lakhs)

Particulars	F.Y 2025-26	F.Y 2024-25	F.Y 2023-24

4. Product Innovation Supported by Intellectual Property (Patent)

Our Company focuses on product innovation to strengthen its product offerings. We own an Indian patent titled "**An Improved Three Core Double Insulated Flat Electrical Cable for Submersible Pump**" (Patent No. 420982), which was granted on February 8, 2023 and is valid up to June 30, 2042, subject to

payment of the prescribed renewal fees. The patent is registered in the name of our Company and demonstrates our focus on developing innovative product for specialized applications.

We believe that our patented product strengthens our product portfolio and differentiates our products in the submersible cable segment. For further details in regard to patent please refer to Section Titled "Intellectual Property Rights" in the chapter "About the company" Beginning on page 169.

5. Established Vendor Approvals and Eligibility to Participate in Government Tenders

We are approved vendors with various State Transmission & Distribution Utilities, Public Sector Undertakings, and DISCOMs for supply of cables and wires, either directly or through EPC contractors. Tenders issued by government authorities and EPC contractors generally include Bid Qualification Requirements relating to past experience, execution track record, and performance. Based on our experience of supplying to such customers, we are eligible to participate in these tenders subject to applicable requirements. Below is list of our existing vendor approvals to support our participation in future projects.

BUSINESS STRATEGY

Our business strategy is focused on strengthening our market position, expanding our product portfolio, improving operational efficiencies and pursuing sustainable growth in the wires and cables industry. We seek to achieve this through the following strategic initiatives:

1. **Expand our manufacturing capacity through investment in manufacturing infrastructure**

   We intend to strengthen our manufacturing capabilities and support our future growth by expanding our existing manufacturing infrastructure. As on March 31, 2026, our Company has a combined installed manufacturing capacity of 79,950 KMs across our two manufacturing units. To cater to the growing demand for our products and support our long-term growth plans, we propose to expand our manufacturing capacity through the construction of an additional factory shed and installation of additional plant and machinery at our manufacturing facility at Unit-2.

   We expect to increase our installed manufacturing capacity by 1,67,580 KMs for wires and cables (As per Technical Evaluation Report dated 06th August 2026 issued by Vishvakarma Consulting Services Pvt. Ltd., an independent chartered engineer). We believe that the proposed expansion will enhance our production capacity, improve manufacturing efficiencies, increase operational flexibility and enable us to cater to the requirements of our existing as well as prospective customers across various end-user industries. For further details, see "Objects of the Issue" beginning on page 123 of this Draft Red Herring Prospectus.

2. **Optimise Manufacturing Operations through Energy-Efficient Initiatives (Installation of Solar Rooftop)**

   We intend to continue improving the operational efficiency of our manufacturing operations by adopting measures aimed at optimising resource utilisation and reducing operating costs. As part of this strategy, we propose to install a rooftop solar power plant at our manufacturing facilities to support our energy requirements. We believe that the proposed investment is expected to reduce our dependence on

conventional power sources, optimise power costs and support environmentally sustainable manufacturing practices. These initiatives, together with our continued focus on increasing our installed capacity and installing rooftop solar to reduce power cost, are expected to strengthen our operational efficiencies and support our long-term growth.

3. **Continue to focus on product innovation and quality assurance**

We intend to continue developing and manufacturing products that meet evolving customer requirements and applicable quality standards. Leveraging our technical expertise, including our patented product, and quality-focused manufacturing processes, we aim to strengthen our product portfolio and enhance our competitiveness across various end-user industries.

We are committed to maintaining high standards of quality across all stages of our manufacturing operations through testing and inspection processes. Our manufacturing facilities are certified under ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018, and our products comply with applicable Bureau of Indian Standards ("BIS") specifications, including IS 694:2010 and IS 7098 (Part 1):1988. For more details refer to chapter titled as "Legal and other Information" beginning on page 347 of this Draft Red Herring Prospectus.

We believe that our continued focus on product innovation, quality assurance will strengthen customer confidence, support our market position and contribute to our long-term growth.

4. **Expanding our product offerings by including higher value-added products**

To improve our margin profile and drive growth, we plan to increase our focus on developing higher value-added products tailored to sectors with advanced requirements, supported by targeted investments in advanced manufacturing capabilities. We aim to invest in advanced machinery and process improvements toward the manufacture of higher value-added products such as Paper Covered Copper / Aluminium Conductors, which are critical for high voltage applications including Oil-Filled Power Transformers, High-Tension Motors & Generators. These applications demand ultra-precision manufacturing and stringent quality standards, which will be supported by the planned expansion of manufacturing infrastructure and technical expertise.

5. **Enhance presence in renewable energy sector**

Currently, our company manufactures Photovoltaic (DC Solar) Cables and Aluminium Solar Earthing wires. Our revenue from renewable energy sector during previous three fiscal years 2026, 2025, 2024 are ₹4891.08 Lakhs, ₹2324.70 Lakhs and ₹1803.19 Lakhs respectively. We intend to enhance our presence by targeting upcoming and key growth sectors based on renewable energy and power infrastructure. We seek to expand our customer base and make efforts to increase revenue share from our existing customers and new customers, participating in more renewable energy projects and expanding our range of products and developing new products aligned with their needs.

6. **Continue improving financial performance through focus on operational and functional efficiencies.**

We aim to continue improving financial performance through focus on operational and functional efficiencies. Cost optimization and reduction continue to be our priorities, and we make every effort to achieve cost reductions, whether they arise in the production process or in supply chain management. Our COGS (% to revenue) during last three fiscal year 2026, 2025 and 2024 is 85.12 %, 88.25 %, and 90.50 % respectively. Our core team also works on evaluating possibilities to increase yield and efficiency such as

adoption of economical and environmentally beneficial production methods like lowering electricity costs by utilizing solar energy, investment in latest automated semi-automated technology which increases efficiency and production. We may continue improving financial performance if we keep our focus on cost optimization and reduction.

7. Strengthen brand presence and customer relationships

We intend to enhance brand visibility through targeted marketing initiatives and participation in industry exhibitions and trade forums. Details of our marketing and exhibition expense during last 3 Fiscal years are as below:

(₹ in Lakhs)

Particulars	F.Y 2025-26	F.Y 2024-25	F.Y 2023-24
Advertising	53.38	30.88	13.84
Business Promotion including Exhibition	28.55	33.23	35.86
Total	**81.93**	**64.11**	**49.70**

We also seek to strengthen customer engagement through improved service, consistent product quality, adherence to delivery schedule to build long-term relationships with customers. The Company engages with customers on an ongoing basis to understand their technical specifications, application requirements and evolving industry needs. This engagement supports the supply of cable solutions and facilitates alignment of products with customer-specific requirements across various end-use sectors.

FEW KEY PROJECTS EXECUTED

List of few key projects completed by us, are set out below:

Sr. No.	Description of the Project*	Delivery/ PO Date	Quantity Supplied (In KMs)	Project Value (in ₹ Lakhs)
1	Aluminum LT XLPE Insulated PVC Sheathed Armoured Cable supplied to Government Contractor for a project of DISCOM	01-11-2023	128.00	984.85

SALES AND MARKETING STRATEGY

Our business is majorly conducted on a business-to-business basis and our focus is on maintaining constant contact with customers and ensuring the quality of products and their timely delivery. Our sales and marketing team is responsible for a range of marketing and outreach initiatives for our products, also responsible for business development, acquisition of new customers. Further, our Promoters, have been instrumental in our Company's growth and development by taking personal interest in customer development activities and interacting with key customers directly.

We actively participate in trade shows and exhibitions to showcase our products, connect and networking with potential clients, and explore new markets. We are also members of various industry associations and forums such as EEPC, IEEMA, CII which enable us to participate in conferences, buyer-seller meets and other networking events, thereby strengthening our customer engagement.

For government and public sector work, the Company has project tendering team that looks after the entire tendering process. This team regularly checks newspapers, government websites, and online tender platforms to identify relevant opportunities. Once a suitable project is identified, it is reviewed internally and taken up only after management approval.

The team then handles all activities related to pre-qualification and submission of tenders, ensuring that all required conditions and documentation are properly complied with. The Company makes efforts to meet the eligibility criteria on its own and participate independently in the bidding process for such projects.

UTILITIES & INFRASTRUCTURE FACILITIES

Infrastructure Facilities

Our registered office and manufacturing units are equipped with or have access to the necessary utilities like air, electricity, water, sanitation etc. for our business operations to function smoothly.

Power

Our Company requires power for the normal requirement of the Registered Office and manufacturing units for lighting, systems etc. Adequate power is available which is met through the electric supply. Our Manufacturing Unit-I has sanctioned power from Uttar Gujarat Vij Company Ltd to the tune of 475 KVA. Our Manufacturing Unit-II has sanctioned power from Uttar Gujarat Vij Company Ltd to the tune of 600 KVA. Also, we have also installed two generators of 125 KVA & 500 KVA for power back up at Manufacturing Unit-I & II respectively.

Water

Water is mainly required for the production process, washing of the products, casting of the products, fire safety, drinking, and sanitation purposes. Our Company source the water from Private water suppliers / tankers by paying them a monthly water charge bill. We also manage our water supply sourced from bore wells and utilizes water storage tanks.

Logistics

We primarily use services of third-party logistics providers to receive Raw material and to deliver our products. For imports, it is through clearing house agents on FOB basis or otherwise on CIF basis.

Raw Materials	Raw materials are transported to our manufacturing facility either through our supplier's proprietary vehicles or third-party transport agencies.
Finished Products	To deliver our finished products to customers, we utilize dedicated transport vehicles equipped with frames tailored to meet the specific requirements for product delivery.

Information Technology

We have an appropriate information technology infrastructure is important in order to support the growth of our business. We have the desired hardware and software use, internet and email guidelines, password protection, and data backup. We have implemented multiple measures including antivirus, access controls, and regular password updates. These measures help us protect information, reduce cyber risks, and maintain reliable operations.

Inventory Management

Our company operates a manufacturing units dedicated to the manufacture and storage of both raw materials and finished products. We manufacture our products based on quantity of confirmed and expected orders.

Repair and Maintenance

Our machinery and production teams carry out, periodically, maintenance and repair of the plants and machinery on as per need basis.

Waste Management

During the manufacturing of cables and wires, waste generated includes metal scrap, packing material scrap, leftover wires and polymer scrap. All the waste generated is sold to scrap dealers. Further, water used in manufacturing is recirculated in cooling tower enabling efficient reuse of process water across manufacturing operations.

HUMAN RESOURCE

Our employees who work with us are our biggest assets. Skilled engineers, technicians, specialists as well as semi-skilled and unskilled personnel to ensure the precision and reliability of the products by leveraging their expertise. Additionally, emphasis on teamwork, problem-solving abilities, and adherence to industry standards enables our company to consistently meet client expectations and adapt to market demands. The Company does not engage any contractual labour.

A. Industry Related Laws

The Factories Act of 1948 ("Factories Act")

The term 'factory', as defined under the Factories Act, 1948 {"**Factories Act**") includes any premises which employs or has employed on any day in the previous 12 months, 10 or more workers and in which any manufacturing process is carried on with the aid of power, or any premises wherein 20 or more workmen are employed at any day during the preceding 12 months and in which any manufacturing process is carried on without the aid of power. Respective State Governments have issued rules in respect of the prior submission of plans and their approval for the establishment of factories and registration and licensing of factories. The Factories Act mandates the occupier of a factory to ensure the health, safety and welfare of all workers in the factory premises. Further, the occupier of a factory is also required to ensure (i) the safety and proper maintenance of the factory such that it does not pose health risks to persons in the factory premises; (ii) the safe use, handling, storage and transport of factory articles and substances; (iii) provision of adequate instruction, training and supervision to ensure worker's health and safety; and (iv) cleanliness and safe working conditions in the factory premises. If there is a contravention of any of the provisions of the Factories Act or the rules framed thereunder, the occupier and manager of the factory may be punished with imprisonment or with a fine or with both.

Industrial Disputes Act, 1947, as amended (the "ID Act")

The ID Act provides for statutory mechanism of settlement of all industrial disputes, a term which primarily refers to a dispute or difference between employers and workmen concerning employment or the terms of employment or with the conditions of labour of any person. The Industrial Dispute (Central) Rules, 1957 inter-alia specify procedural guidelines for lock-outs, closures, layoffs and retrenchment.

Industries (Development and Regulation) Act, 1951, as amended ("IDR Act")

The IDR Act has been liberalized under the New Industrial Policy dated July 24, 1991 and all industrial undertakings are exempt from licensing except for certain industries, including, among others, all types of electronic aerospace, defence equipment, ships and other vessels drawn by power. The IDR Act is administered by the Ministry of Industries and Commerce through the Department for Promotion of Industry and Internal Trade ("**DPIIT**"). The main objectives of the IDR Act is to empower the Government to take necessary steps for the development of industries; to regulate the pattern and direction of industrial development; and to control the activities, performance and results of industrial undertakings in the public interest. The DPIIT is responsible for formulation and implementation of promotional and developmental measures for growth of the industrial sector.

Industrial Employment (Standing Orders) Act, 1946

In order to strengthen the bargaining powers of the workers this act is enacted, it requires the employers to formally define the working conditions to the employee. As per this act, an employer is required to submit five copies of standing orders required by him for adoption of his industrial establishment. An employer failing to submit the draft standing orders as required by this act shall be liable to pay fine as per section 13 of this act.

The Industrial Relations Code, 2020

The Industrial Relations Code, 2020 received the assent of the President of India on September 28, 2020 and it proposes to subsume three existing legislations, namely, the Industrial Disputes Act, 1947, the Trade Unions Act, 1926 and the Industrial Employment (Standing Orders) Act, 1946. The provisions of this Code will be brought into force on a date to be notified by the GOI.

Bureau of Indian Standards Act, 2016 (the "BIS Act")

The Bureau of Indian Standards Act, 2016 provides for the establishment of bureau for the standardisation, marking and quality certification of goods. Functions of the bureau include, inter alia, (a) recognizing as an Indian standard, any standard established for any article or process by any other institution in India or elsewhere; (b) specifying a standard mark which shall be of such design and contain such particulars as may be prescribed to represent a particular Indian standard; and (c) conducting such inspection and taking such samples of any material or substance as may be necessary to see whether any article or process in relation to which the standard mark has been used conforms to the Indian Standard or whether the standard mark has been improperly used in relation to any article or process with or without a license. A person may apply to the bureau for grant of license or certificate of conformity, if the articles, goods, process, system or service confirms to an Indian Standard.

Bureau of Indian Standards Rules, 2018 ("Bureau of Indian Standards Rules")

The Bureau of Indian Standards Rules have been notified, in supersession of the Bureau of Indian Standards Rules, 1987, in so far as they relate to Chapter IV A of the said rules relating to registration of the articles

notified by the Central Government, and in supersession of the Bureau of Indian Standards Rules, 2017 except in relation to things done or omitted to be done before such supersession. Under the Bureau of Indian Standards Rules, the bureau is required to establish Indian standards in relation to any goods, article, process, system or service and shall reaffirm, amend, revise or withdraw Indian standards so established as may be necessary.

Sale of Goods Act, 1930 (the "Sale of Goods Act")

The Sale of Goods Act governs contracts relating to sale of goods in India. The contracts for sale of goods are subject to the general principles of the law relating to contracts. A contract of sale may be an absolute one or based on certain conditions. The Sale of Goods Act contains provisions in relation to the essential aspects of such contracts, including the transfer of ownership of the goods, delivery of goods, rights and duties of the buyer and seller, remedies for breach of contract and the conditions and warranties implied under a contract for sale of goods.

B. Laws Relating to Employment

In order to rationalize and reform labour laws in India, the Government has enacted the following codes, which will be brought into force on a date to be notified by the Central Government:

Code on Wages, 2019

The Code on Wages regulates and amalgamates wage and bonus payments and subsumes four existing laws namely –the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976. It regulates, inter alia, the minimum wages payable to employees, the manner of payment and calculation of wages and the payment of bonus to employee. The Central Government has notified certain provisions of the Code on Wages, mainly in relation to the constitution of the central advisory board.

Code on Social Security, 2020

The Code on Social Security amends and consolidates laws relating to social security, and subsumes various social security related legislations, *inter alia* including the Employee's State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961, Building and Other Construction Worker'' Welfare Cess Act, 1996 and the Payment of Gratuity Act, 1972. It governs the constitution and functioning of social security organisations such as the Employee's Provident Fund Organisation and the Employee's State Insurance Corporation, regulates the payment of gratuity, the provision of maternity benefits and compensation in the event of accidents that employees may suffer, among others.

The Occupational Safety, Health and Working Conditions Code, 2020

The Occupational Safety, Health and Working Conditions Code consolidates and amends the laws regulating the occupational safety and health and working conditions of the persons employed in an establishment. It replaces 13 old central labour laws including the Factories Act, 1948, Contract Labour (Regulation and Abolition) Act, 1970, the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996 and the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979.

Other labour law legislations

The various labour and employment related legislation that may apply to our operations, from the perspective of protecting the workers' rights and specifying registration, reporting and other compliances, and the requirements that may apply to us as an employer, would include, among others, the following: (i) Contract Labour (Regulation and Abolition) Act, 1970; (ii) Relevant state specific shops and commercial establishment legislations; (iii) Employees' Provident Funds and Miscellaneous Provisions Act, 1952; (iv) Employees' State Insurance Act, 1948; (v) Minimum Wages Act, 1948; (vi) Payment of Bonus Act, 1965; (vii) Payment of Gratuity Act, 1972; (viii) Payment of Wages Act, 1936; (ix) Maternity Benefit Act, 1961;(x) Apprenticeship Act, 1961; (xi) Equal Remuneration Act, 1976; (xii) Employees' Compensation Act, 1923; and (xiii) Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

C. Environmental Laws

The Environment (Protection) Act, 1986 (the "EPA")

The EPA has been enacted with the objective of protecting and improving the environment and for matters connected therewith. As per the EPA, the Central Government has been given the power to take all such measures for the purpose of protecting and improving the quality of the environment and to prevent environmental pollution. Further, the Central Government has been given the power to give directions in writing to any person or officer or any authority for any of the purposes of the EPA, including the power to direct the closure, prohibition or regulation of any industry, operation or process.

Further, the Environment Protection Rules specifies, inter alia, the standards for emission or discharge of environmental pollutants, restrictions on the location of industries and restrictions on the handling of hazardous substances in different areas. For contravention of any of the provisions of the Environment Protection Act or the rules framed thereunder, the punishment includes either imprisonment or fine or both

The Environmental Impact Assessment Notification, 2006 (the "Notification")

As per the Notification, any construction of new projects or activities or the expansion or modernization of existing projects or activities as listed in the Schedule attached to the notification entailing capacity addition with change in process and or technology can be undertaken only after the prior environmental clearance from the Central government or as the case may be, by the State Level Environment Impact Assessment Authority, duly constituted by the Central government under the provisions of the Environment (Protection) Act, 1986, in accordance with the procedure specified in the notification. The environmental clearance process for new projects comprises of four stages viz. screening, scoping, public consultation and appraisal. However, in 2016, MoEF issued a notification for integrating standard and objectively monitorable environmental conditions with building permissions for buildings of different sizes with rigorous monitoring mechanism for implementation of environmental concerns and obligations in building projects. This is in line with the objective of the Central government to streamline the permissions for buildings and construction sector so that affordable housing can be provided to weaker sections in urban area under the scheme Housing for All by 2022'and is proposing to remove the requirement of seeking a separate environment clearance from the MoEF for individual buildings having a total build up area between 5,000 square metre and 150,000 square metre, apart from adhering to the relevant bye-laws of the concerned State authorities.

The Water (Prevention and Control of Pollution) Act, 1974 (the "Water Act") and Air (Prevention and Control of Pollution) Act, 1981 ("Air Act")

The Water Act prohibits the use of any stream or well for the disposal of polluting matter, in violation of the standards set out by the concerned PCB. The Water Act also provides that the consent of the concerned PCB

must be obtained prior to opening of any new outlets or discharges, which are likely to discharge sewage or effluent. Air (Prevention and Control of Pollution) Act, 1981 (the ―Air Act‖) The Air Act requires that any industry or institution emitting smoke or gases must apply in a prescribed form and obtain consent from the state PCB prior to commencing any activity. The state PCB is required to grant, or refuse, consent within four months of receipt of the application. The consent may contain conditions relating to specifications of pollution control equipment to be installed.

The Public Liability Insurance Act, 1991 ("PLI Act")

The PLI Act provides for public liability insurance for the purpose of providing immediate relief to the persons affected by accident occurring while handling any hazardous substance and imposes liability on the owner of hazardous substances for any damage arising out of an accident involving such hazardous substances. The government by way of a notification has enumerated a list of hazardous substances. The owner or handler is also required to obtain an insurance policy insuring against liability under the legislation. The rules made under the PLI Act mandate that the owner has to contribute towards the environmental relief fund a sum equal to the premium paid on the insurance policies. The amount is payable to the insurer.

Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (the "Hazardous Waste Rules")

The Hazardous Waste Rules regulate the management, treatment, storage and disposal of hazardous waste. Under the Hazardous Waste Rules, "hazardous waste" inter alia means any waste which by reason of characteristics such as physical, chemical, biological, reactive, toxic, flammable, explosive or corrosive, cause danger or is likely to cause danger to health or environment, whether alone or in contact with other wastes or substances. Every occupier and
operator of a facility generating hazardous waste must obtain authorization has been relevant state pollution control board. Further, the occupier, importer or exporter is liable for damages caused to the environment or third party resulting from the improper handling and management and disposal of hazardous waste and must pay any financial penalty that may be levied by the respective state pollution control board.

In addition to the above-mentioned environmental laws, following is an indicative list of the environmental laws which may be applicable to our Company due to the nature of the business activities

(i) Noise Pollution (Regulation and Control) Rules, 2000, as amended; and
(ii) Gas Cylinders Rules, 2016

Further, the Ministry of Environment, Forest and Climate Change, Government of India has also notified the E-Waste (Management) Rules, 2022, which shall come into effect on April 1, 2023.

Plastic Waste Management Rules, 2016 ("Plastic Waste Management Rules")

Under the Plastic Waste Management Rules, all institutional generators of plastic waste, are required to, inter alia, segregate and store the waste generated by them in accordance with the Solid Waste Management Rules, 2016, and handover segregated wastes to authorized waste processing or disposal facilities or deposition centers, either on its own or through the authorized waste collection agency. Under the Plastic Waste Management Rules, waste generator shall also take steps to minimize generation of plastic waste. The Plastic Waste Management Rules also requires the producers, importers, and brand owners to collect back the plastic waste generated due to their products. On August 12, 2021, the Government of India notified the Plastic Waste Management (Amendment) Rules, 2021, prohibiting the use of identified single use plastic items which have low utility and high littering potential. Under the Plastic Waste Management Rules, the state governments

have also been requested to develop a comprehensive action plan for elimination of single use plastics and effective implementation of Plastic Waste Management Rules, in a time bound manner.

D. Intellectual Property Laws

The Trademarks Act, 1999 ("Trademarks Act")

Under the Trademarks Act, a trademark is a mark capable of being represented graphically and which is capable of distinguishing the goods or services of one person from those of others used in relation to goods and services to indicate a connection in the course of trade between the goods and some person having the right as proprietor to use the mark. Section 18 of the Trademarks Act requires that any person claiming to be the proprietor of a trademark used or proposed to be used by him, must apply for registration in writing to the registrar of trademarks. The right to use the mark can be exercised either by the registered proprietor or a registered user. The present term of registration of a trademark is 10 (ten) years, which may be renewed for similar periods on payment of a prescribed renewals.

The Indian Patents Act, 1970 (the "Patent Act")

The Indian Patents Act, 1970 (the "Patent Act") governs patents in India. A patent is an intellectual property right relating to inventions and is the grant of exclusive right, for limited period, provided by the Government to the patentee, in exchange of full disclosure of his invention, for excluding others from making, using, selling, importing the patented product or process producing that product. The term invention means a new product or process involving an inventive step capable of industrial application.

E. Foreign Investment Regulations

The foreign investment in India is governed, among others, by the Foreign Exchange Management Act, 1999, the Foreign Exchange Management (Non-debt Instruments) Rules, 2019 (—FEMA Rules‖) and the consolidated FDI policy (effective from October 15, 2020) issued by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (earlier known as the Department of Industrial Policy and Promotion (—FDI Policy‖), each as amended.Further, the Reserve Bank of India has enacted the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 on October 17, 2019 which regulates mode of payment and remittance of sale proceeds, among others. The FDI Policy and the FEMA Rules prescribe inter alia the method of calculation of total foreign investment (i.e. direct foreign investment and indirect foreign investment) in an Indian company.

Foreign Trade (Development and Regulation) Act, 1992 ("FTDRA"), the Foreign Trade (Regulation) Rules, 1993 ("FTRR") and the Foreign Trade Policy 2015-2020 ("Foreign Trade Policy")

The FTDRA provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India. The FTDRA empowers the Central Government to formulate and amend the foreign trade policy. The FTDRA prohibits any person from making an import or export except under an Importer-exporter Code Number (IEC) granted by the director general or any other authorized person in accordance with the specified procedure. The IEC may be suspended or cancelled if the person who has been granted such IEC contravenes, amongst others, any of the provisions of the FTDRA, or any rules or orders made thereunder, or the foreign policy or any other law pertaining to central excise or customs or foreign exchange. The FTDRA also prescribes the imposition of penalties on any person violating its provisions. The FTRR prescribes the procedure to make an application for grant of a license to import or export goods in accordance with the foreign trade policy, the conditions of such license, and the grounds for refusal of a license. The FTDRA empowers the Central Government to, from time to time, formulate and announce the foreign trade policy. The Foreign Trade Policy came into effect in 2017 and requires all importers and exporters

to obtain an IEC. Further, pursuant to the policy, the Director General of Foreign Trade may impose prohibitions or restrictions on the import or export of certain goods, for reasons including the protection of public morals, protection of human, animal or plant life or health, and the conservation of national resources. The Foreign Trade Policy also prescribes restrictions on imports or exports in relation to specific countries, organisations, groups, individuals or products. The Foreign Trade Policy also provides for various schemes, including the export promotions capital goods scheme and duty exemption/remission schemes. India's current Foreign Trade Policy (2015-20) (as extended until September 30, 2022 and thereafter, extended till March 31, 2023) envisages helping exporters leverage benefits of GST, closely monitoring export performances, increasing ease of trading across borders, increasing realization from India's agriculture-based exports and promoting exports from MSMEs and labour-intensive sectors.

Foreign Exchange Management Act, 1999 ("the FEMA") and Rules and Regulations thereunder

Export of goods and services outside India is governed by the provisions of the Foreign Exchange Management Act, 1999, read with the applicable regulations. The Foreign Exchange Management (Export of goods and services) Regulations, 2000 have been superseded by the Foreign Exchange Management (Export of Goods and Services) Regulations, 2015 (—Export of Goods and Services Regulations 2015‖) issued by the RBI on January 12, 2016 (last amended on June 23, 2017). The RBI has also issued a Master Circular on Export of Goods and Services. The export is governed by these Regulations which make various provisions such as declaration of exports, procedure of exports as well as exemptions.

FEMA Rules

The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 by Notification No. FEMA. 395/2019-RB dated October 17, 2019 (**FEMA Rules**) to prohibit, restrict, or regulate transfer by or issue security to a person resident outside India. As laid down by the FEMA Rules, no prior consents and approvals are required from the RBI for Foreign Direct Investment (**FDI**) under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the RBI. At present, the FDI Policy does not prescribe any cap on the foreign investments in the sector in which the Company operates. Therefore, foreign investment up to 100% is permitted in the Company under the automatic route.

Importer-Exporter Code

Under the Indian Foreign Trade Policy, 2004, no export or import can be made by a person or company without an Importer Exporter Code number unless such person/company is specifically exempted. An application for an Importer Exporter Code number has to be made to the office of the Joint Director General of Foreign Trade, Ministry of Commerce. An Importer Exporter Code number allotted to an applicant is valid for all its branches/divisions/ units/factories.

ANNEXURE -IV
SIGNIFICANT ACCOUNTING POLICIES

A - CORPORATE INFORMATION

Johnsoncab Electricals Limited ("the Company") (formerly known as Johnsoncab Electricals Private Limited) is a public limited company incorporated under the provisions of the Companies Act, 2013 and domiciled in India. The Company traces its origin to the partnership firm M/s Johnson Cables, Mehsana. Pursuant to a resolution passed by the partners at a special meeting held on June 15, 2020, M/s Johnson Cables was approved for conversion into a company limited by shares under Chapter XXI of the Companies Act, 2013. Accordingly, the business of the partnership firm was succeeded by Johnsoncab Electricals Private Limited, which was incorporated on November 20, 2020 under the Companies Act, 2013. Subsequently, pursuant to a resolution passed by the shareholders at the Extra-Ordinary General Meeting held on November 14, 2025, the Company was converted into a public limited company and its name was changed to Johnsoncab Electricals Limited. A fresh Certificate of Incorporation consequent upon the change of name and conversion was issued by the Registrar of Companies on December 5, 2025. The Corporate Identification Number (CIN) of the Company is U31900GJ2020PLC118226. The registered office of the Company is situated at Survey No. 930, Jagudan Char Rasta, Mehsana-Ahmedabad Highway, At Linch, Jagudan, Mehsana, Gujarat – 382710, India. The Company is engaged in the manufacturing of electrical wires, cables and allied products.

B- BASIS OF PREPARATION

1. Basis of Preparation of Financial Statements :-

The financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India ("Indian GAAP"), including the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with the relevant rules issued thereunder and other applicable provisions of the Companies Act, 2013. The financial statements have been prepared on an accrual basis under the historical cost convention and are presented in accordance with the requirements of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, as amended from time to time.

The accounting policies have been framed, keeping in view the fundamental accounting assumptions of Going Concern, Consistency and Accrual, as also basic considerations of Prudence, Substance over form, and Materiality. These have been applied consistently, except where a newly issued accounting standard is initially adopted or a revision in the existing accounting standards require a revision in the accounting policy so far in use. The need for such a revision is evaluated on an ongoing basis. The Financial Statements have been prepared on a going concern basis, in as much as the management neither intends to liquidate the company nor to cease operations. Accordingly, assets, liabilities, income and expenses are recorded on a Going Concern basis. Based on the nature of products and services, and the time between the acquisition of assets and realization in cash or cash equivalents, the company has ascertained its operating cycle as 12 months for the purposes of current and non-current classification of assets and liabilities.

The Restated Statements of Assets and Liabilities of the Company as at March 31, 2026, March 31, 2025 and March 31, 2024, and the related Restated Statements of Profit and Loss and Restated Statements of Cash Flows for the period/year ended March 31, 2026, March 31, 2025 and March 31, 2024 (hereinafter collectively referred to as the "Restated Financial Information"), have been compiled by the management from the audited financial statements of the Company for the respective period/year ended March 31, 2026, March 31, 2025 and March 31, 2024. The Restated Financial Information has been prepared to comply, in all material respects, with the provisions of Part I of Chapter III of the Companies Act, 2013 (the "Act"), read with the Companies (Prospectus and Allotment of Securities) Rules, 2014, the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("ICDR Regulations"), as amended, and the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India.

2. Use of Estimates:-

The preparation of financial statements in conformity with generally accepted accounting principles require estimates and assumptions to be made that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities on the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates and differences between actual results and estimates are recognized in the periods in which the results are known/materialize. The estimates used in the preaparation are prudent and reasonable.

3. Inventories:-

Inventories are valued after providing for obsolescence, as under:

i. Raw materials are valued at lower of cost or net realisable value. Cost is computed on First-In-First-Out (FIFO) basis. However, these items are considered to be realisable at cost if the finished products in which they will be used, are expected to be sold at or above cost. Cost includes purchase price, (excluding those subsequently recoverable by the enterprise from the concerned revenue authorities), freight inwards and other expenditure incurred in bringing such inventories to their present location and condition.

S V J K AND ASSOCIATES * FRN : 135182W * AHMEDABAD * CHARTERED ACCOUNTANTS *

JOHNSONCAB ELECTRICALS LIMITED

ii. Finished Goods are valued at lower of cost including related overheads or net realisable value. Cost is computed on First-In-First-Out (FIFO) basis.

iii. Work-in-progress is valued at the lower of cost and net realisable value. Cost comprises the cost of raw materials, direct labour and an appropriate proportion of production overheads incurred up to the stage of completion, determined on the FIFO basis.

Assessment of net realisable value is made at each reporting period end and when the circumstances that previously caused inventories to be written-down below cost no longer exist or when there is clear evidence of an increase in net realisable value because of changed economic circumstances, the write-down, if any, in the past period is reversed to the extent of the original amount written-down so that the resultant carrying amount is the lower of the cost and the revised net realisable value.

4. Cash & Cash Equivalents:-

Cash and cash equivalents comprise cash in hand, balances with banks, and deposits with original maturities of three months or less, subject to insignificant risk of changes in value.

5. Property, Plant and Equipment & Intangible Assets:-

(a) Property, Plant and Equipment:

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment losses, if any. The cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable taxes, after deducting trade discounts, rebates and other directly attributable discounts, and any directly attributable expenditure incurred in bringing the asset to its working condition for its intended use. Cost also includes borrowing costs directly attributable to the acquisition or construction of qualifying assets, wherever applicable. Depreciation is provided on the straight-line method over useful lives prescribed in Schedule II of the Companies Act, 2013.

Subsequent expenditure incurred on property, plant and equipment is capitalised only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. Expenditure that results in an increase in the future benefits from the existing asset beyond its previously assessed standard of performance, such as major improvements, modifications or replacement of significant components, is capitalised. All other subsequent expenditures, including routine repairs and maintenance, servicing and day-to-day maintenance costs, are charged to the Statement of Profit and Loss in the period in which they are incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the asset and is recognised in the Statement of Profit and Loss in the period in which the asset is derecognised.

(b) Intangible Assets:

Intangible assets are recognised only when future economic benefits are probable and the cost can be measured reliably. They are carried at cost less accumulated amortisation and impairment losses. No intangible assets were recognised during the year.

(c) Capital Work In Progress :-

Capital Work-in-Progress is carried at cost comprising expenditure incurred on acquisition or construction of capital assets, including directly attributable costs and borrowing costs relating to qualifying assets, to the extent they are not yet ready for their intended use. Capital Work-in-Progress is transferred to the appropriate category of Property, Plant and Equipment upon completion and when the asset is ready for its intended use.

6. Employee Benefits:-

Defined Benefit Plan:

Short-term Employee Benefits

Short-term employee benefits are recognised as an expense at the undiscounted amount in the Statement of Profit and Loss for the period in which the related service is rendered. Liabilities for salaries, wages, bonus, ex-gratia, leave travel assistance and other short-term employee benefits expected to be settled wholly within twelve months after the end of the reporting period are recognised based on the amount expected to be paid.

Post-employment Benefits

Post-employment benefits comprise retirement benefit plans such as gratuity and provident fund.

The Company's gratuity scheme is a defined benefit plan. The obligation in respect of the defined benefit plan is determined by an independent actuary at each Balance Sheet date using the Projected Unit Credit Method. Actuarial gains and losses arising from changes in actuarial assumptions and experience adjustments are recognised immediately in the Statement of Profit and Loss in the period in which they occur.

The Company's contribution to provident fund and other defined contribution plans is recognised as an expense in the Statement of Profit and Loss in the period during which the employee renders the related service. The Company has no further obligation beyond its contributions to such plans.

Other Long-term Employee Benefits

Liabilities in respect of long-term employee benefits, such as compensated absences and leave encashment, are determined by an independent actuary using the Projected Unit Credit Method at the Balance Sheet date. The obligation is measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services rendered by employees up to the reporting date. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss.

S V J K AND ASSOCIATES * CHARTERED ACCOUNTANTS * FRN : 135182W AHMEDABAD

JOHNSON CAB ELECTRICALS LIMITED

7. Revenue Recognition :-

Revenue from sale of goods is recognised when significant risks and rewards of ownership in the goods are transferred to the buyer, which generally coincides with dispatch or delivery of goods as per the terms of the contract. Revenue is measured at the fair value of the consideration received or receivable, net of returns, trade discounts, rebates, taxes and applicable duties collected on behalf of government authorities. Revenue is recognised when it is probable that the economic benefits associated with the transaction will flow to the Company and the amount of revenue can be measured reliably.

8. Borrowings from Bank:-

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of such asset until the time the asset is substantially ready for its intended use or sale. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.

All other borrowing costs are recognized as an expense in the Statement of Profit and Loss in the period in which they are incurred.

9. Earning per Share:-

Basic earning per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equities shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. The weighted number of equity shares outstanding during the period is adjusted for events such as bonus issue.

10. Provisions, Contingent liabilities and Contingent Assets:

A provision has been recognized in respect of a present obligation as a result of past event i.e. based on the probability of there being an outflow of resources to settle the obligation, in respect of which a reliable estimate can be made. Provisions have not been discounted to its present value and have been determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. The company does not recognize a contingent liability but discloses its existence in the financial statements.

11. Taxation :-

Tax expense comprises current and deferred tax. Current tax is based on taxable income at enacted rates. Deferred tax is recognised on temporary differences between carrying values and tax bases, using enacted or substantively enacted rates, subject to prudence in recognising deferred tax assets. During the year, deferred tax has been recognised in the Statement of Profit and Loss on account of the timing difference arising due to the difference in depreciation as per the provisions of the Companies Act, 2013 and the Income-tax Act, 1961.

12. Impairment of Assets:-

At each Balance Sheet date, the Company assesses whether there is any indication that a fixed asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount is the higher of the asset's net selling price and its value in use. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The resulting impairment loss is recognised in the Statement of Profit and Loss. An impairment loss recognised in prior periods is reversed if there has been a change in the estimates used to determine the recoverable amount, provided that the increased carrying amount of the asset does not exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in the Statement of Profit and Loss.

13. Investment:-

Investments are classified as either current investments or long-term investments. Current investments are carried at the lower of cost and fair value determined on an individual investment basis or by category of investment, as appropriate. Long-term investments are carried at cost. Provision for diminution in the value of long-term investments is made only when such decline is other than temporary in nature. The cost of investments includes acquisition charges such as brokerage, fees and duties. Profit or loss on disposal of investments is determined using the carrying amount of the investments and is recognised in the Statement of Profit and Loss in the year of disposal.

14. Foreign currency transactions:-

Income and expense in foreign currencies are converted at exchange rates prevailing on the date of the transaction. Foreign currency monetary assets and liabilities other than net investments in non-integral foreign operations are translated at the exchange rate prevailing on the balance sheet date and exchange gains and losses are recognised in the statement of profit and loss. Exchange difference arising on a monetary item that, in substance, forms part of an enterprise's net investments in a non-integral foreign operation are accumulated in a foreign currency translation reserve.

JOHNSONCAB ELECTRICALS LIMITED

15. Current and Non-Current classification

The company presents assets and liabilities in the balance sheet on current/non-current classification

i. An asset is treated as current where it is

-Expected to be released or intended to sold or consumed in normal operating cycle

-Held primarily for the purpose of trading

-Expected to be realized within twelve months after the reporting period or

-Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

ii. A liability is treated as current where it is

-Expected to be settled in normal operating cycle

-Held primarily for the purpose of trading

-Due to be settled within twelve months after the reporting period

-There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

iii. Deferred Tax assets/liabilities are classified as non-current assets/liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization/settlement in cash and cash equivalents. The companies have identified twelve months as their operating cycle for classification of their current assets and liabilities.

16. Depreciation/ amortization

Depreciation amount for an asset is the cost of the asset, or other amount substituted for cost, less its estimated residual value.

Depreciation on property, plant and equipment is provided on written down value method over the useful life as prescribed under the Part-C of Schedule-II of the Companies Act, 2013, which is also estimated by the management of the company to be the estimated useful life of the asset. Depreciation for assets purchased/ sold during the year is proportionally charged.

The company estimates the useful life for property, plant and equipment and intangible assets as under:

Particulars	Useful Life (Years)
A) Buildings	
Factory Building	30 Years
B) Plant and Equipment	
Plant and Machinery	15 Years
P&M used in Manufacturing	08 Years
Air Conditioner	15 Years
P&M used in Laboratory	10 Years
C) Furniture and Fixtures	
Office Furniture	10 Years
D) Vehicles	
Vehicle Purchase	08 Years
E) Office Equipments	
Office Equipment	05 Years
Mobile Instruments	05 Years
F) Others	
Computers Equipments	03 Years
Electric Installation	10 Years

17. Government Grants and subsidies

Grants and subsidies from the government are recognised when there is reasonable assurance that:

i. The Company will comply with the conditions attached to them, and

ii. The grant / subsidy will be received.

Government grants related to specific fixed assets are either deducted from the gross value of the related assets or treated as deferred income and recognised in the Statement of Profit and Loss on a systematic basis over the useful lives of the related assets.

Government grants in the nature of revenue are recognised in the Statement of Profit and Loss on a systematic basis over the periods necessary to match them with the related costs which they are intended to compensate.

Government grants in the nature of promoters' contribution, being grants with reference to the total investment in the undertaking or by way of contribution towards its total capital outlay for which no repayment is ordinarily expected, are treated as capital receipts in accordance with Accounting Standard (AS) 12, "Accounting for Government Grants". Such grants are credited to Capital Reserve and are neither recognised in the Statement of Profit and Loss nor deducted from the carrying amount of the related assets.

18. Segment Reporting

The Company is primarily engaged in a single business segment and operates substantially within a single geographical segment. Accordingly, separate segment information as required under Accounting Standard (AS) 17 – Segment Reporting is not applicable.

Note: The above variances arise on account of period-end accounting entries being recorded subsequent to the submission of statements to the bank, which are prepared based on provisional financial information. Consequently, the amounts reported to the bank may differ from those disclosed in the audited financial statements due to reconciliation of balances and year-end accounting adjustments. Such variances are routine in nature and are attributable to the finalisation of the books of account. The management is of the view that these variances do not have any material impact on the financial statements of the Company.

Restated Profit After Tax	**1,341.95**	**546.44**	**252.30**

Explanatory Notes to the above Reconciliation to restated profits made in the Independent Financial Statement of the company for the respective years:

a) Adjustment for Gratuity: Provision for Gratuity is provided in Restated Financials Statement which was not provided in Audited Financial Statements and the provision for gratuity relating to preceding years was adjusted against reserves and surplus.

b) Income Tax Adjustments: Income tax expense has been adjusted to recognise excess/short provision of current tax pertaining to the respective financial years, thereby aligning the tax expense with the period to which it relates.

c) Adjustment for Prepaid Insurance: Insurance expenses have been adjusted to account for the prepaid portion of insurance premium so that the expenditure is recognised in the appropriate accounting period in accordance with the accrual basis of accounting.

d) Provision for Expense: Necessary adjustments have been made for expenses that were outstanding or not provided in the respective financial years. Such expenses have been recognised in the year to which they relate to ensure proper matching of income and expenditure.

e) Interst on Income Tax Payable: Interest relating to income tax liabilities has been recognised in the respective financial years to which such interest pertains, resulting in appropriate adjustments to the Statement of Profit and Loss.

f) Prior Period Expense Adjustment: Adjustments have been made for prior period expenses arising from errors or omissions relating to earlier financial statements in accordance with AS 5. The corresponding impact has been considered in the respective reporting periods while preparing the Restated Financial Statements.

g) Deferred Tax Adjustments: Deferred tax adjustments represent the tax effects of timing differences arising from the restatement adjustments and have been recognised in accordance with the applicable accounting standards. Accordingly, the corresponding impact of such adjustments has been considered in arriving at the restated profits of the Company for the respective periods presented.

(ii) Reconciliation of Restated Shareholders Funds:

The reconciliation of Shareholder's funds as per Audited Financial Statements and Shareholder's funds as per Restated financial statements is presented below. Note : A Reasons for Variations:

1 Net profit ratio(%) : The ratio has increased primarily due to an improvement in the Company's overall profitability during the year.

Note : B Reasons for Variations:

1 Debt Service Coverage Ratio : The ratio has improved primarily due to an increase in the Company's earnings available for servicing debt, driven by higher total income during the year.
2 Return on Equity (ROE)(%) : The ratio has increased primarily due to higher profit after tax, resulting in improved returns to equity shareholders.
3 Trade payables turnover ratio : The ratio has decreased primarily due to a proportionately higher increase in the average trade payables compared to purchases during the year.
4 Net capital turnover ratio : The ratio has increased primarily due to growth in revenue from operations, resulting in more efficient utilization of working capital.
5 Net profit ratio(%) : The ratio has increased primarily due to improved operational performance and higher overall profitability during the year.
6 Return on capital employed (ROCE)(%) : The ratio has increased primarily due to higher earnings before interest and tax, leading to improved returns on capital employed.

Notes to Accounting Ratios:

1) The Ratios have been computed as follows:

a) Basic Earnings per Share = Net Profit after Tax as restated / Weighted Average Number of Equity Shares Outstanding during the year

b) Return on Net worth (%) = Net Profit after Tax as restated / Net Worth * 100

c) Net Asset Value per Equity Share = Net Worth / No. Of Equity shares outstanding at the end of the year

2) Weighted average number of Equity Shares is the number of Equity Shares outstanding at the beginning of the year adjusted by the number of Equity Shares issued during year multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year.

3) The Calculation of Earnings per Share (EPS) as disclosed in the Profit and Loss Account has been made in accordance with Accounting Standard (AS – 20) on Earnings per Share issued by the Institute of Chartered Accountants of India.

4) As there is no dilutive capital in the company, Basic and Diluted EPS are similar.

5) The above Ratios have been computed on the basis of the Restated Financial Information for the respective year.

The above statements should be read with the Notes to Restated Financial Statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion in conjunction with our restated financial statements attached in the chapter titled "Financial Information of the Company" beginning on page 274 of this Draft Red Herring Prospectus. Debt-Equity Ratio	Debt- equity ratio is a gearing ratio which compares shareholder's equity to company debt to assess our company's amount of leverage and financial stability.

SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF PREPARATION OF FINANCIAL STATEMENTS:-

The financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India ("Indian GAAP"), including the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with the relevant rules issued thereunder and other applicable provisions of the Companies Act, 2013. The financial statements have been prepared on an accrual basis under the historical cost convention and are presented in accordance with the requirements of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, as amended from time to time.

The accounting policies have been framed, keeping in view the fundamental accounting assumptions of Going Concern, Consistency and Accrual, as also basic considerations of Prudence, Substance over form, and Materiality. These have been applied consistently, except where a newly issued accounting standard is initially adopted or a revision in the existing accounting standards require a revision in the accounting policy so far in use. The need for such a revision is evaluated on an ongoing basis. The Financial Statements have been prepared on a going concern basis, in as much as the management neither intends to liquidate the company nor to cease operations. Accordingly, assets, liabilities, income and expenses are recorded on a Going Concern basis. Based on the nature of products and services, and the time between the acquisition of assets and realization in cash or cash equivalents, the company has ascertained its operating cycle as 12 months for the purposes of current and non-current classification of assets and liabilities.

The Restated Statements of Assets and Liabilities of the Company as at March 31, 2026, March 31, 2025 and March 31, 2024, and the related Restated Statements of Profit and Loss and Restated Statements of Cash Flows for the period/year ended March 31, 2026, March 31, 2025 and March 31, 2024 (hereinafter collectively referred to as the "Restated Financial Information"), have been compiled by the management from the audited financial statements of the Company for the respective period/year ended March 31, 2026, March 31, 2025 and March 31, 2024. The Restated Financial Information has been prepared to comply, in all material respects, with the provisions of Part I of Chapter III of the Companies Act, 2013 (the "Act"), read with the Companies (Prospectus and Allotment of Securities) Rules, 2014, the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("ICDR Regulations"), as amended, and the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India.

2. USE OF ESTIMATES:-

The preparation of financial statements in conformity with generally accepted accounting principles require estimates and assumptions to be made that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities on the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates and differences between actual results and estimates are recognized in the periods in which the results are known/materialize.The estimates used in the preaparation are prudent and reasonable.

3. INVENTORIES:-

Inventories are valued after providing for obsolescence, as under:

i. Raw materials are valued at lower of cost or net realisable value. Cost is computed on First-In-First-Out (FIFO) basis. However, these items are considered to be realisable at cost if the finished products in which they will be used, are expected to be sold at or above cost. Cost includes purchase price, (excluding those

subsequently recoverable by the enterprise from the concerned revenue authorities), freight inwards and other expenditure incurred in bringing such inventories to their present location and condition.

ii. Finished Goods are valued at lower of cost including related overheads or net realisable value. Cost is computed on First-In-First-Out (FIFO) basis.

iii. Work-in-progress is valued at the lower of cost and net realisable value. Cost comprises the cost of raw materials, direct labour and an appropriate proportion of production overheads incurred up to the stage of completion, determined on the FIFO basis.

Assessment of net realisable value is made at each reporting period end and when the circumstances that previously caused inventories to be written-down below cost no longer exist or when there is clear evidence of an increase in net realisable value because of changed economic circumstances, the write-down, if any, in the past period is reversed to the extent of the original amount written-down so that the resultant carrying amount is the lower of the cost and the revised net realisable value.

4. CASH & CASH EQUIVALENTS:-

Cash and cash equivalents comprise cash in hand, balances with banks, and deposits with original maturities of three months or less, subject to insignificant risk of changes in value.

5. PROPERTY, PLANT AND EQUIPMENT & INTANGIBLE ASSETS:-

(a) Property, Plant and Equipment:
Property, plant and equipment are stated at cost, less accumulated depreciation and impairment losses, if any. The cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable taxes, after deducting trade discounts, rebates and other directly attributable discounts, and any directly attributable expenditure incurred in bringing the asset to its working condition for its intended use. Cost also includes borrowing costs directly attributable to the acquisition or construction of qualifying assets, wherever applicable. Depreciation is provided on the straight-line method over useful lives prescribed in Schedule II of the Companies Act, 2013.

Subsequent expenditure incurred on property, plant and equipment is capitalised only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. Expenditure that results in an increase in the future benefits from the existing asset beyond its previously assessed standard of performance, such as major improvements, modifications or replacement of significant components, is capitalised. All other subsequent expenditures, including routine repairs and maintenance, servicing and day-to-day maintenance costs, are charged to the Statement of Profit and Loss in the period in which they are incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the asset and is recognised in the Statement of Profit and Loss in the period in which the asset is derecognised.

(b) Intangible Assets:
Intangible assets are recognised only when future economic benefits are probable and the cost can be measured reliably. They are carried at cost less accumulated amortisation and impairment losses. No intangible assets were recognised during the year.

(c) Capital Work In Progress :-

Capital Work-in-Progress is carried at cost comprising expenditure incurred on acquisition or construction of capital assets, including directly attributable costs and borrowing costs relating to qualifying assets, to the extent they are not yet ready for their intended use. Capital Work-in-Progress is transferred to the appropriate category of Property, Plant and Equipment upon completion and when the asset is ready for its intended use.

6. Employee Benefits:-

Defined Benefit Plan:

(a) Short-term Employee Benefits

Short-term employee benefits are recognised as an expense at the undiscounted amount in the Statement of Profit and Loss for the period in which the related service is rendered. Liabilities for salaries, wages, bonus, ex-gratia, leave travel assistance and other short-term employee benefits expected to be settled wholly within twelve months after the end of the reporting period are recognised based on the amount expected to be paid.

(B) Post-employment Benefits

Post-employment benefits comprise retirement benefit plans such as gratuity and provident fund.

The Company's gratuity scheme is a defined benefit plan. The obligation in respect of the defined benefit plan is determined by an independent actuary at each Balance Sheet date using the Projected Unit Credit Method. Actuarial gains and losses arising from changes in actuarial assumptions and experience adjustments are recognised immediately in the Statement of Profit and Loss in the period in which they occur.

The Company's contribution to provident fund and other defined contribution plans is recognised as an expense in the Statement of Profit and Loss in the period during which the employee renders the related service. The Company has no further obligation beyond its contributions to such plans.

(C) Other Long-term Employee Benefits

Liabilities in respect of long-term employee benefits, such as compensated absences and leave encashment, are determined by an independent actuary using the Projected Unit Credit Method at the Balance Sheet date. The obligation is measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services rendered by employees up to the reporting date. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss.

7. **Revenue Recognition:-**

Revenue from sale of goods is recognised when significant risks and rewards of ownership in the goods are transferred to the buyer, which generally coincides with dispatch or delivery of goods as per the terms of the contract. Revenue is measured at the fair value of the consideration received or receivable, net of returns, trade discounts, rebates, taxes and applicable duties collected on behalf of government authorities. Revenue is recognised when it is probable that the economic benefits associated with the transaction will flow to the Company and the amount of revenue can be measured reliably. The Company has not deviated from statutorily prescribed manner for recording sales and revenue

8. Borrowings from Bank:-

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of such asset until the time the asset is substantially ready for its intended use or sale. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.

All other borrowing costs are recognized as an expense in the Statement of Profit and Loss in the period in which they are incurred.

9. Earning Per Share:-

Basic earning per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equities shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. The weighted number of equity shares outstanding during the period is adjusted for events such as bonus issue.

10. Provisions, Contingent Liabilities and Contingent Assets:

A provision has been recognized in respect of a present obligation as a result of past event i.e. based on the probability of there being an outflow of resources to settle the obligation, in respect of which a reliable estimate can be made. Provisions have not been discounted to its present value and have been determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. The company does not recognize a contingent liability but discloses its existence in the financial statements.

11. Taxation:-

Tax expense comprises current and deferred tax. Current tax is based on taxable income at enacted rates. Deferred tax is recognised on temporary differences between carrying values and tax bases, using enacted or substantively enacted rates, subject to prudence in recognising deferred tax assets. During the year, deferred tax has been recognised in the Statement of Profit and Loss on account of the timing difference arising due to the difference in depreciation as per the provisions of the Companies Act, 2013 and the Income-tax Act, 1961.

12. Impairment of Assets:-

At each Balance Sheet date, the Company assesses whether there is any indication that a fixed asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount is the higher of the asset's net selling price and its value in use. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The resulting impairment loss is recognised in the Statement of Profit and Loss. An impairment loss recognised in prior periods is reversed if there has been a change in the estimates used to determine the recoverable amount, provided that the increased carrying amount of the asset does not exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in the Statement of Profit and Loss.

13. Investment:-

Investments are classified as either current investments or long-term investments. Current investments are carried at the lower of cost and fair value determined on an individual investment basis or by category of investment, as appropriate. Long-term investments are carried at cost. Provision for diminution in the value of long-term investments is made only when such decline is other than temporary in nature. The cost of investments includes acquisition charges such as brokerage, fees and duties. Profit or loss on disposal of

investments is determined using the carrying amount of the investments and is recognised in the Statement of Profit and Loss in the year of disposal.

14. Foreign currency transactions:-

Income and expense in foreign currencies are converted at exchange rates prevailing on the date of the transaction. Foreign currency monetary assets and liabilities other than net investments in non-integral foreign operations are translated at the exchange rate prevailing on the balance sheet date and exchange gains and losses are recognised in the statement of profit and loss. Exchange difference arising on a monetary item that, in substance, forms part of an enterprise's net investments in a non-integral foreign operation are accumulated in a foreign currency translation reserve.

15. Current and Non-Current classification

The company presents assets and liabilities in the balance sheet on current/non-current classification

i. An asset is treated as current where it is
-Expected to be released or intended to sold or consumed in normal operating cycle
-Held primarily for the purpose of trading
-Expected to be realized within twelve months after the reporting period or
-Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period
All other assets are classified as non-current.

ii. A liability is treated as current where it is
-Expected to be settled in normal operating cycle
-Held primarily for the purpose of trading
-Due to be settled within twelve months after the reporting period
-There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period
All other liabilities are classified as non-current.

iii. Deferred Tax assets/liabilities are classified as non-current assets/liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization/settlement in cash and cash equivalents. The companies have identified twelve months as their operating cycle for classification of their current assets and liabilities.

16. Depreciation/ amortization

Depreciation amount for an asset is the cost of the asset, or other amount substituted for cost, less its estimated residual value.

Depreciation on property, plant and equipment is provided on written down value method over the useful life as prescribed under the Part-C of Schedule-II of the Companies Act, 2013, which is also estimated by the management of the company to be the estimated useful life of the asset. Depreciation for assets purchased/ sold during the year is proportionally charged.

The company estimates the useful life for property, plant and equipment and intangible assets as under:

Particulars	Useful Life (Years)
A) Buildings	
Factory Building	30 Years
B) Plant and Equipment	
Plant and Machinery	15 Years
P&M used in Manufacturing	08 Years
Air Conditioner	15 Years
P&M used in Laboratory	10 Years
C) Furniture and Fixtures	
Office Furniture	10 Years
D) Vehicles	
Vehicle Purchase	08 Years
E) Office Equipments	
Office Equipment	05 Years
Mobile Instruments	05 Years
F) Others	
Computers Equipments	03 Years
Electric Installation	10 Years

17. Government Grants and subsidies

Grants and subsidies from the government are recognised when there is reasonable assurance that:

i. The Company will comply with the conditions attached to them, and
ii. The grant / subsidy will be received.
Government grants related to specific fixed assets are either deducted from the gross value of the related assets or treated as deferred income and recognised in the Statement of Profit and Loss on a systematic basis over the useful lives of the related assets.

Government grants in the nature of revenue are recognised in the Statement of Profit and Loss on a systematic basis over the periods necessary to match them with the related costs which they are intended to compensate.

Government grants in the nature of promoters' contribution, being grants with reference to the total investment in the undertaking or by way of contribution towards its total capital outlay for which no repayment is ordinarily expected, are treated as capital receipts in accordance with Accounting Standard (AS) 12, "Accounting for Government Grants". Such grants are credited to Capital Reserve and are neither recognised in the Statement of Profit and Loss nor deducted from the carrying amount of the related assets.

Significant Developments after March 31, 2026 that may affect our Future Results of Operations:

Subsequent to the reporting period, the shareholders of the Company approved the increase in the Authorised Share Capital by ₹1,80,00,000 through the creation of 18,00,000 equity shares of ₹10 each at the Extraordinary General Meeting held on April 10, 2026. As this is a non-adjusting event occurring after the balance sheet date as per Accounting Standard-4, no adjustment has been made in the financial statements.

The Directors confirm that except increase in Authorised Share Capital, there have been no events or circumstance since the date of the last financial statements as disclosed in the Draft Red Herring Prospectus which materially or adversely affect or is likely to affect the profitability of our Company or the value of our assets, or our ability to pay liabilities within next twelve months.

Factors that may affect the results of operations

Our financial performance and results of operations are influenced by a number of important factors, some of which are beyond our control. Our business is subjected to various risks and uncertainties including those discussed in the section titled "Risk Factors" on page 30 of this Draft Red Herring Prospectus. The following important factors could cause actual results to differ materially from the expectations include, among others:

1. Cost and availability of raw materials

Our business depends significantly on the consistent supply of raw materials (i.e. copper and aluminium) and other raw materials (i.e. insulating, consumables and packaging materials), which are essential components in manufacturing our products. While we do not have any long-term agreements with any of our raw material suppliers, we have maintained business relationships with most of our major suppliers.
For last three Fiscals 2026, 2025 and 2024 our expenditure on consumption of imported and domestic raw material was as follows:

Particulars	FY 2025-26		FY 2024-25		FY 2023-24	
	Amount (₹ in Lakhs)	% of Purchases	Amount (₹ in Lakhs)	% of Purchases	Amount (₹ in Lakhs)	% of Purchases
Imported Raw material	710.98	3.60%	-	-	-	-
Domestic Raw material	19,059.99	96.40%	11,950.17	100.00%	8,246.65	100.00%
Total	**19,770.96**	**100.00%**	**11,950.17**	**100.00%**	**8,246.65**	**100.00%**

In addition to the supply challenges, the costs of raw materials are subject to market fluctuations driven by inflation, foreign exchange rate volatility, and changes in government policies, such as tariffs and environmental regulations.
While we do not rely on any single source for raw materials and components required for our operations, however, if any of our suppliers fail to supply raw materials on a timely basis at reasonable prices, we may be unable to manufacture products for our customers or may be unable to ensure the timely delivery of the same. Any material increase in raw material prices may result in corresponding increases in our product costs and affect our gross margins.

2. Regulatory Framework

We have obtained all regulatory permissions which are necessary to run our business, Further, some of the approvals are granted for fixed periods of time and need renewals, which are obtained in the course of business, however, there may be change in statutory regulations at any time which cannot be predicted by us. There can be no assurance that the change in regulations will not impact our operations in the future.

3. Market & Economic conditions

India is one of the largest economies and is growing at a rapid pace. But in this globalised economy, all the businesses face an uncertain level of volatility from unexpected global events which ranges from global pandemics to wars, to weather changes to supply chain disruption, which may change the economic dynamics and the purchasing capability of the end customers. At the time of market slowdown, the demand falls which has adverse impact on our business. Certain general macro-economic factors that can affect the industries we cater to and, thereby, demand for our products, include:

- local and global economic or fiscal crises or instability;
- demographic conditions and population dynamics, such as the absolute size of a market and the growth rates of the population in that market;
- local and global fiscal and monetary dynamics, such as rise or fall in interest rates, foreign exchange rates and inflation rates;
- global and local political and regulatory measures and developments, such as government policies to support the industries in which our customers operate, tax incentives or other subsidies or bilateral trade agreements;
- The cyclical nature of general macro-economic conditions.

4. Competition

We face significant competition in our business from other manufacturers and suppliers of Wires and Cables. Our competitors may possess wider product ranges, larger sales teams, greater intellectual property resources, Large-Scale Manufacturing Infrastructure, greater brand recognition and greater access to financial, research and development than us. Our competitors may enter into business combinations or alliances that strengthen their competitive positions or prevent us from taking advantage by entering into such business combinations or alliances. Increasing competition may result in pricing pressures or decreasing profit margins or failure to improve our market position, any of which could substantially harm our business and results of operations. Factors, such as the availability of our products, our competitiveness, manufacturing capabilities, technological advancement, brand recognition, the strength of our sales and distribution network, the quality and price of our products have an effect on our market position and our ability to win customers in competitive situations. Our company will be required to compete effectively with our existing and potential competitors.

5. Our ability to successfully implement our growth strategy and expansion plans

We intend to strengthen our manufacturing capabilities and support our future growth by expanding our existing manufacturing infrastructure. As on March 31, 2026, our Company has a combined installed manufacturing capacity of 79,950 KMs across our two manufacturing units. To cater to the growing demand for our products and support our long-term growth plans, we propose to expand our manufacturing capacity through the construction of an additional factory shed and installation of additional plant and machinery at our manufacturing facility at Unit-2.

In executing this expansion, we may face personnel and operational challenges leading to delays or increased costs. Risks include labour shortages, procurement issues, higher equipment or manpower costs, inadequate equipment performance, construction delays or defects, regulatory restrictions, delays in approvals, higher pre-operating expenses, taxes, finance charges, working capital requirements, environmental costs, and other external factors. Because of long-term nature of such investments, actual returns may differ from estimates, and any shortfall could negatively affect our financial condition, cash flows and results of operations

RESULTS OF OPERATIONS FOR THE FINANCIAL YEAR ENDED MARCH 31, 2026, 2025 AND 2024

Fiscal 2026 compared with Fiscal 2025

Total Income/Revenue

Our Total income/Revenue is increased by 7134.14 ₹ lakhs or 50.96 % from ₹ 140,00.01 Lakhs in FY 2024-25 to ₹ 21,134.14 Lakhs in FY 2025-26, primarily due to an increase in our revenue from operations.

Revenue from Operations

In Fiscal 2026, Revenue from Operations had increased by ₹ 7068.28 lakhs or 50.56%, from ₹ 13,979.13 lakhs in Fiscal 2025 to ₹21047.41 lakhs in Fiscal 2026. The growth in revenue from operations is driven by increase in Installed capacity and actual production.

Particulars	Fiscal 2026			Fiscal 2025
	KMs	% Increase/ (Decrease) growth	Increase/ (Decrease) (Kms)	KMs
Installed Capacity	79,950	66.91%	32,050	47,900
Actual Production	63,659	79.39%	27,569	36,090

Note: Certified by the Raj Techno Essential, an Independent Chartered Engineer by way of their certificate dated June 01, 2026.

Our total installed capacity had increased by 32,050 KMs or 66.91% from 47,900 KMs in Fiscal 2025 to 79,950 KMs in Fiscal 2026. Whereas our actual production had increased by 27,569 KMs or 79.39% from 36,090 KMs in Fiscal 2025 to 63,659 KMs in Fiscal 2026.

The increase in production was due to our manufacturing Unit-II being operational entire Fiscal 2026, which enhanced our overall manufacturing capacity and enabled us to cater to higher customer demand. In Fiscal 2026, Unit- II contributed ₹ 6253.28 Lakhs or 29.71% of Revenue from operations compared to ₹ 943.47 Lakhs or 6.75% in Fiscal 2025. There was an increase in revenue from Unit-II of ₹ 5309.81 Lakhs or 562.80% in Fiscal 2026 compared to Fiscal 2025. Consequently, the combined impact of higher production volumes and the Unit-II being operational entire Fiscal 2026 resulted in an increase in revenue from operations during Fiscal 2026.

Other income

In Fiscal 2026, Other Income had increased by ₹65.86 lakhs or 315.41 %, from ₹20.88 lakhs in Fiscal 2025 to ₹ 86.74 lakhs in Fiscal 2026. The increase was mainly due to Subsidy received by our company amounting to Rs.56.74 Lakhs in Fiscal 2026. The subsidy was received under the Aatmanirbhar Gujarat Scheme-2022(MSME) Scheme of the Gujarat State Government.

Cost of materials consumed

In Fiscal 2026, Cost of materials consumed had increased by ₹ 5,564.65 Lakhs or 50.53%, from ₹11,013.09 Lakhs in Fiscal 2025 to ₹16,577.75 Lakhs in Fiscal 2026. The increase was mainly due to increase in actual production by 27,569 KMs or 79.39% from 36,090 KMs in Fiscal 2025 to 63,659 KMs in Fiscal 2026. (*Certified by the Raj Techno Essential, an Independent Chartered Engineer by way of their certificate dated 01st June 2026)*

Purchases of Stock-in-Trade

In Fiscal 2026, Purchases of Stock-in-Trade had increased by ₹665.57 Lakhs or 50.12%, from ₹1327.88 Lakhs in Fiscal 2025 to ₹1993.45 Lakhs in Fiscal 2026. The increase was mainly due to the significant increase in the market prices of raw materials during the Fiscal 2026, the Company disposed of a portion of its inventory, resulting in higher realization.

Changes in Inventories of work in progress and finished goods

In Fiscal 2026, Changes in Inventories of work in progress and finished goods had increased by ₹ 591.41 Lakhs or 202.41%, from ₹ (292.19) Lakhs in Fiscal 2025 to ₹ (883.60) Lakhs in Fiscal 2026. The movement was primarily attributable to higher closing inventory levels in line with increased scale of operations and inventory management requirements.

Employee Benefit Expenses

Our employee benefit cost had decreased by ₹59.88 lakhs or 20.78%, from ₹288.21 lakhs in Fiscal 2025 to ₹228.33 lakhs in Fiscal 2026. The main reason for decrease in total Employee Benefit Expenses is Director's remuneration. The director's remuneration is decreased by Rs.76.00 Lakhs or 46.91% in Fiscal 2026 compared to Fiscal 2025. The decrease in directors' remuneration was on account of the Company's focus on business expansion and capital investment during Fiscal 2026. The directors adopted a measured approach towards remuneration while prioritising investments for future growth.

EBITDA (Earnings before Interest, Taxes, Depreciation, and Amortization)

In Fiscal 2026, EBITDA had increased by ₹1192.82 Lakhs or 98.30%, from ₹1213.50 Lakhs in Fiscal 2025 to ₹2406.32 Lakhs in Fiscal 2026. Our EBITDA margin was also improved to 11.43% in Fiscal 2026 compared to 8.68% in Fiscal 2025. The increase in EBITDA during Fiscal 2026 was attributable to multiple operational factors, including the higher scale of operations following the commencement of commercial operations at Unit-II, increased production volumes, better product mix and improved operational efficiencies. During Fiscal 2026, the Company's production increased from 36,090 KMs to 63,659 KMs, enabling the Company to achieve 50.56% growth in revenue. Further, better sales realisation also improved operating profitability during Fiscal 2026.

Finance Cost

Finance cost during the year had increased by ₹138.68 lakhs or 36.28% from ₹382.27 lakhs in Fiscal 2025 to ₹520.94 lakhs in Fiscal 2026. The increase was primarily due to higher utilization of borrowings for business expansion and working capital requirements. Further, processing charges increased to ₹ 42.32 Lakhs in Fiscal 2026 from ₹11.63 Lakhs in Fiscal 2025.

Depreciation and Amortization Expenses

Depreciation expenses had increased by ₹94.06 lakhs from ₹126.39 lakhs in Fiscal 2025 to ₹220.45 lakhs in Fiscal 2026. The increase was primarily attributable to addition of fixed assets during the year amounting to ₹1,628.98 lakhs, including plant and machinery, Factory Building/Shed, office equipment, furniture and fixtures, computers, and vehicles.

Other Expenses

Other expenses had increased by ₹265.83 lakhs or 63.75% from ₹417.00 lakhs in Fiscal 2025 to ₹682.84 lakhs in Fiscal 2026. Other expenses are comprised of manufacturing expenses such as freight and cartage inward Expenses, Discount and Rate Difference, power and fuel expenses, testing and certification fees, and repair and maintenance expenses related to plant and machinery. The expenses also included selling, administrative and general expenses such as advertisement and business promotion expenses, auditors' remuneration, insurance, rent, legal and professional fees, communication expenses, printing and stationery expenses, vehicle running and rent expenses, rates and taxes, travelling expenses, office expenses, tender expenses, Corporate Social Responsibility expense and miscellaneous expenses.

Profit before Tax

Due to strong growth in our revenues from operations, our Profit before tax had increased by ₹1056.63 lakhs or 143.30% from ₹ 737.35 lakhs in Fiscal 2025 to ₹1793.99 lakhs in Fiscal 2026. An increase of 143.30% was due to higher revenue from operations, improved operational efficiency, better product mix, and increased contribution from manufacturing activities during the year.

Profit after Tax

After accounting for taxes at applicable rates, our Profit after Tax had increased by ₹795.51 lakhs or 145.58%, from ₹546.44 lakhs in Fiscal 2025 to 1341.95 ₹ lakhs in Fiscal 2026.

Below reasons broadly quantifies the increase in overall profitability of our company:

- **Growth in Revenue from operations:**

In Fiscal 2026, Revenue from Operations had increased by ₹ 7068.28 lakhs or 50.56%, from ₹ 13,979.13 lakhs in Fiscal 2025 to ₹21047.41 lakhs in Fiscal 2026.

- **Manufacturing Unit-II:**

In Fiscal 2026, our manufacturing Unit-II being operational entire Fiscal 2026, which enhanced our overall manufacturing capacity and enabled us to cater to higher customer demand. Unit wise revenue bifurcation is as under:

Particulars	FY 2025-26		FY 2024-25	
	Amount (₹ in Lakhs)	% of Revenue from Operations	Amount (₹ in Lakhs)	% of Revenue from Operations
Unit-I	14,688.05	69.79%	13,035.66	93.25%
Unit-II	6,253.28	29.71%	943.47	6.75%

• Investment in Plant and machinery:

During Fiscal 2026, The Company invested in ₹1425.25 in the acquisition and installation of advanced plant and machinery at manufacturing Units which enabled the Company to increase in installed capacity, achieve higher production volumes, improved production efficiency and reducing bottlenecks in manufacturing process.

- **Better product mix:**

Unit-II was started to support demand of LT XLPE Armoured and Unarmoured Power and control Cables. Also, we increased our focus on value-added and relatively higher-margin products, and started manufacturing of project-based cable requirements such as Welding Cables, Submersible Cables and Photovoltaic (Solar DC) Cables, thereby contributing to improved operating profitability.

• Improved operational efficiency:

The Company's operational efficiencies are reflected in the trend of its Cost of Goods Sold ("COGS") as a percentage of revenue, as set out in the table below

Particulars	FY 2025-26	FY 2024-25
Revenue from operations (₹ in Lakhs) (A)	21,047.41	13,979.13
Cost of Goods sold (₹ in lakhs)	17,915.93	12,337.00
Cost of Goods sold as a Percentage of Revenue from Operations (%)	85.12%	88.25%
% Savings in COGS Year on Year (B)**	3.13%	
Savings in COGS as compared to previous year impacting the profits (A*B)*** (₹ in Lakhs)	658.78	

**COGS is cost of materials consumed as per the restated financial statements.*
*** % Savings in COGS Year on Year is calculated by difference between COGS as % of revenue from operations.*
****Savings in COGS is calculated by multiplying the % savings in COGS as a % of Revenue from Operations in the same year.*

Fiscal 2025 compared with Fiscal 2024

Total Income/Revenue

Our Total income/Revenue is increased by ₹5104.83 lakhs or 57.39 % from ₹8,895.18 Lakhs in FY 2023-24 to ₹14,000.01 Lakhs in FY 2024-25, primarily due to increase in our revenue from operations. This increase was primarily driven by higher Revenue from Operations and Other Income.

Revenue from Operations

In fiscal 2025, Revenue from Operations had increased by ₹ 5145.24 lakhs or 58.24 % from ₹8,833.89 Lakhs in FY 2023-24 to ₹13,979.13 Lakhs in FY 2024-25, primarily due to the growth was primarily driven by higher demand for the Company's products. The increase was primarily attributable to higher sales arising from increased execution of government tenders, particularly in the railway sector, and higher demand from customers in the renewable energy industry. Revenue from railway sector increased by ₹2097.90 or 427.48% from ₹490.76 in Fiscal 2024 to ₹2588.66 Lakhs Fiscal 2025. Accordingly, the combined impact of higher product demand, increased participation in government and railway tenders, growing opportunities in the renewable energy sector and efficient execution of orders resulted in the overall growth in revenue during the fiscal.

Other income

In Fiscal 2025, Other Income had decreased by ₹ 40.41 lakhs or 65.93 %, from ₹61.29 lakhs in Fiscal 2024 to ₹20.88 lakhs in Fiscal 2025. The decrease was due to decrease in profit of sale of assets and subsidy income in Fiscal 2025. Profit of sale of assets decreased by ₹23.39 lakhs in Fiscal 2025 compared to Fiscal 2024 as there was no sale of asset during the year. Decrease in subsidy income by ₹29.74 lakhs in Fiscal 2025 compared to Fiscal 2024. This was partially offset by increase in Interest income on Deposits made for Tenders by ₹ 6.82 lakhs, ₹8.03 in Fiscal 2025 compare to ₹1.21 lakhs in Fiscal 2024.

Cost of materials consumed

In Fiscal 2025, Cost of materials consumed had increased by ₹ 4153.94 Lakhs or 60.56 %, from ₹ 6859.16 Lakhs in Fiscal 2024 to ₹11013.09 Lakhs in Fiscal 2025. The increase was mainly due to increased raw material procurements to support our increased sales volumes resulting in an increase in our revenue from operations.

Purchases of Stock-in-Trade

In Fiscal 2025, Purchases of Stock-in-Trade had increased by ₹ 291.10 Lakhs or 28.08 %, from ₹ 1036.79 Lakhs in Fiscal 2024 to ₹1327.88 Lakhs in Fiscal 2025. The increase was primarily attributable to favourable prevailing market prices for certain raw materials, which enabled the Company to realize higher value from a portion of its raw material inventory during the year. Such disposal was undertaken on an opportunistic basis and does not form part of the Company's ordinary course of manufacturing operations.

Changes in Inventories of work in progress and finished goods

In Fiscal 2025, Changes in Inventories of work in progress and finished goods had increased by ₹33.87 Lakhs or 13.11 %, from ₹ (258.32) Lakhs in Fiscal 2024 to ₹ (292.19) Lakhs in Fiscal 2025. The increase was mainly due to higher closing inventory levels in line with increased scale of operations and inventory management requirements.

Employee Benefit Expenses

Our employee benefit cost had decreased by ₹68.70 lakhs or 19.25 %, from ₹ 356.91 lakhs in Fiscal 2024 to ₹ 288.21 lakhs in Fiscal 2025. The decrease was mainly due to Director’s remuneration. Director’s remuneration decreased by ₹123.00 lakhs or 43.16% during Fiscal 2025 compared to Fiscal 2024. The decrease in directors' remuneration was attributable to the Company's focus on funding its expansion and growth initiative including working capital requirements.

EBITDA (Earnings before Interest, Taxes, Depreciation, and Amortization)

In Fiscal 2025, EBITDA had increased by ₹671.41 Lakhs or 123.86%, from ₹542.09 Lakhs in Fiscal 2024 to ₹ 1213.50 Lakhs in Fiscal 2025. EBITDA margin was improved from 6.14% in Fiscal 2024 to 8.68% Fiscal 2025. This improvement was mainly attributable to operating leverage arising from higher production levels and increased business volumes. Actual production increased by 10,840 KMs, or 42.93%, during Fiscal 2025 compared to Fiscal 2024, enabling better absorption of fixed manufacturing costs. Further, better utilization of resources and effective cost management resulted in a reduction in the cost of goods sold ("COGS") by 2.25%, which contributed ₹314.53 lakhs to the increase in EBITDA and EBIDTA margin.

Finance Cost

Finance cost during the year had increased by ₹150.17 lakhs or 64.70 % from ₹232.09 lakhs in Fiscal 2024 to ₹382.27 in Fiscal 2025 due to increase in utilization of Cash credit facility for working capital.

Depreciation and Amortization Expenses

Depreciation expenses had increased by ₹75.03 lakhs from ₹ 51.35 lakhs in Fiscal 2024 to ₹ 126.39 lakhs in Fiscal 2025. This increase was on account of addition of Factory Building/Shed, Plant & Machinery, Furniture and Fixture and other equipment amounting to ₹1015.00 lakhs during previous Fiscal 2024. Cost of construction of Factory building/shed and purchase of machineries were capitalised during Fiscal 2024.

Other Expenses

Other expenses had increased by ₹130.07 lakhs or 45.33% from ₹286.93 lakhs in Fiscal 2024 to ₹417.00 lakhs in Fiscal 2025. This increase was primarily driven by the higher scale of operations during the year, resulting in increased operating expenses, including inward transportation, repairs and maintenance of machinery, insurance, tender-related expenses, liquidity damages, and interest paid to suppliers. The increase was further supported by higher advertisement and promotional expenditure incurred during the year.

Profit before Tax

Our Profit before tax had increased by ₹407.08 lakhs or 123.26 % from ₹ 330.27 lakhs in Fiscal 2024 to ₹737.35 lakhs in Fiscal 2025. Growth in profit before tax was led by higher revenue from operations, improved operational efficiency, and increased contribution from manufacturing activities during the year

Profit after Tax

After accounting for taxes at applicable rates, our Profit after Tax had increased by ₹294.14 lakhs or 116.58%, from ₹ 252.30 lakhs in Fiscal 2024 to ₹ 546.44 lakhs in Fiscal 2025. The key operational factors contributing to improved profitability include:

- **Increase in revenue due to higher production volume:**

The Company's Revenue from Operations had increased by ₹ 5145.24 lakhs or 58.24 % in Fiscal 2025. Increase in revenue is driven by increase in production and higher volumes. The increase in production was supported by the addition of plant and machinery during the previous fiscal year, which enhanced the Company's manufacturing capacity and enabled actual production to increase by 10,840 KMs, or 42.93%, during Fiscal 2025 as compared to Fiscal 2024.During previous FY 2023-24 the company had invested ₹498.72 lakhs in Plant and machineries.

• **Saving in COGS**

Particulars	FY 2024-25	FY 2023-24
Revenue from operations (₹ in Lakhs) (A)	13,979.13	8,833.89
Cost of Goods sold* (₹ in lakhs)	12,337.00	7,994.53
Cost of Goods sold as a Percentage of Revenue from Operations (%)	88.25%	90.50%
% Savings in COGS Year on Year (B)**	2.25%	
Savings in COGS as compared to previous year impacting the profits (A*B)*** (₹ in Lakhs)	314.53	

**COGS is cost of materials consumed as per the restated financial statements.*
*** % Savings in COGS Year on Year is calculated by difference between COGS as % of revenue from operations.*
****Savings in COGS is calculated by multiplying the % savings in COGS as a % of Revenue from Operations in the same year.*

Cost of goods sold ("COGS") as a percentage of revenue from operations improved from 90.50% in Fiscal 2024 to 88.25% in Fiscal 2025, reflecting improved cost absorption on account of higher production volumes and improved average realizations. Consequently, the improvement in gross margins contributed approximately ₹314.53 lakhs to the Company's profitability, supporting the overall increase in profit after tax.
The above factors collectively resulted in an improvement in the Company's profit after tax during Fiscal 2025.

SECTION VII – LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATIONS AND MATERIAL DEVELOPMENTS

Except as stated in this section, there are no outstanding:(i) criminal proceedings; (ii) actions by statutory or regulatory authorities; (iii) claims relating to direct and indirect taxes; (iv) disciplinary actions including penalties imposed by SEBI or stock exchanges against` the Promoter in the last five financial years, including outstanding action; (v) Other Pending Litigation based on Material Litigations (as disclosed herein below); involving our Company, its Directors, Promoters or (vi) litigation involving our Group Company, which has a material impact on our Company.

Except as stated in this section, there are no: (i) criminal proceedings and (ii) actions by statutory or regulatory authorities, involving our Key Managerial Personnel's ("KMP's") and Senior Management.

For the purpose of (v) & (vi) above, Our Board, in its meeting held on April 25, 2026 determined that outstanding legal proceedings involving the Company, its Directors, Promoters and Group Company will be considered as material litigation ("Material Litigation") based on lower of the threshold criteria mentioned below:

i. *the aggregate monetary claim made in any such pending proceeding is equal to or in excess of*
   a. *two percent of turnover, as per the last Restated audited financial statements of the Company being ₹ 420.95 lakhs; or*
   b. *two percent of net worth, as per the last Restated audited financial statements of the Company being ₹ 62.88 lakhs; or*
   c. *five percent of the average of absolute value of profit or loss after tax, as per the last three audited Restated financial statements of the Company being ₹ 35.68 lakhs, whichever is lower or*

ii. *where monetary liability is not quantifiable or does not exceed the threshold mentioned in point (a) above, the outcome of any such pending proceedings may have a material bearing on the business, operations, performance, prospects, financial position or reputation of the Company; or*

iii. *any such litigation which does not meet the criteria set out in (i) above and an adverse outcome in which would materially and adversely affect the operations or financial position of the Company.*

It is clarified that for the above purposes, pre-litigation notices received by Relevant Parties, unless otherwise decided by our Board, are not evaluated for materiality until such time that the Relevant Parties are impleaded as defendants in litigation proceedings before any judicial forum.

Except as stated in this Section, there are no outstanding material dues to creditors of our Company. For this purpose, our Board has considered and adopted a policy of materiality for identification of material outstanding dues to creditors by way of its resolution dated April 25, 2026. In terms of the materiality policy, creditors of our Company to whom amounts outstanding dues to any creditor of our Company exceeding 5% i.e. ₹ 54.14 Lakhs of the total trade payables as per the Restated Financial Statements of our Company disclosed in this Draft Red Herring Prospectus, would be considered as material creditors.
Details of outstanding dues to micro, small and medium enterprises and other creditors separately giving details of number of cases and amount involved, shall be uploaded and disclosed on the website of the Company as required under the SEBI ICDR Regulations.

For outstanding dues to any micro, small or medium enterprise, the disclosure shall be based on information available with our Company regarding the status of the creditor as defined under the Micro, Small and Medium Enterprises Development Act, 2006 as amended, read with the rules and notification thereunder, as amended, as has been relied upon by the Statutory Auditors.

Unless stated to the contrary, the information provided below is as of the date of this Draft Red Herring Prospectus.

In terms of SEBI Master Circular, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated September 2, 2021, SEBI/HO/CFD/DIL2/CIR/P/2022/51 date April 20, 2021 and SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022 subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days. Further, the investors shall be compensated by the SCSBs at the rate higher of ₹100 per day or 15% per annum of the application amount in the events of delayed or withdrawal of applications, blocking of multiple amounts for the same UPI application, blocking of more amount than the application amount, delayed unblocking of amounts for nonallotted/partially allotted applications for the stipulated period. In an event there is a delay in redressal of the investor grievance in relation to unblocking of amounts, the Book Running Lead Manager shall compensate the investors at the rate higher of ₹100 per day or 15% per annum of the application amount.

SEBI pursuant to its circular bearing reference number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 has reduced the time taken for listing of specified securities after the closure of public issue to 3 working days (T+3 days) as against the present requirement of 6 working days (T+6 days). 'T' being issue closing date. In partial modification to circulars dated March 16, 2021 and April 20, 2022, the compensation to investors for delay in unblocking of ASBA application monies (if any) shall be computed from T+3 day. The provisions of this circular shall be applicable, on voluntary basis for public issues opening on or after September 1, 2023 and on mandatory basis for public issues opening on or after December 1, 2023. Our Company shall follow the timeline prescribed under the SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023. The timelines prescribed for public issues as mentioned in SEBI circulars dated November 1, 2018, September 28, 2019, November 8, 2019, March 30, 2020, March 16, 2021, September 2, 2021, and April 20, 2022 shall stand modified to the extent stated in this Circular.

All grievances relating to the Issue may be addressed to the Registrar to the Issue, giving full details such as name, address of the applicant, Bid application number, number of Equity Shares Bid for, amount paid on Bid application and the bank branch or collection center where the application was submitted.

All grievances relating to the ASBA process may be addressed to the Registrar to the Issue with a copy to the relevant SCSB or the member of the Syndicate (in Specified Cities) or the Sponsor Bank, as the case may be, where the Application Form was submitted by the ASBA Bidder or through UPI Mechanism, giving full details such as name, address of the Bidder, Bid application number, UPI Id, number of Equity Shares applied for, amount blocked on application and designated branch or the collection center of the SCSBs or the member of the Syndicate (in Specified Cities), as the case may be, where the Application Form was submitted by the ASBA Bidder or Sponsor Bank.

Our Company has obtained authentication on the SCORES in terms of SEBI circular no. CIR/OIAE/1/2013 dated April 17, 2013 and complied with the SEBI circular (CIR/OIAE/1/2014/CIR/OIAE/1/2013) dated December 18, 2014 in relation to redressal of investor grievances through SCORES. Our Company has not received any complaints as on the date of this Draft Red Herring Prospectus.

Disposal of Investor Grievances by our Company

The Company has appointed Registrar to the Issue, to handle the investor grievances in co-ordination with our Company. All grievances relating to the present Issue may be addressed to the Registrar with a copy to the Compliance Officer, giving full details such as name, address of the Applicant, number of Equity Shares applied for, amount paid on application and name of bank and branch. The Company would monitor the work of the Registrar to the Issue to ensure that the investor grievances are settled expeditiously and satisfactorily. The Registrar to the Issue will handle investor's grievances pertaining to the Issue. A fortnightly status report of the complaints received and redressed by them would be forwarded to the Company. The Company would also be coordinating with the Registrar to the Issue in attending to the grievances to the investor.

All grievances relating to the ASBA process and UPI may be addressed to the SCSBs, giving full details such as name, address of the Applicant, number of Equity Shares applied for, amount paid on application and the Designated Branch of the SCSB where the Application Form was submitted by the ASBA Applicant. We estimate that the average time required by us or the Registrar to the Issue or the SCSBs for the redressal of routine investor grievances will be seven (7) business days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, we will seek to redress these complaints as expeditiously as possible.

The Registrar to the Issue shall obtain the required information from the SCSBs for addressing any clarifications or grievances of ASBA applicants or UPI Payment Mechanism Applicants. Our Company, the Book Running Lead Manager and the Registrar to the Issue accept no responsibility for errors, omissions, commission or any acts of SCSBs / Sponsor Bank including any defaults in complying with its obligations under applicable SEBI (ICDR) Regulations.

Our Company will obtain authentication on the SCORES in terms of the SEBI circular bearing number CIR/OIAE/1/2013 dated April 17, 2013 read with SEBI circular bearing number SEBI/HO/OIAE/IGRD/CIR/P/2021/642 dated October 14, 2021 n relation to redressal of investor grievances through SCORES. The Equity Share have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, —U.S. personal (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in off-shore transactions in reliance on Regulations under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Nomination Facility to Investor

In accordance with Section 72 of the Companies Act, 2013, the sole or first Bidder, along with other joint Bidder, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidder, death of all the Bidders, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72 of the Companies Act, 2013 be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become

entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Registered Office of our Company or to the Registrar and Transfer Agent of our Company.

In accordance with Section 72 of the Companies Act, 2013, any Person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- To register himself or herself as the holder of the Equity Shares; or
- To make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 (ninety) days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the allotment of Equity Shares in the Issue is in dematerialized form, there is no need to make a separate nomination with us. SEBI vide circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 has reduced the post issue timeline for IPOs. The revised timeline of T+3 days has been made applicable in two phases, i.e., voluntary for all public issues opening on or after September 1, 2023 and mandatory on or after December 1, 2023. Accordingly, the Issue has been made under UPI Phase III, subject to the timing of the Issue and any circulars, clarification or notification issued by the SEBI from time to time, including with respect to SEBI circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023.

The SEBI is in the process of streamlining and reducing the post Issue timeline for initial public offerings. Any circulars or notifications from the SEBI after the date of the Draft Red Herring Prospectus may result in changes to the above-mentioned timelines. Further, the Issue procedure is subject to change to any revised circulars issued by the SEBI to this effect.

In terms of the UPI Circulars, in relation to the Issue, the BRLM will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the Allotment and listing procedure within three Working Days from the Bid/Issue Closing Date or such other time as prescribed by SEBI, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

The BRLM will be required to submit reports of compliance with listing timelines and activities, identifying non- adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

In terms of the UPI Circulars, in relation to the Issue, the BRLMs will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within three Working Days from the Bid / Issue Closing Date, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Submission of Bids

Bid/Issue Period (except the Bid/Issue Closing Date)

Submission and Revision in Bids: Only between 10.00 a.m. and 5.00 p.m. (Indian Standard Time ("IST")

Bid/Issue Closing Date

Submission and Revision in Bids: Only between 10.00 a.m. and 3.00 p.m. IST

On the Bid/Issue Closing Date, the Bids shall be uploaded until:

1. 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and
2. until 5.00 p.m. IST or such extended time as permitted by the Stock Exchange, in case of Bids by Individual Bidders (Who applies for minimum application size).

(The remainder of this page is intentionally left blank)

Bids will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holiday).

On the Bid/Issue Closing Date, extension of time may be granted by the Stock Exchange only for uploading Bids received from Individual Bidders (Who applies for minimum application size) after taking into account the total number of Bids received and as reported by the BRLM to the Stock Exchange.

The Registrar to the Issue shall submit the details of cancelled/ withdrawn/ deleted applications to the SCSBs on a daily basis within 60 minutes of the Bid closure time from the Bid/ Issue Opening Date till the Bid/ Issue Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLM and the RTA on a daily basis.

To avoid duplication, the facility of re-initiation provided to Syndicate Members, if any shall preferably be allowed only once per Bid/batch and as deemed fit by the Stock Exchange, after closure of the time for uploading Bids.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.

Due to limitation of time available for uploading the Bids on the Bid/Issue Closing Date, Bidders are advised to submit their Bids one day prior to the Bid/Issue Closing Date. Any time mentioned in this Draft Red Herring Prospectus is Indian Standard Time. Bidders are cautioned that, in the event, large number of Bids are received on the Bid/Issue Closing Date, as is typically experienced in public offerings, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Issue. Bids will be accepted only during Monday to Friday (excluding any public holiday). None among our Company or any Member of the Syndicate shall be liable for any failure in (i) uploading the Bids due to faults in any software/ hardware system or blocking of application amount by the SCSBs on receipt of instructions from the Sponsor Bank on account of any errors, omissions or non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in, or otherwise, in the UPI Mechanism.

In case of any discrepancy in the data entered in the electronic book vis-a-vis data contained in the physical Bid cum Application Form, for a particular Bidder, the details of the Bid file received from the Stock Exchanges may be taken. Our Company in consultation with the BRLM, reserve the right to revise the Price Band during the Bid/Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. The Floor Price shall not be less than the face value of the Equity Shares.

In case of any revision to the Price Band, the Bid/Issue Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid/Issue Period not exceeding a total of 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company in consultation with the BRLM, for reasons to be recorded in writing, extend the Bid/Issue Period for a minimum of three Working Days, subject to the Bid/ Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a public notice, and also by indicating the change on the respective websites of the BRLM and the terminals of the Syndicate Members, if any and by intimation to SCSBs, other Designated Intermediaries and the Sponsor Bank, as applicable. In case of revision of Price Band, the Bid Lot shall remain the same.

Minimum Subscription and Underwriting

This Issue is not restricted to any minimum subscription level. This issue is 100% underwritten as per Regulation 260(1) of SEBI ICDR Regulations. If the Issuer does not receive the subscription of 100% of the Issue through this Issue document including devolvement of Underwriter within sixty (60) days from the date of closure of the Issue, the issuer shall forthwith refund the entire subscription amount received. If there is a delay beyond four days after the issuer becomes liable to pay the amount, the issuer shall pay interest as prescribed under law.

Application by Eligible NRIs, FPIs or VCFs registered with SEBI

It is to be understood that there is no reservation for Eligible NRIs, FPIs or VCF registered with SEBI. Such Eligible NRIs, FPIs or VCF registered with SEBI will be treated on the same basis with other categories for the purpose of Allocation.

NRIs, FPIs/FIIs and foreign venture capital investors registered with SEBI are permitted to purchase shares of an Indian company in a public issue without the prior approval of the RBI, so long as the price of the equity shares to be issued is not less than the price at which the equity shares are issued to residents. The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment (FDI) Policy and the non-resident shareholding is within the sectoral limits under the FDI policy; and (ii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

The current provisions of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, provides a general permission for the NRIs, FPIs and foreign venture capital investors registered with SEBI to invest in shares of Indian companies by way of subscription in an IPO. However, such investments would be subject to other investment restrictions under the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, RBI and/or SEBI regulations as may be applicable to such investors.

The Allotment of the Equity Shares to Non-Residents shall be subject to the conditions, if any, as may be prescribed by the Government of India/RBI while granting such approvals.

As Per the Extent Guidelines of the Government of India, OCBS Cannot Participate in this Issue

The current provisions of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, provides a general permission for the NRIs, FPIs and foreign venture capital investors registered with SEBI to invest in shares of Indian companies by way of subscription in an IPO. However, such investments would be subject to other investment restrictions under the Foreign Exchange Management (Transfer or issue of Security by a Person Resident outside India) Regulations, 2000, RBI and/or SEBI regulations as may be applicable to such investors. As per the existing RBI regulations, OCBs are not eligible to participate in this Bid/Issue. The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated December 8, 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as incorporated non-resident entities in terms of Regulation 5(1) of RBI Notification No. 20/2000-RB dated May 03, 2000 under FDI Scheme with the prior approval of Government if the investment is through Government Route and with the prior approval of RBI if the investment is through Automatic Route on case by case basis. OCBs may invest in this Issue provided it obtains a prior approval from the RBI or prior approval from Government, as the case may be. On submission of such approval along with the Bid cum Application Form, the OCB shall be eligible to be considered for Equity Share allocation. The Allotment of the Equity Shares to Non-Residents shall be subject to the conditions, if any, as may be prescribed by the Government of India/RBI while granting such approvals.

Option to receive securities in Dematerialized Form

In accordance with the SEBI ICDR Regulations, Allotment of Equity Shares to successful Bidders will only be in the dematerialized form. Bidders will not have the option of Allotment of the Equity Shares in physical form. The Equity Shares on Allotment will be traded only on the dematerialized segment of the Stock Exchange. Allottees shall have the option to re- materialize the Equity Shares, if they so desire, as per the provisions of the Companies Act and the Depositories Act.

Further, it is mandatory for the investor to furnish the details of his/her depository account, & if for any reason, details of the account are incomplete or incorrect the application shall be treated as incomplete & may be rejected by the Company without any prior notice.

New Financial Instruments

There are no new financial instruments such as deep discounted bonds, debentures, warrants, secured premium notes, etc. issued by our Company.

Listing and trading of the Equity Shares to be issued pursuant to this Issue:

Subject to receipt of the listing and trading approvals, the Equity Shares proposed to be issued pursuant to this Issue shall be listed and admitted for trading on the Stock Exchange. Unless otherwise permitted by the SEBI ICDR Regulations, the Equity Shares Allotted pursuant to this Issue will be listed as soon as practicable and all steps for completion of necessary formalities for listing and commencement of trading in the Equity Shares will be taken within such period prescribed under the SEBI ICDR Regulations, 2018 and SEBI LODR Regulations, 2015, as amended. Our Company has applied for the in-principle approval from the Stock Exchange through letter bearing reference number [●] dated [●]. Our Company will apply to the Stock Exchange for final approvals for the listing and trading of the Equity Shares subsequent to their Allotment. No assurance can be given regarding the active or sustained trading in the Equity Shares or the price at which the Equity Shares issued under this Issue will trade after the listing thereof. The listing and trading of the Equity Shares issued pursuant to this Issue shall be based on the current regulatory framework then applicable. Accordingly, any change in the regulatory regime would affect the listing and trading schedule. In case our Company fails to obtain listing or trading permission from the Stock Exchange, our Company shall refund through verifiable means / unblock the respective ASBA Accounts, the entire monies blocked within four working days of receipt of intimation from the Stock Exchange, rejecting the issuance of the Equity Shares, and if any such money is not refunded/unblocked within the respective periods as described above, after our Company becomes liable to unblock it, our Company and every director of our Company who is an officer-in-default shall, on and from the expiry of the last day, be jointly and severally liable to repay that money with interest at such rate and within such time as may be prescribed under applicable laws.

The above information is given for the benefit of the Bidders. The Bidders are advised to make their own enquiries about the limits applicable to them. Our Company and the Book Running Lead Manager do not accept any responsibility for the completeness and accuracy of the information stated hereinabove. Our Company and the Book Running Lead Manager are not liable to inform the investors of any amendments or modifications or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 modifying the process timelines and extending the implementation timelines for certain measures introduced by the March 16 Circular. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹ 5,00,000/- shall use the UPI Mechanism. This circular shall come into force for initial public offers opening on/or after May 1, 2022, and the provisions of this circular are deemed to form part of this Draft Red Herring Prospectus. Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings shall be processed only after application monies are blocked in the bank accounts of investors (all categories).

Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, SEBI circular no SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022 and SEBI master circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023 has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. The provisions of these circulars are deemed to form part of this Draft Prospectus. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual Bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹500,000 shall use the UPI Mechanism.

Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after 271 application monies are blocked in the bank accounts of investors (all categories). Accordingly, Stock Exchanges shall, for all categories of investors and other reserved categories and also for all modes through which the applications are processed, accept the ASBA applications only with a mandatory confirmation on the application monies blocked.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two (2) Working Days from the Issue Closing Date, the Bidder shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding two (2) Working Days from the Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The LM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Additionally, SEBI vide its circular no. SEBI/HO/CFD/PoD2/P/CIR/2023/00094 dated June 21, 2023 has reduced the time period for refund of application monies from 15 days to four days.

The processing fees for applications made by Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 02, 2021, read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

Our Company and the Book Running Lead Manager do not accept any responsibility for the completeness and accuracy of the information stated in this section and the General Information Document and are not liable for any amendment, modification or change in the applicable law, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in the Draft Red Herring Prospectus Red Herring Prospectus and the Prospectus, when filed.

Further, our Company and the Syndicate are not liable for any adverse occurrence's consequent to the implementation of the UPI Mechanism for application in this Issue.

PHASED IMPLEMENTATION OF UNIFIED PAYMENTS INTERFACE

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by Individual Investors through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I: This phase is applicable from January 1, 2019 and will continue up to June 30, 2019. Under this phase, an Individual Investor would also have the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public Issue closure to listing would continue to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI pursuant to its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, had decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Subsequently, SEBI pursuant to its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. Under this phase, submission of the ASBA Form by RIIs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds was discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continued to be six Working Days during this phase.

Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI. The Issue has been advertised in all editions of [●] (a widely circulated English national daily newspaper), all editions of [●] (a widely circulated Hindi national daily newspaper) and [●] editions of [●] (a widely circulated [●] daily newspaper, where [●] our Registered Office is located), on or prior to the Bid/Issue Opening Date and such advertisement has also been made available to the Stock Exchange for the purpose of uploading on their websites.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalized under the relevant securities law. Additionally, if there is any delay in the redressal of investors complaints in this regard, the relevant SCSB as well as the post – Issue BRLM will be required to compensate the concerned investor.

All SCSBs offering the facility of making applications in public issues are required to provide a facility to make applications using the UPI Mechanism. Further, in accordance with the UPI Circulars, our Company has appointed [●] as the Sponsor Bank to act as a conduit between the Stock Exchange and NPCI in order to facilitate collection of requests and / or payment instructions of the Individual Investors into the UPI mechanism.

Pursuant to the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("UPI Streamlining Circular"), SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Streamlining Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one Working Day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant

securities law. Further, in terms of the UPI Circulars, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLM, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

The processing fees for applications made by Individual Investors using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 02, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 NPCI vide circular reference no. NPCI/UPI/OC No. 127/ 2021-22 dated December 09, 2021, inter alia, has enhanced the per transaction limit in UPI from more than ₹200,000 to ₹500,000 for UPI based ASBA in initial public offerings.

SEBI through its ICDR Master Circular, has prescribed that all individual investors applying in initial public offerings opening on or after May 01, 2022, where the application amount is up to ₹ 5,00,000, shall use UPI. Individual investors bidding under the Non-Institutional Portion bidding for more than ₹ 2,00,000 and up to ₹ 5,00,000, using the UPI Mechanism, shall provide their UPI ID in the Bid-cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

All SCSBs offering facility of making application in public Issue shall also provide facility to make application using UPI. Our Company will be required to appoint Sponsor Banks to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/or payment instructions of the UPI Bidders using the UPI.

For further details, refer to the *"General Information Document"* available on the websites of the Stock Exchange and the BRLM. The General Information Document will be available on the website of the Exchange and BRLM after the filing of the Red Herring Prospectus.

For ASBA Forms (other than through the UPI Mechanism) Designated Intermediaries (other than SCSBs) shall submit/deliver the ASBA Forms to the respective SCSB where the Bidder has an ASBA bank account and does not submit it to any non-SCSB bank or any Escrow Collection Bank. For UPI Bidders using the UPI Mechanism, the Stock Exchange shall share the Bid details (including UPI ID) with the Sponsor Bank(s) on a continuous basis to enable the Sponsor Bank(s) to initiate the UPI Mandate Request to UPI Bidders for blocking of funds. The Sponsor Bank(s) shall initiate request for blocking of funds through NPCI to UPI Bidders, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI shall maintain an audit trail for every bid entered in the Stock Exchange bidding platform, and the liability to compensate UPI Bidders (using the UPI Mechanism) in case of failed transactions shall be with the concerned entity (i.e., the Sponsor Bank(s), NPCI or the Bankers to an Issue) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/investor complaints to the Sponsor Bank(s) and the Bankers to the Issue. The BRLM shall also be required to obtain the audit trail from the Sponsor Bank(s) and the Bankers to the Issue for analyzing the same and fixing liability. For ensuring timely information to investors, SCSBs shall send SMS alerts as specified in the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to the SEBI circulars dated June 2, 2021, and April 20, 2022. For all pending UPI Mandate Requests, the Sponsor Bank(s) shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/Issue Closing Date ("Cut-Off Time"). Accordingly, UPI Bidders Bidding through the UPI Mechanism should accept UPI Mandate Requests for blocking off funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse. The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the SCSBs only after such banks provide a written confirmation on compliance with the UPI Circulars. The Sponsor Bank(s) will undertake a reconciliation of Bid responses received from Stock Exchange and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchange platform with detailed error code and description, if any. Further, the Sponsor Bank(s) will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the BRLM in the format and within the timelines as specified under the UPI Circulars. Sponsor Bank(s) and issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three-way reconciliation with UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with issuer banks and Sponsor Bank(s) on a continuous basis.

The Sponsor Bank(s) shall host a web portal for intermediaries (closed user group) from the date of Bid/Issue Opening Date until the date of listing of the Equity Shares with details of statistics of mandate blocks/unblocks, performance of apps and

UPI handles, down-time/network latency (if any) across intermediaries and any such processes having an impact/bearing on the Issue Bidding process.

As per the existing regulations, OCBs are not eligible to participate in this issue. The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated December 8, 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as incorporated non-resident entities in terms of Regulation 5(1) of RBI Notification No.20/2000-RB dated May 3, 2000 under the FDI Scheme with the prior approval of Government if the investment is through Government Route and with the prior approval of RBI if the investment is through Automatic Route on case by case basis. OCBs may invest in this issue provided it obtains prior approval from the RBI. On submission of such approval along with the Application Form, the OCB shall be eligible to be considered for share allocation.

MAXIMUM AND MINIMUM APPLICATION SIZE

1. **For Individual Investors**

   The Application must be for a minimum of two lots. The Application must be for a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter, so as to ensure that the Application Price payable by the Bidder exceeds ₹ 2,00,000. In case of revision of Applications, the Individual Investors have to ensure that the Application Price exceeds ₹2,00,000.

2. **For Other than Individual Investors (Non-Institutional Investors and QIBs)**

   The Application must be for a minimum of such number of Equity Shares that the Application Amount exceeds ₹ 2,00,000 and in multiples of [●] Equity Shares thereafter. An application cannot be submitted for more than the Net Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Bidder cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application.

   In case of revision in Applications, the Non-Institutional Investors, who are individuals have to ensure that the Application Amount is for more than two lots for being considered for allocation in the Non-Institutional Portion.

Bidders are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Draft Red Herring Prospectus.

The above information is given for the benefit of the Bidders. The Company and the Book Running Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

METHOD OF BIDDING PROCESS

Our Company in consultation with the BRLM will decide the Price Band and the minimum Bid lot size for the Issue and the same shall be advertised in all editions of English national newspaper [●], all editions of Hindi national newspaper [●] and all Edition of Regional newspaper [●] where the registered office of the company is situated, each with wide circulation, each with wide circulation at least two Working Days prior to the Bid / Issue Opening Date. The BRLM and the SCSBs shall accept Bids from the Bidders during the Bid / Issue Period.

a. The Bid / Issue Period shall be for a minimum of three Working Days and shall not exceed 10 Working Days. The Bid/ Issue Period maybe extended, if required, by an additional three Working Days, subject to the total Bid/ Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Issue Period, if applicable, will be published in all editions of English national newspaper [●], all editions of Hindi national newspaper [●] and all Edition of Regional newspaper [●] where the registered office of the company is situated with wide circulation and also by indicating the change on the website of the Book Running Lead Manager.

b. During the Bid/ Issue Period, Individual Bidders, should approach the Book Running Lead Manager or their authorized agents to register their Bids. The Book Running Lead Manager shall accept Bids from Anchor Investors and ASBA Bidders in Specified Cities and it shall have the right to vet the Bids during the Bid/ Issue Period in accordance with the terms of the Red Herring Prospectus. ASBA Bidders should approach the Designated Branches or the Book Running Lead Manager (for the Bids to be submitted in the Specified Cities) to register their Bids.

c. Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled "Bids at Different Price Levels and Revision of Bids" below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Issue Price, the maximum number of Equity Shares Bid for by a Bidder/Applicant at or above the Issue Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.

d. The Bidder / Applicant cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a BRLM or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another BRLM or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Issue. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph "Buildup of the Book and Revision of Bids".

e. Except in relation to the Bids received from the Anchor Investors, the Book Running Lead Manager /the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a

Transaction Registration Slip, ("TRS"), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form.

f. The Book Running Lead Manager shall accept the Bids from the Anchor Investors during the Anchor Investor Bid/ Issue Period i.e. one working day prior to the Bid/ Issue Opening Date. Bids by QIBs under the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids. Along with the Bid cum Application Form, Anchor Investors will make payment in the manner described in "Escrow Mechanism - Terms of payment and payment into the Escrow Accounts" in the chapter titled "Issue Procedure" beginning on page 404 of this Draft Red Herring Prospectus.

g. Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form prior to uploading such Bids with the Stock Exchange.

h. If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.

i. If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.

j. The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal/failure of the Issue or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Issue Account. In case of withdrawal/failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

Bids at Different Price Levels and Revision of Bids

a. Our Company in consultation with the BRLM, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on either side i.e. the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided, falls within two different price bands than the minimum application lot size shall be decided based on the price band in which the higher price falls into.

b. Our Company in consultation with the BRLM, will finalize the Issue Price within the Price Band, without the prior approval of, or intimation, to the Bidders

c. The Bidders could Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity Shares at a specific price. Individual Investors may Bid at the Cut-off Price. However, bidding at the Cut-off Price is prohibited for QIB and Non-Institutional Investors and such Bids from QIB and Non- Institutional Investors shall be rejected.

d. Individual Investors, who Bid at Cut-off Price agreed that they shall purchase the Equity Shares at any price within the Price Band. Individual Investors shall submit the Bid cum Application Form along with a cheque/demand draft for the Bid Amount based on the Cap Price with the Syndicate. In case of ASBA Bidders (excluding Non-Institutional Bidders and QIB Bidders) bidding at Cut-off Price, the ASBA Bidders shall instruct the SCSBs to block an amount based on the Cap Price.

e. The price of the specified securities issued to an anchor investor shall not be lower than the price issued to other Bidders.

Participation by Associates /Affiliates of BRLM and the Syndicate Members

The BRLM and the Syndicate Members, if any, shall not be allowed to purchase in this Issue in any manner, except towards fulfilling their underwriting obligations. However, the associates and affiliates of the BRLM and the Syndicate Members, if any, may subscribe the Equity Shares in the Issue, either in the QIB Category or in the Non- Institutional Category as may be applicable to such Bidders, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients.

Neither the Book Running Lead Manager nor any persons related to the Book Running Lead Manager (other than Mutual Funds sponsored by entities related to the Book Running Lead Manager), Promoters and Promoter Group can apply in the Issue under the Anchor Investor Portion.

BIDS BY ANCHOR INVESTORS

Our Company in consultation with the BRLM, may consider participation by Anchor Investors in the issue for up to 60% of the QIB Portion in accordance with the SEBI Regulations. Only QIBs as defined in Regulation 2(1) (ss) of the SEBI Regulations and not otherwise excluded pursuant to Schedule XIII of the SEBI Regulations are eligible to invest. The QIB Portion will be reduced in proportion to allocation under the Anchor Investor Portion. In the event of undersubscription in the Anchor Investor Portion, the balance Equity Shares will be added to the QIB Portion.

In accordance with the SEBI Regulations, the key terms for participation in the Anchor Investor Portion are provided below:

1. Anchor Investor Bid cum Application Forms shall be made available for the Anchor Investors at the offices of the BRLM.

2. The Bid shall be for a minimum of such number of Equity Shares so that the Bid Amount is at least ₹ 200.00 lakhs. A Bid cannot be submitted for over 60% of the QIB Portion. In case of a Mutual Fund, separate Bids by individual schemes of a Mutual Fund will be aggregated to determine the minimum application size of ₹ 200.00 lakhs.

3. Forty percent shall be reserved in the following manner (i) 33.33% of the Anchor Investor Portion shall be reserved for domestic Mutual Funds; and (ii) 6.67% of the Anchor Investor Portion shall be reserved for Life Insurance Companies and Pension Funds, subject to valid Bids being received from domestic Mutual Funds and life insurance companies and pension funds

4. Bidding for Anchor Investors will open one Working Day before the Bid/ Issue Opening Date and be completed on the same day.

5. Our Company in consultation with the BRLM, may finalize allocation to the Anchor Investors on a discretionary basis, provided that the minimum and maximum number of Allottees in the Anchor Investor Portion will be, as mentioned below:

   - where allocation in the Anchor Investor Portion is up to ₹200.00 Lakhs, maximum of 2 (two) Anchor Investors.
   - where the allocation under the Anchor Investor Portion is more than ₹200.00 Lakhs but up to ₹2,500.00 Lakhs, minimum of 2 (two) and maximum of 15 (fifteen) Anchor Investors, subject to a minimum Allotment of ₹100.00 Lakhs per Anchor Investor; and
   - where the allocation under the Anchor Investor portion is more than ₹2,500.00 Lakhs: (i) minimum of 5 (five) and maximum of 15 (fifteen) Anchor Investors for allocation up to ₹2,500.00 Lakhs; and (ii) an additional 10 Anchor Investors for every additional allocation of ₹2,500.00 Lakhs or part thereof in the Anchor Investor Portion; subject to a minimum Allotment of ₹100.00 Lakhs per Anchor Investor.

6. Allocation to Anchor Investors shall be completed on the Anchor Investor Bid/ Issue Period. The number of Equity Shares allocated to Anchor Investors and the price at which the allocation shall be made available in the public domain by the BRLM before the Bid/Issue Opening Date, through intimation to the Stock Exchange.

7. Anchor Investors cannot withdraw or lower the size of their Bids at any stage after submission of the Bid.

8. If the Issue Price is greater than the Anchor Investor Allocation Price, the additional amount being the difference between the Issue Price and the Anchor Investor Allocation Price will be payable by the Anchor Investors within 2 (two) Working Days from the Bid/ Issue Closing Date. If the Issue Price is lower than the Anchor Investor Allocation Price, Allotment to successful Anchor Investors will be at the higher price, i.e., the Anchor Investor issue Price.

9. At the end of each day of the bidding period, the demand including allocation made to anchor investors, shall be shown graphically on the bidding terminals of syndicate members and website of stock exchange offering electronically linked transparent bidding facility, for information of public.

10. 50% of the Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 90 days from the date of Allotment, while the remaining 50% of the Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 30 days from the date of Allotment.

11. The BRLM, our Promoters, Promoter Group or any person related to them (except for Mutual Funds sponsored by entities related to the BRLM) will not participate in the Anchor Investor Portion. The parameters for selection of Anchor Investors will be clearly identified by the BRLM and made available as part of the records of the BRLM for inspection by SEBI.

12. Bids made by QIBs under both the Anchor Investor Portion and the QIB Portion will not be considered multiple Bids.

13. Anchor Investors are not permitted to Bid in the Issue through the ASBA process.

In the event that the Issue Price is higher than the Anchor Investor Allocation Price:

Anchor Investors will be sent a revised CAN within one day of the Pricing Date indicating the number of Equity Shares allocated to such Anchor Investor and the pay-in date for payment of the balance amount. Anchor Investors are then required to pay any additional amounts, being the difference between the Issue Price and the Anchor Investor Allocation Price, as indicated in the revised CAN within the pay- in date referred to in the revised CAN. Thereafter, the Allotment Advice will be issued to such Anchor Investors.

In the event the Issue Price is lower than the Anchor Investor Allocation Price:

Anchor Investors who have been Allotted Equity Shares will receive Allotment Advice.

Basis of Allotment for QIBs (other than Anchor Investors and NIIs) in case of Over Subscribed Issue:

In the event of the Issue Being Over-Subscribed, the Issuer may finalise the Basis of Allotment in consultation with the BSE (The Designated Stock Exchange). The allocation may be made in marketable lots on a proportionate basis as set forth hereunder:

a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e., the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by the number of Shares applied for).
b) The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis in marketable lots (i.e., Total number of Shares applied for into the inverse of the over subscription ratio).
c) For Bids where the proportionate allotment works out to less than [●] Equity Shares of the face value of ₹ 10/- each the allotment will be made as follows:
    - Each successful Bidder shall be allotted [●] Equity Shares of face value of ₹ 10/- each; and
    - The successful Bidder out of the total bidders for that category shall be determined by drawing lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.
d) If the proportionate allotment to a Bidder works out to a number that is not a multiple of [●] Equity Shares of face value of ₹ 10/- each, the Bidder would be allotted Shares by rounding off to the nearest

multiple of [●] Equity Shares of face value of ₹ 10/- subject to a minimum allotment of [●] Equity Shares of face value of ₹ 10/- each.

e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category the balance Shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] Equity Shares of face value of ₹ 10/- each, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Issue specified under the Capital Structure mentioned in this Draft Red Herring Prospectus.

f) Individual Investor means an investor who applies for minimum bid lot i.e [●] Equity Shares and value exceeds ₹ 2,00,000/. Investors may note that in case of over subscription, allotment shall be on proportionate basis

g) The Executive Director/Managing Director of the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

Flow of events from the closure of Bidding period (T DAY) till Allotment:

- On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details.
- RTA identifies cases with mismatch of account number as per bid file / FC and as per Bidder's bank account linked to depository Demat account and seek clarification from SCSB to identify the applications with third party account for rejection.
- Third party confirmation of applications to be completed by SCSBs on T+1 day.
- RTA prepares the list of final rejections and circulate the rejections list with BRLM(s)/ Company for their review/ comments.
- Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange (DSE).
- The DSE, post verification approves the basis and generates drawal of lots wherever applicable, through a random number generation software.
- The RTA uploads the drawal numbers in their system and generates the final list of allotees as per process mentioned below:

Process for generating list of allotees: -

- Instructions shall be given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket /batch as per the allotment ratio. For example, if the application number is 78654321 then system reverses it to 12345687 and if the ratio of allottees to Bidders in a category is 2:7 then the system will create lots of 7. If the drawal of lots provided by BSE is 3 and 5 then the system will pick every 3rd and 5th application in each of the lot of the category and these application s will be allotted the shares in that category.
- In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the oversubscription times.
- In categories where there is undersubscription, the Registrar will do full allotment for all valid applications.
- On the basis of the above, the RTA will work out the allotees, partial allotees and non- allottees, prepare the fund transfer letters and advice the SCSBs to debit or unblock the respective accounts.

BIDS BY ELIGIBLE NRIS

Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRI Bidders bidding on a repatriation basis by using the Non-Resident Forms should authorize their SCSB (if they are Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of Bidding through the UPI Mechanism) to block their Non Resident External ("NRE") accounts, or Foreign Currency Non-Resident ("FCNR") Accounts, and eligible NRI Bidders bidding on a non- repatriation basis by using Resident Forms should authorize their SCSB (if they are Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of Bidding through the UPI Mechanism) to block their Non-Resident Ordinary ("NRO") accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form. APPLICATION BY FPIs INCLUDING FII's

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) must be below 10% of our post-Issue Equity Share capital. Further, in terms of the FEMA NDI Rules, with effect from April 1, 2020, the aggregate FPI investment limit is the sectoral cap applicable to an Indian company as prescribed in the FEMA NDI Rules with respect to its paid-up equity capital on a fully diluted basis.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time. In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non-Residents.

In terms of the FEMA, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

The FEMA NDI Rules were enacted on October 17, 2019 in supersession of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017, except as respects things done or omitted to be done before such supersession. FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments(as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing off-shore derivate instruments is also required to ensure that any transfer of off-shore derivative instruments issued by, or on behalf of it subject to, inter alia, the following conditions:

i. such offshore derivative instruments are transferred to person subject to fulfilment of SEBI FPI Regulations; and

ii. prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred are pre-approved by the FPI.

Bids by FPIs which utilize the multi-investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants issued to facilitate implementation of the SEBI FPI Regulations ("Operational FPI Guidelines"), submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs shall not be treated as multiple Bids ("MIM Bids"). It is hereby clarified that FPIs bearing the same PAN may be treated as multiple Bids by a Bidder and may be rejected, except for Bids from FPIs that utilize the multi- investment manager structure in accordance with the Operational FPI Guidelines (such structure referred to as "MIM Structure"). In order to ensure valid Bids, FPIs making MIM Bids using the same PAN and with different beneficiary account numbers, Client IDs and DP IDs, are required to submit a confirmation that their Bids are under the MIM Structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids shall be rejected.

In terms of the SEBI FPI Regulations, an FII who holds a valid certificate of registration from SEBI shall be deemed to be a registered FPI until the expiry of the block of three years for which fees have been paid as per the SEBI FII Regulations.

An FII or sub-account may, subject to payment of conversion fees under the SEBI FPI Regulations participate in the issue until the expiry of its registration with SEBI as an FII or sub-account, or if it has obtained a certificate of registration as an FPI, whichever is earlier. Accordingly, such FIIs can, subject to the payment of conversion fees under the SEBI FPI Regulations, participate in this Issue in accordance with Schedule 2 of the FEMA Regulations. An FII shall not be eligible to invest as an FII after registering as an FPI under the SEBI FPI Regulations.

In terms of the SEBI FPI Regulations, the investment in Equity Shares by a single FPI or an investor group (which means multiple entities registered as FPIs and directly or indirectly having common ownership of more than 50% or common control) must be below 10% of our post-Issue Equity Share capital. Further, in

terms of the FEMA Non-Debt Instruments Rules, with effect from April 1, 2020, the total holding by each FPI or an investor group shall be below 10% of the total paid-up Equity Share capital of our Company and the total holdings of all of all FPIs put together shall not exceed 24% of the paid-up Equity Share capital of our Company. The aggregate limit of 24% may be increased up to the sectoral cap by way of a resolution passed by the Board of Directors followed by a special resolution passed by the Shareholders of our Company and subject to prior intimation to RBI. In terms of the FEMA Regulations, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs as well as holding of FIIs (being deemed FPIs) shall be included.

Further, pursuant to the Master Directions on Foreign Investment in India issued by the RBI dated January 4, 2018 (updated as on January 20, 2025) the investments made by a SEBI registered FPI in a listed Indian company will be reclassified as FDI if the total shareholding of such FPI increases to 10% or more of the total paid-up equity share capital on a fully diluted basis or 10% or more of the paid-up value of each series of convertible debentures or preference shares or warrants.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time. In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the BRLM reserves the right to reject any Bid without assigning any reason, subject to applicable laws.

FPIs shall be permitted to participate in the Issue subject to compliance with conditions and restrictions specified by the Government from time to time. In terms of the FEMA Non-debt Instruments Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be required to be included. To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalization of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Issue to ensure there is no breach of the investment limit, within the timelines for Issue Procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 22 of the SEBI FPI Regulations, a FPI, other than Category III foreign portfolio investor and unregulated broad based funds, which are classified as Category II foreign portfolio investor by virtue of their investment manager being appropriately regulated, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with know your client norms. Further, pursuant to a Circular dated November 24, 2014 issued by the SEBI, FPIs are permitted to issue offshore derivate instruments only to subscribers that (i) meet the eligibility criteria set forth in Regulation 4 of the SEBI FPI Regulations; and (ii) do not have opaque structures, as defined under the SEBI FPI Regulations. An FPI is also required to ensure that no further issue or transfer of any offshore derivative instrument is made by or on behalf of it to any persons that are not regulated by an appropriate foreign regulatory authority. Further, where an investor has investments as FPI and also holds positions as an overseas direct investment subscriber, investment restrictions under the SEBI FPI Regulations shall apply on the aggregate of FPI investments and overseas direct investment positions held in the underlying Indian company.

The FPIs who wish to participate in the issue are advised to use the Bid cum Application Form for non-residents. FPIs are required to apply through the ASBA process to participate in the issue.

Bids received from FPIs bearing the same PAN shall be treated as multiple Bids and shall be liable to be rejected, except for Bids from FPIs that utilize the multiple investment manager structure in accordance with SEBI master circular bearing reference number SEBI/HO/AFD/AFD-PoD-2/P/CIR/2024/70 dated May 30, 2024, and further clarified by Circular Nos. SEBI/HO/AFD/AFD-PoD-2/P/CIR/2024/77 dated June 5, 2024 and SEBI/HO/AFD/AFD-PoD-2/P/CIR/2024/89 dated June 27, 2024. Such bids shall be considered valid only if they are submitted using distinct, provided such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs and comply with all applicable conditions prescribed for MIM structured FPIs, including those based in International Financial Services Centres (IFSCs) regulated by IFSCA.

Accordingly, it should be noted that multiple Bids received from FPIs, who shall not utilize the multiple investment managers (MIM) Structure, and bear the same PAN, shall be liable to be rejected. In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation in the Bid cum Application Forms that the relevant FPIs making multiple Bids utilize the MIM Structure. In the absence of such confirmation from the relevant FPIs, such multiple Bids are required to be rejected.

APPLICATION BY SEBI REGISTERED AIFS, VCFS AND FVCIS

The SEBI FVCI Regulations, SEBI VCF Regulations and the SEBI AIF Regulations prescribe, inter alia, the investment restrictions on the FVCIs, VCFs and AIFs registered with SEBI respectively. FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering. Category I AIF and Category II AIF cannot invest more than 25% of the investible funds in one investee company directly or through investment in the units of other AIFs. A Category III AIF cannot invest more than 10% of the investible funds in one investee company directly or through investment in the units of other AIFs. AIFs which are authorized under the fund documents to invest in units of AIFs are prohibited from offering their units for subscription to other AIFs. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its investible funds by way of subscription to an initial public offering of a venture capital undertaking. Additionally, a VCF that has not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations (and accordingly shall not be allowed to participate in the Issue) until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

Further, the shareholding of VCFs, category I AIFs or category II AIFs and FVCIs holding Equity Shares prior to Issue, shall be locked-in for a period of at least one year from the date of purchase of such Equity Shares.

All non-residents' Investors should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of Bank charges and commission.

Our Company or the Book Running Lead Manager will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

APPLICATION BY MUTUAL FUNDS

With respect to Applications by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged with the Bid Cum Application Form. Failing this, our Company in consultation with the Book Running Lead Manager, reserves the right to accept or reject any Application in whole or in part, in either case, without assigning any reason thereof, subject to applicable law.

The Applications made by the asset management companies or custodians of Mutual Funds shall specifically state the names of the concerned schemes for which the Applications are made.

In case of a Mutual Fund, a separate Application can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Applications in respect of more than one scheme of the Mutual Fund will not be treated as multiple Applications provided that the Applications clearly indicate the scheme concerned for which the Application has been made.

No mutual fund scheme shall invest more than 10% of its net asset value in the Equity Shares or equity related instruments of any single Company provided that the limit of 10% shall not be applicable for investments in index funds or sector or industry specific funds.

No mutual fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

APPLICATION BY HUFs

Applications by HUF should be made in the individual name of the Karta. The Applicant should specify that the Application is being made in the name of the HUF in the Bid cum Application Form as follows: "Name of sole or first Applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta." Applications by HUFs may be considered at par with Applications from individuals.

APPLICATION BY SYSTEMICALLY IMPORTANT NON-BANKING FINANCIAL COMPANIES

In case of Applications made by systemically important non-banking financial companies registered with RBI, certified copies of:
(i) the certificate of registration issued by the RBI, (ii) the last audited financial statements on a standalone basis, (iii) a net worth certificate from its statutory auditors, and (iv) such other approval as may be required by the Systemically Important NBFCs must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Application, without assigning any reason thereof.

Systemically Important NBFCs participating in the issue shall comply with all applicable regulations, guidelines and circulars issued by RBI from time to time.

The investment limit for Systemically Important NBFCs shall be as prescribed by RBI from time to time.

APPLICATIONS BY LIMITED LIABILITY PARTNERSHIPS

In case of applications made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of the certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form, failing which, our Company in consultation with the Book Running Lead Manager, reserves the right to reject any Application, without assigning any reason thereof.

APPLICATIONS BY INSURANCE COMPANIES

In case of Applications made by insurance companies registered with the IRDA, a certified copy of the certificate of registration issued by IRDA must be attached to the Bid cum Application Form, failing which,

our Company in consultation with the Book Running Lead Manager reserves the right to reject any Application without assigning any reason thereof.

The exposure norms for insurers are prescribed under the IRDAI Investment Regulations, based on investments in equity shares of the investee company, the entire group of the investee company and the industry sector in which the investee company operates. Insurance companies participating in the Issue are advised to refer to the IRDAI Investment Regulations 2016, as amended, which are broadly set forth below:

a) Equity shares of a company: the lower of 10%* of the investee company's outstanding equity shares (face value) or 10% of the respective fund in case of a life insurer or 10% of investment assets in case of a general insurer or a reinsurer;

b) The entire group of the investee company: not more than 15% of the respective fund in case of a life insurer or 15% of investment assets in case of a general insurer or a reinsurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and

c) The industry sector in which the investee company operates; not more than 15% of the fund of a life insurer or a reinsurer or general insurance or 15% of the investment assets, whichever is lower.

The maximum exposure limit, in the case of an investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or general insurer and the amount calculated under points (a), (b) or (c) above, as the case may be.

**The above limit of 10% shall stand substituted as 15% of outstanding equity shares (face value) for insurance companies with investment assets of ₹25,000,000 Lakhs or more and 12% of outstanding equity shares (face value) for insurers with investment assets of ₹5,000,000 lakhs or more but less than ₹25,000,000 Lakhs.*

Insurer companies participating in this Issue shall comply with all applicable regulations, guidelines and circulars issued by the IRDA from time to time, including the IRDA Investment Regulations.

APPLICATION UNDER POWER OF ATTORNEY

In case of Bids made pursuant to a power of attorney or by limited companies, corporate bodies, registered societies, Eligible FPIs, Mutual Funds, Systemically Important NBFCs, insurance companies, insurance funds set up by the army, navy or air force of the Union of India, insurance funds set up by the Department of Posts, India, or the National Investment Fund and provident funds with a minimum corpus of ₹ 2,500 lakhs (subject to applicable law) and pension funds with a minimum corpus of ₹ 2,500 lakhs, a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to accept or reject any Bid in whole or in part, in either case without assigning any reason therefor.

Our Company, in consultation with the BRLM, in their absolute discretion, reserves the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form subject to the terms and conditions that our Company, in consultation with the BRLM may deem fit.

APPLICATION BY PROVIDENT FUNDS / PENSION FUNDS

In case of applications made by provident funds/pension funds, subject to applicable laws, with minimum corpus of ₹25 crores, registered with the Pension Fund Regulatory and Development Authority established under sub- section (1) of section 3 of the Pension Fund Regulatory and Development Authority Act, 2013, a certified copy of the certificate from a chartered accountant certifying the corpus of the provident fund/ pension fund must be attached to the Application Form. Failing this, the Company, in consultation with the Book Running Lead Manager, reserves the right to reject any application, without assigning any reason thereof.

APPLICATIONS BY BANKING COMPANIES

In case of Applications made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee must to be attached to the Application Form, failing which our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Application without assigning any reason. The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended (Banking Regulation Act), and the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended, is 10% of the paid-up share capital of the investee company not being its subsidiary engaged in non-financial services or 10% of the banks own paid-up share capital and reserves, whichever is lower.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid- up share capital of such investee company if (i) the investee company is engaged in non-financial activities permitted for banks in terms of Section 6(1) of the Banking Regulation Act, or (ii) the additional acquisition is through restructuring of debt / corporate debt restructuring / strategic debt restructuring, or to protect the banks' interest on loans / investments made to a company. The bank is required to submit a time bound action plan to the RBI for the disposal of such shares within a specified period. The aggregate investment by a banking company along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank; and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid-up share capital engaged in non-financial services. However, this cap doesn't apply to the cases mentioned in (i) and (ii) above. The aggregate equity investments made by a banking company in all subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments shall not exceed 20% of the bank's paid-up share capital and reserves.

In terms of the Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended (i) a bank's investment in the capital instruments issued by banking, financial and insurance entities should not exceed 10% of its capital funds; (ii) banks should not acquire any fresh stake in a bank's equity shares, if by such acquisition, the investing bank's holding exceeds 5% of the investee bank's equity capital; (iii) equity investment by a bank in a subsidiary company, financial services company, financial institution, stock and other exchanges should not exceed 10% of the bank's paid-up share capital and reserves; (iv) equity investment by a bank in companies engaged in non-financial services activities would be subject to a limit of 10% of the investee company's paid- up share capital or 10% of the bank's paid-up share capital and reserves, whichever is less; and (v) a banking company is restricted from holding shares in any company, whether as pledgee, mortgagee or absolute owner, of an amount exceeding 30% of the paid-up share capital of that company or 30% of its own paid-up share capital and reserves, whichever is less. For details in relation to the investment limits under Master Direction – Ownership in Private Sector Banks, Directions, 2016, see "Key Regulations and Policies" beginning on page 228 of this Draft Red Herring Prospectus.

14. The SCSBs shall be given one day after the Bid/ Issue Closing Date to send confirmation of Funds blocked (Final certificate) to the Registrar to the Issue.

15. The details uploaded in the online IPO system shall be considered as final and Allotment will be based on such details for applications.

Build of the Book

a) Bids received from various Bidders through the Designated Intermediaries may be electronically uploaded on the Bidding Platform of the Stock Exchange on a regular basis. The book gets built up at various price levels. This information may be available with the BRLM at the end of the Bid/ Issue Period.

b) Based on the aggregate demand and price for Bids registered on the Stock Exchange Platform, a graphical representation of consolidated demand and price as available on the websites of the Stock Exchange may be made available at the Bidding centers during the Bid/ Issue Period.

Withdrawal of Bids

a) RIIs can withdraw their Bids until Bid/ Issue Closing Date. In case a RII wishes to withdraw the Bid during the Bid/Issue Period, the same can be done by submitting a request for the same to the concerned Designated Intermediary who shall do the requisite, including unblocking of the funds by the SCSB in the ASBA Account

b) The Registrar to the Issue shall give instruction to the SCSB for unblocking the ASBA Account on the Designated Date. QIBs and NIIs can neither withdraw nor lower the size of their Bids at any stage.

Price Discovery and Allocation

a) Based on the demand generated at various price levels, our Company in consultation with the BRLM, shall finalize the Issue Price.

b) The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.

c) Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer and the in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.

d) In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an undersubscription applicable to the Issuer, Bidders may refer to the RHP.

e) In case if the Individual Investor category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage

f) Allocation to Anchor Investors shall be at the discretion of our Company and in consultation with the Book Running Lead Manager, subject to compliance with the SEBI Regulations.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67 %
1,000	23	1,000	50.00 %
1,500	22	3,000	100.00 %
2,000	21	5,000	166.67 %
2,500	20	7,500	250.00 %

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalize the Issue Price at or below such Cut-Off Price, i.e., at or below₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Anchor Investors are not allowed to withdraw their Bids after Anchor Investors bidding date

Other Instruction for the Bidders

Joint Bids in the case of Individuals

In the case of Joint Bids, the Bids should be made in the name of the Bidders whose name appears first in the Depository account. The name so entered should be the same as it appears in the Depository records. The signature of only such first Bidders would be required in the Bid cum Application Form/ Application Form and such first Bidder would be deemed to have signed on behalf of the joint holders. All payments may be made out in favour of the Bidder whose name appears in the Bid cum Application Form or the Revision Form and all communications may be addressed to such Bidder and may be dispatched to his or her address as per the Demographic Details received from the Depositories.

Applications may be made in single or joint names (not more than three). In the case of joint Applications, all payments will be made out in favour of the Bidder whose name appears first in the Application Form or Revision Form. All communications will be addressed to the First Bidder and will be dispatched to his or her address as per the Demographic Details received from the Depository.

Multiple Bids

A Bidder should submit only one Application (and not more than one) for the total number of Equity Shares required. Two or more Applications will be deemed to be multiple Applications if the sole or First Bidder is one and the same.

In this regard, the procedures that would be followed by the Registrar to the Issue to detect multiple applications are given below:

a) All applications are electronically strung on first name, address (1st line) and bidder's status. Further, these applications are electronically matched for common first name and address and if matched, these are checked manually for age, signature and father/husband's name to determine if they are

multiple applications.

b) Applications which do not qualify as multiple applications as per above procedure are further checked for common DP ID/beneficiary ID. In the case of applications with a common DP ID/beneficiary ID, are manually checked to eliminate the possibility of data entry errors to determine if they are multiple applications.

c) Applications which do not qualify as multiple applications as per above procedure are further checked for common PAN. All such matched applications with common PAN are manually checked to eliminate the possibility of data capture errors to determine if they are multiple applications.

In case of a mutual fund, a separate Application can be made in respect of each scheme of the mutual fund registered with SEBI and such Applications in respect of more than one scheme of the mutual fund will not be treated as multiple Applications provided that the Applications clearly indicate the scheme concerned for which the Application has been made.

In cases where there are more than 20 valid applications having a common address, such shares will be kept in abeyance, post allotment and released on confirmation of know your client's norms by the depositories. The Company reserves the right to reject, in our absolute discretion, all or any multiple Applications in any or all categories.

After submitting an ASBA Application either in physical or electronic mode, an ASBA Bidder cannot apply (either in physical or electronic mode) to either the same or another Designated Branch of the SCSB. Submission of a second Application in such a manner will be deemed a multiple Application and would be rejected. More than one ASBA Bidder may apply for Equity Shares using the same ASBA Account, provided that the SCSBs will not accept a total of more than five Application Forms with respect to any single ASBA Account.

Duplicate copies of Application Forms downloaded and printed from the website of the Stock Exchange bearing the same application number shall be treated as multiple applications and are liable to be rejected. The Company, in consultation with the BRLM reserves the right to reject, in its absolute discretion, all or any multiple applications in any or all categories. In this regard, the procedure which would be followed by the Registrar to the Issue to detect multiple applications is given below:

i. All Applications will be checked for common PAN. For Bidders other than Mutual Funds and FII sub accounts, Applications bearing the same PAN will be treated as multiple Applications and will be rejected.

ii. For Applications from Mutual Funds and FII sub-accounts, submitted under the same PAN, as well as Applications on behalf of the Bidders for whom submission of PAN is not mandatory such as the Central or State Government, an official liquidator or receiver appointed by a court and residents of Sikkim, the Application Forms will be checked for common DP ID and Client ID.

Permanent Account Number or PAN

Pursuant to the circular MRD/DoP/Circ 05/2007 dated April 27, 2007, SEBI has mandated Permanent Account Number (PAN) to be the sole identification number for all participants transacting in the securities market, irrespective of the amount of the transaction w.e.f. July 02, 2007. Each of the Bidders should mention his/her

PAN allotted under the IT Act. Bid submitted without this information will be considered incomplete and are liable to be rejected. It is to be specifically noted that Bidders should not submit the GIR number instead of the PAN, as the Application is liable to be rejected on this ground.

Right to Reject Applications

ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The allotment of Equity Shares to Bidders other than Individual Investors may be on proportionate basis. No Individual Investor will be allotted less than the minimum Bid Lot subject to availability of shares in Individual Investor Category and the remaining available shares, if any will be allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Issue. However, in case the Issue is in the nature of Issue for Sale only, then minimum subscription may not be applicable.

BASIS OF ALLOTMENT

a) **For Individual Investors**

Bids received from the Individual Investors at or above the issue Price shall be grouped together to determine the total demand under this category. The Allotment to all the successful Individual Investors will be made at the Issue Price.

The Issue size less Allotment to Non-Institutional and QIB Bidders shall be available for Allotment to Individual Investors who have Bid in the issue at a price that is equal to or greater than the issue Price. If the aggregate demand in this category is less than or equal to [●] Equity Shares of the face value of ₹ 10/- each at or above the issue Price, full Allotment shall be made to the Individual Investors to the extent of their valid Bids.

If the aggregate demand in this category is greater than [●] Equity Shares of the face value of ₹10/- each at or above the Issue Price, the Allotment shall be made on a proportionate basis up to a minimum of [●] Equity Shares of face value of ₹10/- each and in multiples of [●] Equity Shares of face value of ₹10/- each thereafter. For the method of proportionate Basis of Allotment, refer below.

b) **For Non-Institutional Bidders**

Bids received from Non-Institutional Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The Allotment to all successful Non-Institutional Bidders will be made at the Issue Price.

The Issue Size less allotment to QIBs and Individual Investor Portion shall be available for Allotment to Non-Institutional Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price. If the aggregate demand in this category is less than or equal to [●] Equity Shares of the face value of ₹10/- each at or above the Issue Price, full Allotment shall be made to Non- Institutional Bidders to the extent of their demand.

In case the aggregate demand in this category is greater than [●] Equity Shares of the face value of ₹10/- each at or above the Issue Price, Allotment shall be made on a proportionate basis up to a minimum of [●] Equity Shares of the face value of ₹10/- each and in multiples of [●] Equity Shares of the face value of ₹10/- each thereafter. For the method of proportionate Basis of Allotment refer below.

c) **Allotment to Anchor Investor**

a) Allocation of Equity Shares to Anchor Investors at the Anchor Investor Allocation Price will be at the discretion of the Issuer, in consultation with the BRLM, subject to compliance with the following requirements:

i. not more than 60% of the QIB Portion will be allocated to Anchor Investors;

ii. 40% of the anchor investor portion shall be reserved as 33.33% of the Anchor Investor Portion for domestic Mutual Funds, and 6.67 % for life insurance companies and pension funds subject to valid Bids being received from domestic Mutual Funds, Life insurance companies and Pension fund at or above the price at which allocation is being done to other Anchor Investors; and

iii. allocation to Anchor Investors shall be on a discretionary basis and subject to:

- a maximum number of two Anchor Investors for allocation up to ₹2 crores; a minimum number of two Anchor Investors and a maximum number of 15 Anchor Investors for

allocation of more than ₹2 crores and up to ₹25 crores subject to minimum allotment of ₹1 crores per such Anchor Investor; and

- in case of allocation above twenty-five crore rupees; a minimum of 5 such investors and a maximum of 15 such investors for allocation up to twenty-five crore rupees and an additional 10 such investors for every additional twenty- five crore rupees or part thereof, shall be permitted, subject to a minimum allotment of one crore rupees per such investor.

b) A physical book is prepared by the Registrar on the basis of the Anchor Investor Application Forms received from Anchor Investors. Based on the physical book and at the discretion of the Issuer, in consultation with the BRLM, selected Anchor Investors will be sent a CAN and if required, a revised CAN.

d) **For QIBs**

For the Basis of Allotment to Anchor Investors, Bidders/Applicants may refer to the SEBI (ICDR) Regulations or Red Herring Prospectus / Prospectus. Bids received from QIBs Bidding in the QIB Category (net of Anchor Portion) at or above the Issue Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Issue Price. Allotment shall be undertaken in the following manner:

a) In the first instance allocation to Mutual Funds for [●] % of the QIB Portion shall be determined as follows:

- In the event that Bids by Mutual Funds exceeds [●] % of the QIB Portion, allocation to Mutual Funds shall be done on a proportionate basis for [●] % of the QIB Portion.
- In the event that the aggregate demand from Mutual Funds is less than [●] % of the QIB Portion then all Mutual Funds shall get full Allotment to the extent of valid Bids received above the Issue Price.
- Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available for Allotment to all QIB Bidders as set out in (b) below;

b) In the second instance Allotment to all QIBs shall be determined as follows:

- In the event that the oversubscription in the QIB Portion, all QIB Bidders who have submitted Bids above the Issue Price shall be allotted Equity Shares of face value of ₹10/- each on a proportionate basis, up to a minimum of [●] Equity Shares of face value of ₹10/- each and in multiples of [●] Equity Shares thereafter for [●] % of the QIB Portion.
- Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis, up to a minimum of [●] Equity Shares of face value of ₹10/- each and in multiples of [●] Equity Shares of face value of ₹10/- each thereafter, along with other QIB Bidders.
- Under-subscription below [●] % of the QIB Portion, if any, from Mutual Funds, would be included for allocation to the remaining QIB Bidders on a proportionate basis. The aggregate Allotment to QIB Bidders shall not be more than [●] Equity Shares of face value of ₹10/- each.

e) **Basis of Allotment for QIBs and NIIs in case of Over Subscribed Issue:**

In the event of the Issue being Over-Subscribed, the Issuer may finalize the Basis of Allotment in consultation with the BSE SME (The Designated Stock Exchange). The allocation may be made in marketable lots on a proportionate basis as set forth hereunder:

a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by the number of Shares applied for).

b) The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis in marketable lots (i.e., Total number of Shares applied for into the inverse of the over subscription ratio).

c) For Bids where the proportionate allotment works out to less than [●] Equity Shares of the face value of ₹10/- each the allotment will be made as follows:

- Each successful Bidder shall be allotted [●] Equity Shares of face value of ₹10/- each; and
- The successful Bidder out of the total bidders for that category shall be determined by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.

d) If the proportionate allotment to a Bidder works out to a number that is not a multiple of [●] Equity Shares of face value of ₹10/- each, the Bidder would be allotted Shares by rounding off to the nearest multiple of [●] Equity Shares of face value of ₹10/- subject to a minimum allotment of [●] Equity Shares of face value of ₹10/- each.

e) If the Shares allotted on a proportionate basis to any category is more than the Equity Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] Equity Shares of face value of ₹10/- each, results in the actual allotment being higher than the shares issued, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Issue specified under the Capital Structure mentioned in this Draft Red Herring Prospectus.

Individual Investor means an investor who applies for Minimum two lots. Investors may note that in Case of over subscription, allotment shall be on proportionate basis and will be finalized in consultation with BSE.

The Executive Director / Managing Director of BSE- the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (*earlier known as Department of Industrial Policy and Promotion*) (**"DPIIT"**), issued the FDI Policy, which is effective from October 15, 2020, which subsumes and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect prior to October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular. Under the current FDI Policy, 100% foreign direct investment is permitted in the Manufacturing Sector, under the automatic route, subject to compliance with certain prescribed conditions.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that: (i) the activities of the investee company are under the automatic route under the FDI policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country ("**Restricted Investor**"), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future FDI in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction / purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Each Bidder should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Issue in writing about such approval along with a copy thereof within the Issue Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

The Equity Shares offered in the Issue have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States, and unless so registered may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, such Equity Shares are being offered and sold (i) outside of the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers, and sales occur.
